PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Fund is only suitable for investors who:
 - seek to achieve a total return of capital growth and income over the medium to long term from investment in equity investments listed and traded on the Tokyo Stock Exchange; and
 - are willing and able to accept that their principal will be at risk.

You should consult your financial advisers if in doubt about whether this product is suitable for you.

Further information

Refer to Para 7.2 of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a unit trust constituted in Singapore that aims to provide a total return of capital growth and income over the medium to long term by investing in equity investments listed and traded on the Tokyo Stock Exchange.
- In respect of the USD Class Units, the USD Hedged Class Units, the USD Hedged Class B Units, the SGD Class Units, the SGD Class B Units, the SGD Hedged Class B Units, the SGD Hedged Class Units and the RMB Class Units, the Manager currently intends to make monthly distributions of approximately 5% to 7% per annum for each Class. The Manager will decide whether a distribution is to be made based on various factors, including dividend and/or interest income and/or capital gains derived from the investments of the Fund (collectively, the “**Investment Income**”). If the Investment Income is insufficient to fund a distribution for the Fund, the Manager may, after consulting the auditors of the Fund and with the approval of the Trustee, determine that such distributions should be paid from the capital of the Fund. Where distributions are paid out of capital, the NAV of the relevant Class will be reduced.
- In respect of the USD (Acc) Class Units and the USD Hedged (Acc) Class Units, no distributions will be made for these Classes.
- Currently, you can invest in the USD Hedged Class Units, the SGD Hedged Class Units or the SGD Class Units. The SGD Class B Units, the SGD Hedged Class B Units, the USD Class Units, the USD Hedged Class B Units, the USD (Acc) Class Units, the USD Hedged (Acc) Class Units and the RMB Class Units will be available for subscription at such time as the Manager may decide.
- The base currency of the Fund is JPY.

Refer to Para 5, 7.1, 7.3 and 9.2.6 of the Prospectus for further information on features of the Fund.

Investment Strategy

- The Fund’s investment focus is to invest in a diversified portfolio of dividend producing equity investments listed and traded on the Tokyo Stock Exchange that offer attractive and sustainable dividends from companies with relatively strong sustainable cash flows, stable growth and stable dividend payout.
- The Fund will be actively managed and may allocate up to 30% of its NAV to cash to manage any downside market fluctuations and hence its investment approach will not be relative or constrained to its benchmark.
- At the Fund level, the Fund’s exposure to the JPY will be unhedged.
- There is no target industry or sector.

Refer to Para 7.1 of the Prospectus for further information on the investment strategy of the Fund.

¹ The Prospectus is available for collection at the Managers’ business address at 12 Marina View, #18-02, Asia Square Tower 2, Singapore 018961 during usual business hours or accessible at www.nikkoam.com.sg.

² The SGD Class B, the SGD Hedged Class B, the USD Class, the USD Hedged Class B, the USD (Acc) Class, the USD Hedged (Acc) Class and the RMB Class have each not been incepted yet.

| Parties Involved | |
|---|---|
| <p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> The Manager is Nikko Asset Management Asia Limited. The Trustee and registrar is BNP Paribas Trust Services Singapore Limited. The custodian is BNP Paribas Securities Services, operating through its Singapore branch. Nikko Asset Management Co., Ltd is the sub-manager of the Fund. | <p>Refer to Para 2 to 4 of the Prospectus for further information on the role and responsibilities of these entities.</p> |
| KEY RISKS | |
| <p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>You should be aware that the price of Units can go down as well as up. The value of the Fund and its distributions (if any) may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:</p> | <p>Refer to Para 9, 11.6 and 14 of the Prospectus for further information on risks of the Fund.</p> |
| Market and Credit Risks | |
| <ul style="list-style-type: none"> You are exposed to market risk. <ul style="list-style-type: none"> The prices of the securities comprised in the portfolio of the Fund and the Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the Fund's portfolio and the market's perception of such securities. You are exposed to the risk of investing in foreign securities. <ul style="list-style-type: none"> The investments of the Fund may be affected by political instability as well as exchange controls, changes in taxation, foreign investment policies and other restrictions and controls which may be imposed by the relevant authorities in the other countries. The legal infrastructure and accounting, auditing and reporting standards in certain countries may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Foreign ownership restrictions in some markets may mean that corporate action entitlements may not always be secured or may be restricted. | |
| Liquidity Risks | |
| <ul style="list-style-type: none"> The Fund is not listed and you can redeem only on Dealing Days. <ul style="list-style-type: none"> There is no secondary market for the Fund. All realisation requests should be made to the Manager through the approved distributors from whom the Units were purchased. Institutional investors who had purchased their Units directly from the Manager may submit their realisation requests to the Manager. If there is a surge in realisations at any particular time, the Manager may impose a gate on realisations. If that happens, payment of realisation proceeds to you may be delayed. In addition, you may not realise your Units during any period where realisation is suspended. | |
| Product-Specific Risks | |
| <ul style="list-style-type: none"> You are exposed to country specific risk. <ul style="list-style-type: none"> The Fund invests predominantly in Japanese securities. It will be exposed to fluctuations in the Japanese economy, and the market, currency, political, social environment and other risks related specifically to Japan, which may affect the market price of the Fund's investments. Exposure to a single country also increases the potential volatility of the Fund due to the increased concentration risk as its investments would be less diversified as compared to having exposure to regional or global markets. You are exposed to the risk associated with the investment strategy of the Fund. <ul style="list-style-type: none"> The value of the Units of each of the Hedged Classes depends not only on the exposure to and contribution from the equities portfolio held by the Fund but also the efficient use of financial derivative instruments ("FDIs"). The gains from the equities exposure may be offset from any losses from the forwards positions. Allocation to cash during rising market environment may also lead to a drag in performance. You are exposed to income distribution risk. <ul style="list-style-type: none"> Sources of income for distribution to Holders include dividend and/or interest income and/or capital gains derived from the investments of the Fund. Such dividend and/or interest income may be adversely affected by events such as (but are not limited to) companies suffering unexpected losses or, having lower than expected dividends and adverse exchange rate fluctuations. You are exposed to financial derivative risk. <ul style="list-style-type: none"> The Manager may invest in FDIs for the purpose of hedging the Fund's existing portfolio. FDIs involve risks different from, and in some cases, greater than, the risks presented by more traditional investments. Some of the risks associated with FDIs are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk. In addition, the Manager intends to hedge the currency exposure of the assets of the Fund attributable to the USD Hedged Class, the USD Hedged Class B and the USD Hedged (Acc) Class into USD and to the SGD Hedged Class and the SGD Hedged Class B into SGD, through the use of currency forwards. Consequently, the NAV per Unit of each Hedged Class will take into account any gains or losses arising from the use of the currency forwards in respect of the relevant Hedged Class. If the foreign currency exposure of a Hedged Class is not fully hedged, the value of the Units of that Hedged Class will be affected by the depreciation and appreciation of the relevant foreign currencies against the USD or the SGD (as the case may be). | |

- The Fund may invest into underlying funds which use or invest in FDIs, and it is possible that the Fund's NAV may be subject to volatility due to the Fund's or the underlying funds' usage or investment in FDIs.
- You are exposed to counterparty risk.
 - The Trustee may (upon the instructions of the Manager), on behalf of the Fund, enter into transaction(s) with one or more counterparties which may expose the Fund to the credit risk of the counterparties with whom it trades and the risk of settlement default. If any counterparty becomes bankrupt or insolvent, the Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Trustee seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. Also, fraud, regulatory sanctions or a refusal to complete a transaction by any of these counterparties could significantly impair the operational capabilities or the capital position of the Fund. It is also possible that the above transactions will be terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was entered into.
- You are exposed to changes in applicable law and regulation.
 - The Fund must comply with various legal and regulatory requirements imposed by the jurisdictions under which it operates. Should any of those laws change over the life of the Fund, the legal requirements to which the Fund and its Holders may be subject, could differ materially from current requirements.

You should be aware that your investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

FEES AND CHARGES

Payable directly by you

- You will need to pay the following fees and charges as a percentage of your gross investment sum:

| | |
|-----------------------------|---|
| Initial Sales Charge | For non-CPF subscriptions Current: Up to 5.00%; Maximum: 5.00% For CPF subscriptions only Current: Up to 3.00%; Maximum 3.00% |
| Realisation Charge | Current: Nil; Maximum 1.00% |
| Exchange Fee | Where the Initial Sales Charge paid for Units being exchanged is less than the initial sales charge payable for the units being acquired, the Manager shall be entitled to charge for the difference. |

- The approved distributors of the Manager may also charge additional fees not listed in the Prospectus. You should therefore check with the approved distributors before subscribing for Units.

Payable by the Fund from invested proceeds

- The Fund will pay the following fees and charges to the Manager, Trustee and other parties:

| | |
|-------------------------------|--|
| Annual Management Fee | USD Hedged Class B, SGD Hedged Class B and SGD Class B Current: 0.75% of the Class' NAV; Maximum: 2.00% of the Class' NAV All other Classes Current: 1.50% of the Class' NAV; Maximum: 2.00% of the Class' NAV |
| Annual Trustee Fee | Current: 0.03% of the Fund's NAV; Maximum 0.10% of the Fund's NAV. Subject always to a minimum fee of S\$5,000 per annum or such lower amount as the Manager and the Trustee may agree from time to time. |
| Other Fees and Charges | Other fees and charges, including, <i>inter alia</i> goods and services tax, fund administration fees, custodian fees and registrar fees may each amount to or exceed 0.10% p.a., depending on the proportion that each fee or charge bears to the Fund's NAV. |

Refer to Para 8 of the Prospectus for further information on fees and charges.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The issue price and realisation price of the Units will be available on the Business Day following each Dealing Day.

You may check such prices on the Manager's website (www.nikkoam.com.sg).

Refer to Para 10.9, 11 and 13 of the Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Cancellation of Units

If applicable to you, you may cancel your subscription for Units by giving written notice to the Managers through the approved distributor(s) from whom you purchased your Units within 7 calendar days from the date of your subscription or purchase of the Units. Any Initial Sales Charge paid will be refunded to you. However, you will have to take the risk for any price changes in the NAV of the relevant Class since you purchased the Units.

Realisation of Units

You can exit the Fund by writing to the Manager through the approved distributor from whom you purchased your Units. If you are an institutional investor who had purchased your Units directly from the Manager, you may submit your realisation request to the Manager.

If your realisation request is received and accepted by 5 p.m. (Singapore time) on a Dealing Day, you will be paid a price based on the value of the Fund for that Dealing Day. If your realisation request is received and accepted after 5 p.m. (Singapore time), you will be paid a price based on the value of the Fund on the immediately following Dealing Day.

The realisation proceeds that you will receive are calculated by multiplying the number of Units to be realised by the realisation price. There is currently no realisation charge imposed. An example is as follows:

| | | | | |
|----------------------|---|-------------------|---|----------------------------|
| Units to be realised | x | Realisation price | = | Gross realisation proceeds |
| 1,000 | x | \$1.050 | = | \$1,050.00 |

The cancellation or realisation proceeds will normally be paid within six Business Days after the relevant Dealing Day on which the cancellation or realisation request is received.
