| KEY RISKS | |
| <p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>You should be aware that the price of Units can go down as well as up. The value of the Fund and its distributions (if any) may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:</p> | <p>Refer to Para 7 of the Prospectus for further information on risks of the Fund.</p> |
| Market and Credit Risks | |
| <ul style="list-style-type: none"> • You are exposed to market risk in the global markets <ul style="list-style-type: none"> ○ The price of securities comprised in the portfolio of the Fund and the Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the portfolio, and the market's perception of the securities. • You are exposed to interest rate and credit risks <ul style="list-style-type: none"> ○ Investments in debt securities are subject to interest rate fluctuations and credit risks, such as risk of default by the issuer, and are subject to adverse changes in general economic conditions, the financial condition of the issuer, or both, or an unanticipated rise in interest rates, which may impair the issuer's ability to make payments of interest and principal, resulting in a possible default by the issuer. • You are exposed to currency risk <ul style="list-style-type: none"> ○ As investments of the Fund may be denominated in foreign currencies other than the base currency of the Fund or the Class Currency of the relevant Class within the Fund, fluctuations in the exchange rates of these foreign currencies may have an impact on the value of the Units of the Fund. • You are exposed to currency hedged Class risk <ul style="list-style-type: none"> ○ For currency hedged Classes, the Managers may engage in currency hedging transactions to reduce exchange rate fluctuations between the Class Currency of the relevant hedged Class and the base currency of the Fund. ○ In the case of a net flow to or from such hedged Classes, the hedging may not be adjusted and reflected in the NAV of the relevant hedged Class until the following or a subsequent Business Day following the valuation day on which the instruction was accepted. If these hedging transactions are imperfect or only placed over a portion of the foreign exchange exposure, the resulting gains/losses will be reflected in the NAV of such hedged Classes. | |
| Liquidity Risks | |
| <ul style="list-style-type: none"> • The Fund is not listed and you can redeem only on Dealing Days. <ul style="list-style-type: none"> ○ There is no secondary market for the Units. All realisation requests should be made to the Managers through the approved distributors from whom the Units were purchased. Institutional investors who had purchased their Units directly from the Managers may submit their realisation requests to the Managers. ○ If there is a surge in realisations at any particular time, the Managers may impose a gate on realisations. If that happens, realisation of Units and/or payment of realisation proceeds to you may be delayed. ○ In addition, you may not realise your Units during any period where realisation is suspended. • You are exposed to liquidity risk. <ul style="list-style-type: none"> ○ The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Fund's ability to acquire or dispose of assets at the price and time it so desires. | |
| Product-Specific Risks | |
| <ul style="list-style-type: none"> • You are exposed to foreign securities risk <ul style="list-style-type: none"> ○ The investments of the Fund may be affected by political instability as well as exchange controls, changes in taxation, foreign investment policies and other restrictions and controls which may be imposed by the relevant authorities in the other countries. ○ The legal infrastructure and accounting, auditing and reporting standards in certain countries in which an investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Foreign ownership restrictions in some markets may mean that corporate action entitlements in relation to any collective investment schemes or other investments the Fund is invested in, may not always be secured or may be restricted. ○ In addition, the Fund invests in emerging markets securities which are in general more volatile than those of developed countries, with the result that Units may be subject to greater price volatility. | |

• **You are exposed to derivatives risk**

- **The Managers may invest in financial derivative instruments (“FDIs”) for the purposes of optimising returns, hedging and/or efficient portfolio management.** As at the date of registration of the Prospectus, the Managers only use FDIs for purposes of hedging and/or efficient portfolio management. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk.
- **The Fund may invest into underlying funds which use or invest in FDIs, and it is possible that the Fund’s NAV may be subject to volatility due to the Fund’s or the relevant underlying fund’s usage or investment in FDIs.**

If applicable to you, you may cancel your subscription for Units by sending a cancellation request to the Managers through the approved distributor from whom you purchased your Units within 7 calendar days from the date of your subscription or purchase of the Units. Any Initial Sales Charge paid will be refunded to you. However, you will have to take the risk for any price changes in the NAV of the Fund or the relevant Class since you purchased the Units.

Realisation of Units

You can exit the Fund by submitting a written realisation request to the Managers through the approved distributor from whom you purchased your Units. If you are an institutional investor who had purchased your Units directly from the Managers, you may submit your realisation request to the Managers.

unless realisation of Units has been suspended in accordance with the Prospectus.

For the US\$ Hedged Class, the realisation proceeds will normally be paid (in the case of Units purchased with cash) within two Business Days after the relevant Dealing Day on which the realisation request is received, unless realisation of Units has been suspended in accordance with the Prospectus.

For the US\$ Class and the RMB Class, the realisation proceeds will normally be paid within four Business Days after the relevant Dealing Day on which the realisation request is received, unless realisation of Units has been suspended in accordance with the Prospectus.
