PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

The Fund is **only** suitable for investors who:

- seek medium to long-term capital appreciation;
- seek exposure to the Japanese equity market; and
- are willing and able to accept that their principal will be at risk.

You should consult your financial advisers if in doubt about whether this product is suitable for you.

Further information

Refer to Para 6.2 of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a unit trust constituted in Singapore that aims to achieve medium to long-term capital appreciation by investing in a diversified portfolio of equity investments listed in Japan.
- The Managers have the absolute discretion to determine whether a distribution is to be made to Holders. Such distribution (if any) will be made in accordance with the provisions of the Deed.
- There are five Classes of Units within the Fund. The Classes may differ in terms of their Class Currency, the minimum subscription amounts applicable and the hedging features applicable to certain Classes.
- Currently, you can invest in the SGD Class Units. The SGD Hedged Class Units, the USD Class Units, the USD Hedged Class Units and the RMB Class Units will be available for subscription at such time as the Managers may decide.
- The base currency of the Fund is JPY. Please note that for the SGD Hedged Class and the USD Hedged Class, the Managers intend to hedge the currency exposure of the assets of the Fund attributable to (a) the SGD Hedged Class into SGD and (b) the USD Hedged Class into USD, through the use of currency forwards.

Refer to Para 1.1, 6.1 and 22.3 of the Prospectus for further information on features of the Fund.

Investment Strategy

- In addition to equity investments listed in Japan, the Fund may also invest in bonds, money market and other instruments (including instruments included under the CPFIS). There is no target industry or sector.
- The Managers believe that active investment management can add value to investors. They seek to add value by selectively over/under weighting benchmark components to achieve relative out-performance and carefully blending the mix with a selection of non-benchmark components to deliver absolute out-performance.

Refer to Para 6.1 of the Prospectus for further information on the investment strategy of the Fund.

Parties Involved

WHO ARE YOU INVESTING WITH?

- The Managers are **Nikko Asset Management Asia Limited**.
- The Trustee and Registrar is **BNP Paribas Trust Services Singapore Limited**.

Refer to Para 2 to 4 of the Prospectus for further information on

¹ The Prospectus is available for collection at the Managers' business address at 12 Marina View, #18-02, Asia Square Tower 2, Singapore 018961 during usual business hours or accessible at www.nikkoam.com.sg.

² The SGD Hedged Class, the USD Class, the USD Hedged Class and the RMB Class have each not been incepted as at 31 December 2016.

<ul style="list-style-type: none"> The Custodian is BNP Paribas Securities Services, operating through its Singapore branch. The Sub-Manager is Nikko Asset Management Co., Ltd. 	these entities.
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>You should be aware that the price of Units can go down as well as up. The value of the Fund and its distributions (if any) may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:</p>	Refer to Para 7 of the Prospectus for further information on risks of the Fund.
Market and Credit Risks	
<ul style="list-style-type: none"> You are exposed to market risk in Japan <ul style="list-style-type: none"> The price of securities comprised in the portfolio of the Fund and the Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the portfolio, and the market's perception of the securities. You are exposed to interest rate and credit risks <ul style="list-style-type: none"> Investments in debt securities are subject to interest rate fluctuations and credit risks, such as risk of default by the issuer, and are subject to adverse changes in general economic conditions, the financial condition of the issuer, or both, or an unanticipated rise in interest rates, which may impair the issuer's ability to make payments of interest and principal, resulting in a possible default by the issuer. You are exposed to currency risk <ul style="list-style-type: none"> As investments of the Fund may be denominated in foreign currencies other than the base currency of the Fund or the Class Currency of the relevant Class within the Fund, fluctuations in the exchange rates of these foreign currencies may have an impact on the value of the Units of the Fund. You are exposed to currency hedged Class risk <ul style="list-style-type: none"> For currency hedged Classes, the Managers may engage in currency hedging transactions to reduce exchange rate fluctuations between the Class Currency of the relevant hedged Class and the base currency of the Fund. In the case of a net flow to or from such hedged Classes, the hedging may not be adjusted and reflected in the NAV of the relevant hedged Class until the following or a subsequent Business Day following the valuation day on which the instruction was accepted. If these hedging transactions are imperfect or only placed over a portion of the foreign exchange exposure, the resulting gains/losses will be reflected in the NAV of such hedged Classes. 	
Liquidity Risks	
<ul style="list-style-type: none"> The Fund is not listed and you can redeem only on Dealing Days. <ul style="list-style-type: none"> There is no secondary market for the Units. All realisation requests should be made to the Managers through the approved distributors from whom the Units were purchased. Institutional investors who had purchased their Units directly from the Managers may submit their realisation requests to the Managers. If there is a surge in realisations at any particular time, the Managers may impose a gate on realisations. If that happens, realisation of Units and/or payment of realisation proceeds to you may be delayed. In addition, you may not realise your Units during any period where realisation is suspended. You are exposed to liquidity risk. <ul style="list-style-type: none"> The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Fund's ability to acquire or dispose of assets at the price and time it so desires. 	
Product-Specific Risks	
<ul style="list-style-type: none"> You are exposed to foreign securities risk <ul style="list-style-type: none"> The investments of the Fund may be affected by political instability as well as exchange controls, changes in taxation, foreign investment policies and other restrictions and controls which may be imposed by the relevant authorities in the other countries. The legal infrastructure and accounting, auditing and reporting standards in certain countries in which an investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Foreign ownership restrictions in some markets may mean that corporate action entitlements in relation to any collective investment schemes or other investments the Fund is invested in, may not always be secured or may be restricted. You are exposed to derivatives risk <ul style="list-style-type: none"> The Managers may invest in financial derivative instruments ("FDIs") for the purposes of optimising returns, hedging and/or efficient portfolio management. As at the date of registration of the Prospectus, the Managers only use FDIs for purposes of hedging and/or efficient portfolio management. Derivatives involve risks different from, and in some cases, greater than, the risks presented by more traditional investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk. The Fund may invest into underlying funds which use or invest in FDIs, and it is possible that the Fund's NAV may be subject to volatility due to the Fund's or the 	

relevant underlying fund's usage or investment in FDIs.

You should be aware that your investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

FEES AND CHARGES

Payable directly by you

- You will need to pay the following fees and charges as a percentage of your gross investment sum:

Initial Sales Charge	Current: Up to 5.00%; Maximum: 5.00% For CPF subscriptions only Current: Up to 3.00%; Maximum: 3.00%
Realisation Charge	Current: Nil
Exchange Fee	Where the Initial Sales Charge paid for the Units being exchanged is less than the initial sales charge payable for units being acquired, the difference will be charged.

- The approved distributors of the Managers may also charge additional fees not listed in the Prospectus. You should therefore check with the approved distributors before subscribing for Units.

Payable by the Fund from invested proceeds

- The Fund will pay the following fees and charges to the Managers, Trustee and other parties:

Annual Management Fee	Current: 1% p.a.; Maximum: 1.5% p.a.
Annual Trustee's Fee	Current: 0.1% p.a. The Annual Trustee's Fee is payable out of the Management Fee and is therefore borne by the Managers.
Other Substantial Fees/Charges:	As at 31 December 2016 (audited): Transaction cost: 0.13%

Refer to Para 13 of the Prospectus for further information on the fees and charges.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The issue price and realisation price of Units will be available on the Business Day following each Dealing Day.

The issue price and realisation price of Units may be obtained from the Managers' website (www.nikkoam.com.sg).

Refer to Para 8.9, 11 and 14 of the Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Cancellation of Units

If applicable to you, you may cancel your subscription for Units by sending a cancellation request to the Managers through the approved distributor from whom you purchased your Units within 7 calendar days from the date of your subscription or purchase of the Units. Any Initial Sales Charge paid will be refunded to you. However, you will have to take the risk for any price changes in the net asset value of the Fund or the relevant Class since you purchased the Units.

Realisation of Units

You can exit the Fund by submitting a written realisation request to the Managers through the approved distributor from whom you purchased your Units. If you are an institutional investor who had purchased your Units directly from the Managers, you may submit your realisation request to the Managers.

If your realisation request is received and accepted by 5 p.m. Singapore time on a Dealing Day, your Units will be realised at the realisation price for that Dealing Day. If your realisation request is received and accepted after 5 p.m. Singapore time, your Units will be realised at the realisation price for the next Dealing Day.

The realisation proceeds that you will receive are calculated by multiplying the number of Units to be realised by the realisation price, less any applicable charges. There is currently no realisation charge imposed. An example is as follows:

Units to be realised	x	Realisation Price	=	Realisation Proceeds
1,000	x	\$\$1.050	=	\$1,050.00

The cancellation or realisation proceeds will normally be paid within six Business Days after the relevant Dealing Day on which the cancellation or realisation request is received unless realisation of Units has been suspended in accordance with the Prospectus.

CONTACT INFORMATION

HOW DO YOU CONTACT US?

- You may contact our approved distributors listed on our website at www.nikkoam.com.sg or call Nikko Asset Management Asia Limited at 1800 535 8025.
