Average Portfolio Credit Rating*

AAA

Source: Nikko Asset Management Asia Limited as of 31 October 2018

* Cash is included in the calculation of the average portfolio credit rating and is rated as AAA regardless of currencies held. The credit ratings of the underlying fixed income securities are determined by S&P or Moody's, and where official credit ratings are unavailable, Nikko AM Asia's internal credit ratings are used.

The CPF interest rate for the Ordinary Account ("OA") is based on the 12-month fixed deposit and month-end savings rates of major local banks, subject to a minimum 2.5% interest per annum. The interest rate for Special, Medisave and Retirement Accounts ("SMRA") is pegged to the 12-month average yield of 10-year Singapore Government Securities plus 1%. A 4% floor rate will be maintained for interest earned on SMRA until 31 December 2019, after which a 2.5% minimum rate will apply. An extra 1% interest is paid on the first S\$60,000 of a member's combined balances, including up to S\$20,000 in the OA. The first S\$20,000 in the OA and the first S\$40,000 in the Special Account ("SA") cannot be invested under the CPF Investment Scheme ("CPFIS").

The performance of the ETF's price on the Singapore Stock Exchange ("SGX") may be different from the net asset value per unit of the ETF. The ETF may also be delisted from the SGX. Transaction in units of the ETF will result in brokerage commissions. Listing of the units does not guarantee a liquid market for the units. Units of the ETF may be bought or sold throughout trading hours of the SGX through any brokerage account. Investors should note that the ETF differs from a typical unit trust and units may only be created or redeemed directly by a participating dealer in large creation or redemption units. Investors may only redeem the units with Nikko AM Asia under certain specified conditions.
