Nikko AM China Onshore Bond Fund

Portfolio Review

Fund returned 5.01% in 2024

The Nikko AM China Onshore Bond Fund (the "Fund") posted a return of 5.01% (in RMB terms, on a NAV-NAV basis) in the 12-months period ending 31 December 2024. The Fund's holdings in both Chinese government bonds (CGBs) and credits generally contributed positively to returns, amid the falling yield and credit spread environment. On a sector basis, insurance and internet contributed most to performance.

Market Review

China's real GDP growth reached 5% in 2024, aligning with the government's target but slowing from 5.2% in 2023. However, nominal GDP lagged behind real GDP, underscoring persistent deflationary pressures. Policymakers attributed the year's growth primarily to gains in investment and exports, which helped offset weaker consumption.

In response to persistent challenges in the real estate sector and mounting debt burdens on local governments, authorities ramped up their economic stimulus efforts, particularly in the latter part of the year. Key measures included expanding the "Project Whitelist," which allowed city governments to recommend thousands of residential property projects for financial support from banks. Additionally,

the State Council directed local governments to purchase unsold completed properties for conversion into affordable housing, a move backed by the People's Bank of China (PBOC) through a RMB 300 billion re-lending facility. Meanwhile, the PBOC implemented additional easing measures, including cuts to key loan rates, down payment ratios, and reserve requirement ratios. Toward year-end, China unveiled a RMB 10 trillion package to address local government debt and introduced plans for increased fiscal support and further efforts to stabilise the property market.

China's consumer prices saw modest growth in 2024. Throughout the year, persistent deflationary pressures weighed on business confidence and posed challenges for policymakers. The headline Consumer Price Index increased by 0.2% year-on-year (YoY) for the full year, maintaining the same pace as 2023 and well below the official target of "around 3%". Meanwhile, the Producer Price Index fell 2.2% in 2024.

In 2024, the Chinese renminbi depreciated about 2.73% against the US dollar, driven by broad dollar strength. Meanwhile, demand for onshore government bonds remained robust, supported by sluggish economic data and the central bank's dovish stance throughout much of the year. At the end of the twelve-month period, the benchmark onshore 3-year and 10-year yields had fallen by 110 basis points (bps) and 88.9 bps, settling at 1.182% and 1.669%, respectively.

Market Outlook & Strategy

China looks to set its growth target at or near 5% for 2025 but may struggle to meet it, at least under currently planned policy settings and the high likelihood of additional tariffs on its exports by US President Trump. Our base case has been that there could be some negotiation leading to less than the full additional 40% tariffs being imposed on China and possibly tariffs being added in stages to spread out the impact on US consumers buying these imports. The PBOC could also allow some depreciation to cushion some of the impact, but they may not be willing to allow the roughly 10% done in the trade war during the first Trump Administration. Additionally, the pressure on exports would have to be mitigated by domestic growth, with Chinese authorities pledging additional fiscal and monetary support and to boost consumption. Growth is likely to slow from about 5% this year but should not fall off a cliff. Inflation is likely to remain muted without a large-scale stimulus, coupled with excess capacity in some sectors and the lack of a meaningful rebound in the property market.

The next scheduled policy event to look out for is the annual "Two Sessions" meetings of China's legislature, which should take place in early March 2025. The growth target and fiscal budget will be announced at those meetings. In the lead-up to that, there could be hints on the growth target in the provincial growth targets that are usually set in in January to February and discussions among China's economic policy circles.

We think that the PBOC's seemingly about-face to tighten liquidity is likely arising from concerns that a rapid collapse in interest rates lower would encourage excessive speculation in bonds without sufficient risk management. The lack of a reserve requirement ratio cut that was signalled earlier is also likely because it would exacerbate pressure on the currency. The PBOC's intention is likely to slow the pace of the decline in yields rather than a true hawkish turn, and we intend to continue using the uptick in yields to add duration positions. Pressure on the currency is likely to constrain PBOC's monetary policy easing but in the medium term, we still expect them to ease in line with the authorities' guidance.

Trump's aggressive foreign policy, including the threat and use of tariffs will continue to engender a stronger dollar and higher FX volatilities in general, at least in the near term. Near term, the renminbi may depreciate against the dollar but should be less volatile that other currencies in a strong dollar environment due to a stable balance of payments position and the central bank acting to smooth market moves.

Nikko Asset Management Asia Limited. Registration Number 198202562H

(Constituted under a Trust Deed registered in the Republic of Singapore)

REPORT OF THE TRUSTEE

For the financial year ended 31 December 2024

The Trustee is under a duty to take into custody and hold the assets of the sub-fund of Nikko AM China Onshore Fund Series, namely Nikko AM China Onshore Bond Fund (the "Sub-Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Fund during the financial year covered by these financial statements, set out on pages 10 to 36, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For and on behalf of the Trustee BNP Paribas Trust Services Singapore Limited

Authorised signatory 27 March 2025

(Constituted under a Trust Deed registered in the Republic of Singapore)

STATEMENT BY THE MANAGER

For the financial year ended 31 December 2024

In the opinion of Nikko Asset Management Asia Limited, the accompanying financial statements set out on pages 10 to 36, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and the portfolio holdings of the sub-fund of Nikko AM China Onshore Fund Series, namely Nikko AM China Onshore Bond Fund (the "Sub-Fund") as at 31 December 2024, and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Sub-Fund will be able to meet its financial obligations as and when they materialise.

For and on behalf of the Manager Nikko Asset Management Asia Limited

Authorised signatory 27 March 2025

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF THE SUB-FUND NIKKO AM CHINA ONSHORE FUND SERIES

(Constituted under a Trust Deed registered in the Republic of Singapore)

Our Opinion

In our opinion, the accompanying financial statements of the sub-fund of Nikko AM China Onshore Fund Series, namely Nikko AM China Onshore Bond Fund (the "Sub-Fund"), are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7"), so as to present fairly, in all material respects, the financial position and portfolio holdings of the Sub-Fund as at 31 December 2024, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

What we have audited

The financial statements of the Sub-Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2024;
- the Statement of Financial Position as at 31 December 2024;
- the Statement of Movements of Unitholders' Funds for the financial year then ended;
- the Statement of Portfolio as at 31 December 2024; and
- the notes to the financial statements, including material accounting policy information.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

We are independent of the Sub-Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Other Information

The Sub-Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF THE SUB-FUND OF NIKKO AM CHINA ONSHORE FUND SERIES

(Constituted under a Trust Deed registered in the Republic of Singapore)

Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Fund or to cease the Sub-Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, design and perform audit procedures responsive to those risks, and obtain
 audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from
 error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF THE SUB-FUND OF NIKKO AM CHINA ONSHORE FUND SERIES

(Constituted under a Trust Deed registered in the Republic of Singapore)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General

Nikko AM China Onshore Fund Series (the "Fund") comprising Nikko AM China Onshore Bond Fund (the "Sub-Fund") is constituted as unit trust in Singapore under a Trust Deed dated 7 July 2014 as amended by Supplemental Deeds and Amending and Restating Deeds (collectively referred to as the "Deeds"). The Deeds are governed by the laws of the Republic of Singapore. The Trustee of the Sub-Fund is BNP Paribas Trust Services Singapore Limited (the "Trustee"). The Manager of the Sub-Fund is Nikko Asset Management Asia Limited (the "Manager").

There are currently three classes of units established within the Sub-Fund, namely the USD Class (denominated in USD), the RMB Class (denominated in RMB) and the SGD Class (denominated in SGD). The classes in the Sub-Fund differ in terms of the currency of denomination and minimum initial and subsequent investment amounts.

As of 31 December 2024 and 2023, only units in the RMB Class have been issued.

The Sub-Fund is single priced and the NAV of the Sub-Fund may fall as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions, switches and/or exchanges of units in the Sub-Fund. To protect unitholders' interests, the Manager shall, in consultation with the Trustee, have the discretion to apply dilution adjustment or swing pricing in certain circumstances which the Manager deem appropriate. Swing Pricing involves making upwards or downwards adjustments in the calculation of the NAV per unit of the Sub-Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the underlying investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging units on that Dealing Day.

The NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the "Swing Threshold") of the size of the Sub-Fund as of such relevant Dealing Day.

Any dilution adjustment as at the last dealing day of the year will be disclosed under Units in issue.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

2. Material accounting policy information

The principal accounting policies applied in the preparation of these financial statements are set out below:

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value, and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued by the Institute of Singapore Chartered Accountants.

(b) Recognition of income

Interest income is recognised on a time-proportion basis using the effective interest rate method.

(c) <u>Distributions</u>

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account to be paid on the distribution date. The amount shall not be treated as part of the property of the Sub-Fund. Distributions are accrued for at the reporting date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

(d) Investments

Investments are classified as financial assets at fair value through profit or loss.

(i) Initial recognition

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

(ii) Subsequent measurement

Investments are subsequently carried at fair value. Net change in fair value on investments is included in the Statement of Total Return in the year in which they arise.

(iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

2. Material accounting policy information (continued)

(e) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market prices used for fixed income securities held by the Sub-Fund is the mid-market price for both financial asset and financial liabilities. Accrued interest or discount or premium on fixed income securities at financial year end date is included in the fair value of fixed income securities. Interest income on fixed income securities is presented within "Net gains on investments" in the Statement of Total Return.

(f) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(g) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(h) Payables

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks which are subject to an insignificant risk of changes in value.

(j) Foreign currency translation

(i) Functional and presentation currency

The Sub-Fund qualifies as an authorised scheme under the Securities and Futures Act 2001 ("SFA") of Singapore and is offered to retail investors in Singapore. The Sub-Fund's activities are substantially based in Singapore, with subscriptions and redemptions of the units of the Sub-Fund denominated in Renminbi ("RMB").

The performance of the Sub-Fund is measured and reported to the investors in Renminbi. The Manager considers the Renminbi as the currency which most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are expressed in Renminbi, which is the Sub-Fund's functional and presentation currency.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

2. Material accounting policy information (continued)

(j) Foreign currency translation (continued)

(ii) Transactions and balances

Foreign currency monetary assets and liabilities are translated into Renminbi at the rates of exchange prevailing at the date of the Statement of Financial Position. The net unrealised gain or loss is taken to the Statement of Total Return within the net foreign exchange gain or loss. Transactions during the financial year are recorded in Renminbi at the rates of exchange ruling on transaction dates. All realised gains or losses are recognised in the Statement of Total Return.

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Fund or the counterparty.

(I) Margin and collateral accounts

Cash margin provided by the Sub-Fund is identified in the Statement of Financial Position as margin and collateral accounts and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Sub-Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the Notes to the Financial Statements.

(m) Financial derivatives

Financial derivatives are entered into for the purposes of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provisions of the Deeds.

Financial derivatives outstanding at the end of the financial year are valued at forward rates or at current market prices using the "mark-to-market" method, as applicable, and the resultant gains and losses are taken up in the Statement of Total Return.

When a financial derivative expires, or is sold or terminated, the gains or losses are taken up in the Statement of Total Return.

(n) Expenses

Expenses including transaction costs on purchases or sales of investments are recognised in the Statement of Total Return as the related services are performed, in the period in which they arise.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

2. Material accounting policy information (continued)

(o) Management fee

Management fee expense is recognised on an accrual basis and in accordance with the Prospectus. Management fee is recognised as an expense over the period for which the service is provided. The management fee charged on any investment in other unit trusts managed by the Manager is rebated back to the Sub-Fund, where applicable.

(p) Creation and cancellation of units

Units are issued and redeemed at the prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption for each respective class. The Sub-Fund's net asset value per unit is calculated by dividing the net asset attributable to the unitholders of each class of units with the total number of outstanding units for each respective class.

3. Critical accounting estimates and assumptions

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Uncertain tax positions

The Sub-Fund invests in securities issued by entities which are domiciled in countries other than Singapore. Many of these foreign countries have tax laws that indicate that capital gains taxes and interest income taxes may be applicable to non-residents, such as the Sub-Fund. Typically, these taxes are required to be determined on a self-assessment basis; therefore, such taxes may not be deducted by the bond issuer on a 'withholding' basis.

At 31 December 2024 and 2023, the Sub-Fund has provided for uncertain tax liabilities with respect to foreign capital gains taxes and foreign interest income taxes. The exposure to the Sub-Fund is disclosed under Note 5 Payables in "Provision for tax liabilities".

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

4. Income tax

The Manager and Trustee of the Sub-Fund have assessed and are satisfied that the Sub-Fund has met the requisite conditions under the Designated Unit Trust (DUT) scheme for the current financial year. The Manager and Trustee of the Sub-Fund will ensure that the Sub-Fund fulfils its reporting obligations under the DUT Scheme.

Under the DUT Scheme, certain income of the DUT fund is not taxable in accordance with Sections 35(12) and 35(12A) of the Income Tax Act 1947. Such income includes:

- (a) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (b) interest (other than interest for which tax has been deducted under section 45 of the Income Tax Act 1947);
- (c) dividends derived from outside Singapore and received in Singapore;
- (d) gains or profits derived from foreign exchange transactions, transactions in futures contracts, transactions in interest rate or currency forwards, swaps or option contracts and transactions in forwards, swaps or option contracts relating to any securities or financial index;
- (e) discount prepayment fees, redemption premium and break cost from qualifying debt securities issued during the prescribed period; and
- (f) distributions from foreign unit trusts derived from outside Singapore and received in Singapore.

Income tax for the financial year ended 31 December 2024 and 2023 comprises:

Nikko /	AM China Onshore	e Bond Fund
	2024	2023
	RMB	RMB
Singapore income tax	108	_
Withholding tax	358	472
	466	472

The Singapore income tax represents tax on distribution from unit trust funds and withholding tax represents tax deducted at source on interest income.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

5. Payables

Nikko AM China Onshore Bond Fund

	2024 RMB	2023 RMB

Amount due to the Manager comprises management fee payable to Nikko Asset Management Asia Limited. Trustee fee is payable to BNP Paribas Trust Services Singapore Limited. Transfer agent fee and valuation fee are payable to BNP Paribas, acting through its Singapore Branch. Custody fee is payable to Bank of China Limited and BNP Paribas, acting through its Singapore Branch for China Securities and securities other than China Securities respectively.

6. Financial derivatives

Financial derivatives comprise of interest rate swap contracts and forward foreign exchange contracts for purchases and sales of foreign currencies. The year-end positive and negative fair values represent the unrealised gains and losses respectively on financial derivatives at the Statement of Financial Position date. The contract or underlying principal amounts of these financial derivatives and their corresponding gross positive or negative fair values at Statement of Financial Position date are analysed below.

Nikko AM China Onshore Bond Fund

The Sub-Fund also restricts its exposure to credit losses on the trading derivative instruments it holds by entering into master netting arrangements with approved brokers with whom it undertakes a significant volume of transactions. Master netting arrangements do not result in an offset of Statement of Financial Position assets and liabilities, as transactions are usually settled on a gross basis. However, the credit risk is reduced by a master netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Sub-Fund's overall exposure to credit risk on derivative instruments subject to a master netting arrangement can change substantially within a short period, as it is affected by each transaction subject to the arrangement.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

6. Financial derivatives (continued)

Financial assets and financial liabilities which are subject to enforceable master netting agreements or similar agreements for the financial year ended 31 December 2024 and 2023 are detailed in the following table.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

10. Reserve accounts

The Depository, China Securities Depository and Clearing Corporation Limited, requires a minimum clearing reserve fund for settlement of security transactions under the RMB Qualified Foreign Investor Scheme. The Sub-Fund therefore maintains reserve funds with its respective custodian for China Securities.

11. Financial risk management

The Sub-Fund's activities expose it to a variety of risk, including but not limited to market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk. The Manager is responsible for the implementation of the overall risk management programme, which seeks to minimise potential adverse effects on the Sub-Fund's financial performance. Specific guidelines on exposures to individual securities and certain industries and/or countries are in place as part of the overall financial risk management to reduce the Sub-Fund's exposures to these risks.

The Sub-Fund's primary objective is to provide a total return of capital growth and income over the medium to long-term and invests primarily in fixed income instrument issued onshore in the People's Republic of China ("PRC"), which may include, but will not be limited to, certificate of deposits, preferred shares, fixed and floating bonds, convertible bonds, notes, bond and money market funds, and other such fixed income instruments issued in the PRC by governments, governments entities, quasi government entities, corporations and/or financial institutions, and offshore outside of the PRC that are denominated in Renminbi. The Sub-Fund may also invest in fixed income instruments issued by Chinese entities that are denominated in currencies other than Renminbi.

These financial instruments are held in accordance with the published investment policies of the Sub-Fund and managed accordingly to achieve the investment objectives.

(a) Market risk - Price risk

Price risk is the risk that arises from uncertainties about future prices of financial instruments.

The Sub-Fund's investment is substantially dependent on the changes of market prices. The Sub-Fund's overall market positions are monitored regularly so as to assess any deviation from the Sub-Fund's investment objective. However, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the net asset value of the Sub-Fund.

The Sub-Fund's market price risk is managed through diversification of the investment portfolio across various geographies and industries globally.

The market prices of financial assets held by the Sub-Fund are primarily dependent on prevailing market interest rates, as the Sub-Fund invests in fixed income instruments issued onshore by the PRC and offshore outside of the PRC that are denominated in Renminbi. Consequently, no separate price risk sensitivity analysis is prepared as it is covered in interest rate risk sensitivity analysis.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

11. Financial risk management (continued)

(b) Market risk - Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates (fair value risk).

The Manager will regularly assess the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly to control the impact of interest rate risk. The Sub-Fund's overall market positions are monitored frequently and are reviewed formally on a quarterly basis by the Manager.

The tables below summarise the Sub-Fund's exposure to interest rate risks. They include the Sub-Fund's assets and liabilities categorised by the earlier of contractual re-pricing or maturity dates.

As at 31 December 2024 and 2023, an increase/decrease of interest rates 1% (2023: 1%), with all other variables remaining constant, would result in a decrease/increase of the net assets attributable to unitholders by approximately 4% (2023: 4%). Reasonable possible changes in interest rate are revised annually depending on the Manager's current view of market volatility and other factors.

(c) Market risk - Currency risk

Currency risk is the risk that the value of financial instrument will fluctuate due to changes in foreign exchange rates.

To minimise currency risk, the Sub-Fund mainly holds its excess cash in its functional currency. For hedging purposes, the Sub-Fund may also enter into forward foreign exchange contracts.

(Constituted under a Trust Deed registered in the Republic of Singapore)

As of 31 December 2024 and 2023, the Sub-Fund does not hold substantial monetary assets/liabilities denominated in foreign currencies. Changes in foreign exchange rates on monetary assets/liabilities will not result in a significant change in the net asset value of the Sub-Fund. Hence, no separate sensitivity analysis on foreign currency risk has been presented.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

11. Financial risk management (continued)

(d) Liquidity risk

Liquidity risk is the risk of loss arising from the inability of the Sub-Fund to meet its obligations as and when they fall due without incurring unacceptable cost or losses.

The Sub-Fund is exposed to daily cash redemptions from unitholders. However, in accordance with the Sub-Fund's prospectus, minimum holdings and redemption size are set.

To manage the liquidity risk, a cash buffer is maintained in the Sub-Fund and monitored for minimum cash balances to prevent any extensive disposition of assets which may occur at lower prices and overdraft situations to meet trade settlements and obligations.

The Sub-Fund's financial liabilities are analysed using contractual undiscounted cash flows for maturity groupings based on the remaining year at the Statement of Financial Position date to the contractual maturity date. As at 31 December 2024 and 2023, all liabilities are either payable upon demand or due in less than 3 months. The impact of discounting is not significant.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

11. Financial risk management (continued)

(e) Credit risk

Credit risk is the risk that a counterparty will be unable to fulfil its obligations to the Sub-Fund in part or in full as and when they fall due.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties as well as the respective credit limits are approved;
- ensuring there are controls in place to identify and assess the creditworthiness of counterparties and review such controls on a semi-annual basis; and
- ensuring that transactions are undertaken with a large number of counterparties.

The Sub-Fund is also exposed to counterparty credit risk on its financial assets held at amortised cost. As at 31 December 2024 and 2023, the Sub-Fund's financial assets held at amortised cost as disclosed in the Statement of Financial Position are realised within three months. The Manager considers the probability of default to be insignificant as the counterparties generally have a strong capacity to meet their contractual obligations in the near term. Hence, no loss allowance has been recognised based on the 12 month expected credit losses as any such impairment would be insignificant to the Sub-Fund.

The table below analyses the Sub-Fund's investments by credit ratings. The credit ratings are reviewed regularly.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

11. Financial risk management (continued)

(e) Credit risk (continued)

All trade settlement with approved counterparties are on Delivery versus Payment and/or Receipt versus Payment basis, with the exception of initial public offerings, new issues and placement transactions.

Credit risk arises from cash and cash equivalents and outstanding and committed transactions from brokers. The table below summarises the credit rating of bank and custodians in which the Sub-Fund's assets are held as at 31 December 2024 and 2023.

Nikko AM China Onshore Bond Fund

- Standard Chartered Bank	A1	A1	Moody's
Counterparty of futures contracts and interest rate swap contracts - BNP Paribas, acting through its			
Singapore Branch	A1	Aa3	Moody's

The credit ratings are based on the Local Long-Term Bank Deposits published by the rating agency.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

(f) Capital management

The Sub-Fund's capital is represented by the net assets attributable to unitholders. The Sub-Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Sub-Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

11. Financial risk management (continued)

(g) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Sub-Fund's financial assets and liabilities (by class) measured at fair value at 31 December 2024 and 2023:

Nikko AM China Onshore Bond Fund

As at 31 December 2024	Level 1 RMB	Level 2 RMB	Level 3 RMB	Total RMB
Assets Portfolio of investments:				
 Quoted fixed income securities 	-	96,636,222	=	96,636,222
Financial derivatives at fair value		359,039	-	359,039
		96,995,261	-	96,995,261
Liabilities				
Financial derivatives at fair value		512,365	-	512,365
As at 31 December 2023	Level 1 RMB	Level 2 RMB	Level 3 RMB	Total RMB
As at 31 December 2023 Assets Portfolio of investments:				
Assets				
Assets Portfolio of investments:		RMB		RMB
Assets Portfolio of investments: - Quoted fixed income securities		RMB 105,505,528		RMB 105,505,528
Assets Portfolio of investments: - Quoted fixed income securities	RMB - -	RMB 105,505,528 593,225	RMB - -	RMB 105,505,528 593,225

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include investment-grade corporate bonds, government bonds issued in the PRC and over-the-counter derivatives.

The assets and liabilities included in the Statement of Financial Position except portfolio of investments and financial derivatives are carried at amortised cost; their carrying values are reasonable approximation of fair value.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

12. Related party transactions

In addition to related party information shown elsewhere in the financial statements, the following significant transactions took place during the financial year between the Sub-Fund and the related party at terms agreed between the parties and within the provisions of the Deeds:

			2024 RMB	2023 RMB
	Bank balances held with related party of the Truste Margin balances held with related party of the Trus		7,911,021 1,057,887	703,497 979,308
13.	Financial ratios			
	Nikko AM China Onshore Bond Fund			
	Expense ratio		2224	0000
	RMB Class		2024	2023
	Total operating expenses Average daily net asset value Total expense ratio ¹	RMB RMB %	1,401,650 99,026,451 1.42	1,420,348 103,131,367 1.38
	Turnover ratio		2024	2023
	Lower of total value of purchases or sales Average daily net asset value Total turnover ratio ²	RMB RMB %	114,032,445 99,026,451 115.15	120,251,953 103,131,367 116.60

The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial year end was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net asset value is based on the daily balances.

The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.

(Constituted under a Trust Deed registered in the Republic of Singapore)

5. Global exposure to financial derivatives

The global exposure to financial derivatives is computed using the commitment approach which is calculated as the sum of:

- a. the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;
- b. the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and
- c. the sum of the values of cash collateral received pursuant to:
 - i. the reduction of exposure to counterparties of OTC financial derivatives; and
 - ii. EPM techniques relating to securities lending and repurchase transactions, and that are reinvested.

Nikko AM China Onshore Bond Fund

Portfolio Review

Fund returned 2.40% in the first half of 2024 (1H24)

The Nikko AM China Onshore Bond Fund (the "Fund") posted a return of 2.40% (in RMB terms, on a NAV-NAV basis) in the six-months period ending 30 June 2024. The Fund's holdings in both Chinese government bonds (CGBs) and credits generally contributed positively to returns, amid the falling yield and credit spread environment. On a sector basis, financial services and technology contributed most to performance.

Market Review

Premier Li Qiang presented his inaugural Government Work Report in March, unveiling a Gross Domestic Product (GDP) growth target of "about 5%" for 2024, with the official fiscal deficit maintained at 3% of GDP. An estimate of fiscal deficit, including off-balance sheet items, was lower than expected last year at about 7%, while this year's budget points to a higher 8.2% deficit if fully executed. A notable announcement for long-term growth and stimulus was the plan for "ultra-long" (30–50 year) special sovereign bond issuance over the next few years. The Consumer Price Index (CPI) inflation target remained at "around 3%", consistent with the previous year. Additionally, monetary policy is expected to remain accommodative, characterised as "flexible, appropriate and precise."

China's recovery remained tepid in the first six months of 2024. After growing a higher-than-expected 5.3% year-on-year (YoY) in the first quarter, growth lost momentum, with real GDP expanding just 4.7% YoY in the April to June period. This brought the year-to-date GDP growth down to 5.0% YoY for 1H24. Manufacturing was a key driver of growth over the first six months of the year, with property and consumption being key drags. Meanwhile, inflation remained muted in China. While headline CPI turned positive, it registered a mere 0.2% YoY in June. Core CPI was 0.6% in the same month and has remained stable at this low level for the past two years, with food inflation being a significant drag over the last year.

Pork prices rose significantly in June and should be monitored, though this increase is unlikely to heavily influence monetary policy if it remains isolated. The Producer Price Index came in at -0.8% YoY in June, still in deflationary territory, but an improvement from the -5.4% recorded a year ago.

Policymakers amplified macroeconomic policy support over the period. Thousands of residential property projects were added to the "Project Whitelist" by city governments and were recommended to banks for financial support. Following the Politburo statement released in end-April pledging to digest housing inventory, China rolled out its most significant measures to date since the property turmoil started in 2021. The State Council called for local governments to purchase unsold completed properties for conversion into affordable housing based on demand and reasonable prices, while the People's Bank of China (PBOC) simultaneously announced an Chinese renminbi (RMB) 300 billion re-lending facility to support the measure. PBOC also announced the abolishment of mortgage floor rates and further lowered the minimum downpayment ratios for most home buyers.

Regarding monetary policy, the PBOC lowered key policy rates throughout the period. To stimulate bank lending to households and businesses, the central bank lowered the reserve requirement ratio for most banks. It also lowered the five-year loan prime rate, a key benchmark for home loans, in February.

Towards the end of the period, PBOC Governor Pan Gongsheng announced that the central bank might resume trading CGBs in the secondary market as a new method to manage liquidity. He also revealed that the PBOC is considering refining its official policy rates to allow a single short-term rate in guiding banks, noting that the seven-day reverse repo rate has essentially assumed this function and de-emphasised the one-year medium-term lending facility rate as a policy rate.

Meanwhile, credit rating company Fitch Ratings revised its outlook for China's A+ rating from "stable" to "negative", citing risks to the country's public finances. The US also imposed new tariffs on Chinese imports, targeting strategic sectors like electric vehicles, batteries, steel and critical minerals.

Market Outlook & Strategy

The combination of slow growth, poor sentiment and muted inflation provides a significant tailwind for China RMB bonds overall. Policymakers seem likely to continue their current approach of implementing incremental stimulus to stabilise the economy and facilitate the restructuring to move away from being real estate driven towards high-end manufacturing and green technologies. The central banks' preference for higher long-end rates appears to stem from concerns about systemic financial risks when financial institutions position too heavily in long-tenor bonds, as seen in the case of Silicon Valley Bank in the US. While they may attempt to slow the move, we believe the overall direction for interest rates in the intermediate term remains lower.

The Third Plenum meetings yielded no major changes in policy direction, instead focusing on the continuation of prevailing themes such as the importance of security and adjustments to improve the share of local government incomes relative to the central government. Notably, the meeting stressed the need to meet this year's growth target, which is unusual for the Third Plenum, as it typically focuses on long-term economic goals and direction. A more stable RMB has also given the PBOC increased confidence to provide monetary policy support via earlier-than-expected rate cuts. We are also watchful for any stronger-than-expected policies that could be announced at the end-July Politburo meeting. However, a likely light to moderate policy support may not be sufficient, and we will look to re-enter duration trades.

On the RMB, the PBOC has effectively managed currency volatility. We are closely monitoring their actions on the daily RMB fix pattern, management of RMB liquidity and other apparent intervention operations. China's trade surplus continues to act as a buffer against capital outflows, and a potential accommodative turn by the US Federal Reserve (Fed) would further benefit the RMB. However, a clearer signal of a Fed easing cycle may be required to sustain RMB strength against the US dollar.

5. Global exposure to financial derivatives

The global exposure to financial derivatives is computed using the commitment approach which is calculated as the sum of:

- a. the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;
- b. the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and
- c. the sum of the values of cash collateral received pursuant to:
 - i. the reduction of exposure to counterparties of OTC financial derivatives; and
 - ii. EPM techniques relating to securities lending and repurchase transactions, and that are reinvested.

6. Collateral

Nikko AM China Onshore Bond Fund

	30 June 2024 RMB	31 December 2023 RMB
Margin and collateral accounts	1,028,859	979,308

Margin account represents margin deposits held in respect of open exchange-traded futures contracts held with BNP Paribas, acting through its Singapore Branch. As of 30 June 2024, there was no open exchange-traded futures.

(Constituted under a Trust Deed registered in the Republic of Singapore)

REPORT TO UNITHOLDERS

For the financial period from 01 January 2024 to 30 June 2024 (unaudited)

7. Securities lending or repurchase transactions

Nil.

8. Investment in unit trusts, mutual funds and collective investment schemes

Nil.

9. Borrowings

Nil.

10. Amount of units created and cancelled for the financial period ended 30 June 2024

Nikko AM China Onshore Bond Fund

RMB

Units created	1,890,211
Units cancelled	(8,517,058)

11. Turnover ratio

Nikko AM China Onshore Bond Fund

		30 June 2024	30 June 2023
Lower of total value of purchases or sales	RMB	62,500,767	61,578,493
Average daily net asset value	RMB	98,486,152	102,958,230
Total turnover ratio ¹	%	63.46	59.81

The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.

12. Expense ratio

RMB Class		30 June 2024	30 June 2023
Total operating expenses	RMB	1,424,081	1,486,399
Average daily net asset value	RMB	100,955,689	106,955,721
Total expense ratio ²	%	1.41	1.39

The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial period end was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net asset value is based on the daily balances.

(Constituted under a Trust Deed registered in the Republic of Singapore)

Nikko AM China Onshore Bond Fund

Portfolio Review

Fund returned 2.27% in 2023

The Nikko AM China Onshore Bond Fund (the "Fund") posted a return of 2.27% (in RMB terms, on a NAV-NAV basis) in the 12-month period ending 31 December 2023. The Fund's holdings in both Chinese government bonds (CGBs) and credits generally contributed positively to returns in the falling yield and credit spread environment. On a sector basis, real estate underperformed, although the small allocations there limited the detraction.

Market Review

China re-opened its borders on 8 January 2023, after three years of being shut due to the COVID-19 pandemic. The National People's Congress set a GDP growth target of around 5% for 2023, lower than many external forecasts, with fiscal policy less accommodative than in 2022. Monetary policy guidance remained largely unchanged, with the guidance for M2 and credit growth generally aligned with nominal GDP growth, while inflationary pressures were projected to remain benign. Similar to previous years, the recommendations outlined in the Work Report were broad directions and high-level.

The economy grew at a 2.1% quarter-on-quarter (QoQ) pace in the first three months of 2023, a better performance than what markets had expected, driven by strength in services and consumption. However, growth momentum slowed from thereon, prompting concerns over the sustainability of the recovery. As data suggested that growth was faltering, the government took steps to support the economy. The People's Bank of China (PBOC) lowered several policy rates and the State Council pledged to roll out more measures to enhance economic development. Amid negative real estate company-specific headlines and softening new housing sales momentum, speculation about a significant Chinese stimulus package grew. However, the actual stimulus fell short of expectations. The Politburo's acknowledgment of "new

difficulties and challenges" for the economy in July, and subsequent stimulus measures sparked a rally in Chinese credits. However, credit spreads resumed their widening path after weak data suggested policy tools have so far been ineffective at rekindling Chinese growth. Although policymakers announced further measures aimed at reviving the economy and boosting investor confidence, sentiment stayed weak as regulators stuck to a targeted approach. In August, there were signs of some stabilisation in the economy, with improvements in industrial production and retail sales, although fixed asset investment and property investment remained weak. Moreover, credit growth picked up, and inflation returned to positive territory. During the month, policymakers announced bolder property easing measures. Markets cheered the nationwide measures, spurring a substantial rally in Chinese property credits. Positive sentiment persisted after the Chinese government announced that it would issue Chinese yuan (CNY) 1 trillion additional sovereign debt, effectively lifting the 2023 fiscal deficit ratio well above the 3% set in March.

Meanwhile, relations between the US and China showed progress towards the end of the year. In November, US President Joe Biden met with Chinese leader Xi Jinping in California. The two presidents held a summit where they agreed, among other things, to resume communications between their militaries.

Overall, China's economy expanded by 5.2% for the full year in 2023. The full-year number was roughly in line with the government's target. However, concerns about growth momentum persist as December's activity data registered mixed. Deflationary pressures added to investors' concerns, with the headline consumer price index declining for a third straight month and producer prices dropping for the 15th consecutive month in December.

Market Outlook & Strategy

The Chinese economy remains slow and disinflationary pressures persist. There are limited indications that policymakers are inclined toward a large-scale stimulus. Although there are some bright spots in the economy, such as the rapid growth of the electric vehicle industry, its relatively smaller size compared to the property sector means it is unable to meaningfully offset the latter's drag on the economy.

There remains room for additional monetary accommodation, although the PBOC may adopt a cautious approach in the near term, given its goal of stabilising the currency. Alternative tools such as reserve ratio requirements (RRR) cuts and pledged supplementary lending (PSL) may be employed to inject liquidity, with outright policy rate cuts likely postponed until closer to when the US Federal Reserve cuts interest rates. We look towards the "Two Sessions" (China's annual parliamentary sitting) in early March for confirmation of the annual growth target, fiscal budget and financing plans amongst other broad economic guidance. Current indications are for an "about 5%" growth target, an official fiscal deficit of 3%, a slightly higher Local Government Special Bond quota and some CNY 1 trillion of special government bond issuance. Given the complexity of China's fiscal budgets, a closer examination of details such as land sales revenue and local government expenditure is necessary for a clearer picture of the fiscal stance.

Bonds have rallied strongly of late, and we are cautious to chase aggressively at these levels. Further out, the stable growth outlook and low inflation dynamics engender a benign environment for Chinese local currency bonds. Positive real rates do offer value to longer-term investors, and potential future monetary easing could give the bonds a further boost.

China's current account is still likely to remain positive, allowing it to offset investment outflows to some extent. With a huge foreign currency reserve and policymakers' tendency to smooth the renminbi's movements in the foreign exchange market, we continue to expect the currency to remain stable overall.

Nikko Asset Management Asia Limited. Registration Number 198202562H

(Constituted under a Trust Deed registered in the Republic of Singapore)

REPORT OF THE TRUSTEE

For the financial year ended 31 December 2023

The Trustee is under a duty to take into custody and hold the assets of the sub-fund of Nikko AM China Onshore Fund Series, namely Nikko AM China Onshore Bond Fund (the "Sub-Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Sub-Fund during the financial year covered by these financial statements, set out on pages 10 to 35, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

For and on behalf of the Trustee BNP Paribas Trust Services Singapore Limited

Authorised signatory

Authorised signatory 27 March 2024

(Constituted under a Trust Deed registered in the Republic of Singapore)

STATEMENT BY THE MANAGER

For the financial year ended 31 December 2023

In the opinion of Nikko Asset Management Asia Limited, the accompanying financial statements set out on pages 10 to 35, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and the portfolio holdings of the sub-fund of Nikko AM China Onshore Fund Series, namely Nikko AM China Onshore Bond Fund (the "Sub-Fund") as at 31 December 2023, and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Sub-Fund will be able to meet its financial obligations as and when they materialise.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF THE SUB-FUND OF NIKKO AM CHINA ONSHORE FUND SERIES

(Constituted under a Trust Deed registered in the Republic of Singapore)

Our Opinion

In our opinion, the accompanying financial statements of the sub-fund of Nikko AM China Onshore Fund Series, namely Nikko AM China Onshore Bond Fund (the "Sub-Fund"), are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7"), so as to present fairly, in all material respects, the financial position and portfolio holdings of the Sub-Fund as at 31 December 2023, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

What we have audited

The financial statements of the Sub-Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2023;
- the Statement of Financial Position as at 31 December 2023;
- the Statement of Movements of Unitholders' Funds for the financial year then ended;
- the Statement of Portfolio as at 31 December 2023; and
- the notes to the financial statements, including material accounting policy information.

Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

We are independent of the Sub-Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

Other Information

The Sub-Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF THE SUB-FUND OF NIKKO AM CHINA ONSHORE FUND SERIES

(Constituted under a Trust Deed registered in the Republic of Singapore)

Responsibilities of the Manager for the Financial Statements

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Sub-Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Sub-Fund or to cease the Sub-Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Sub-Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, design and perform audit procedures responsive to those risks, and obtain
 audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from
 error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Sub-Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Sub-Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Sub-Fund to cease to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF THE SUB-FUND OF NIKKO AM CHINA ONSHORE FUND SERIES

(Constituted under a Trust Deed registered in the Republic of Singapore)

Auditor's Responsibilities for the Audit of the Financial Statements (continued)

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. General

Nikko AM China Onshore Fund Series (the "Fund") comprising Nikko AM China Onshore Bond Fund (the "Sub-Fund") is constituted as unit trust in Singapore under a Trust Deed dated 7 July 2014 as amended by Supplemental Deeds and Amending and Restating Deeds (collectively referred to as the "Deeds"). The Deeds are governed by the laws of the Republic of Singapore. The Trustee of the Sub-Fund is BNP Paribas Trust Services Singapore Limited (the "Trustee"). The Manager of the Sub-Fund is Nikko Asset Management Asia Limited (the "Manager").

There are currently three classes of units established within the Sub-Fund, namely the USD Class (denominated in USD), the RMB Class (denominated in RMB) and the SGD Class (denominated in SGD). The classes in the Sub-Fund differ in terms of the currency of denomination and minimum initial and subsequent investment amounts.

As of 31 December 2023 and 2022, only units in the RMB Class have been issued.

The Sub-Fund is single priced and the NAV of the Sub-Fund may fall as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such Investments caused by subscriptions, redemptions, switches and/or exchanges of units in the Sub-Fund. To protect unitholders' interests, the Manager shall, in consultation with the Trustee, have the discretion to apply dilution adjustment or swing pricing in certain circumstances which the Manager deem appropriate. Swing Pricing involves making upwards or downwards adjustments in the calculation of the NAV per unit of the Sub-Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the underlying investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging units on that Dealing Day.

The NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the "Swing Threshold") of the size of the Sub-Fund as of such relevant Dealing Day.

Any dilution adjustment as at the last dealing day of the year will be disclosed under Units in issue.

During the financial year ended 31 December 2023, the Sub-Fund did not reach the swing threshold and no swing pricing has been applied. For the financial year ended 31 December 2022, the Sub-Fund had reached the swing threshold and swing pricing had been applied on some Dealing Day.

2. Material accounting policy information

The principal accounting policies applied in the preparation of these financial statements are set out below:

(a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued and revised by the Institute of Singapore Chartered Accountants in August 2023 for the financial year beginning on or after 1 January 2023.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Material accounting policy information (continued)

(a) Basis of preparation (continued)

The adoption of the revised RAP 7 did not result in substantial changes to the accounting policies of the Sub-Fund and had no material effect on the amounts reported for the current or prior years.

(b) Recognition of income

Interest income is recognised on a time-proportion basis using the effective interest rate method.

(c) Distributions

The Manager has the absolute discretion to determine whether a distribution is to be made. In such an event, an appropriate amount will be transferred to a distribution account to be paid on the distribution date. The amount shall not be treated as part of the property of the Sub-Fund. Distributions are accrued for at the reporting date if the necessary approvals have been obtained and a legal or constructive obligation has been created.

(d) Investments

Investments are classified as financial assets at fair value through profit or loss.

(i) Initial recognition

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

(ii) Subsequent measurement

Investments are subsequently carried at fair value. Net change in fair value on investments is included in the Statement of Total Return in the year in which they arise.

(iii) Derecognition

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

(e) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market prices used for fixed income securities held by the Sub-Fund is the mid-market price for both financial asset and financial liabilities. Accrued interest or discount or premium on fixed income securities at financial year end date is included in the fair value of fixed income securities. Interest income on fixed income securities is presented within "Net gains/(losses) on investments" in the Statement of Total Return.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Material accounting policy information (continued)

(f) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

(g) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(h) Payables

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(i) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks which are subject to an insignificant risk of changes in value.

(j) Foreign currency translation

(i) Functional and presentation currency

The Sub-Fund qualifies as an authorised scheme under the Securities and Futures Act 2001 ("SFA") of Singapore and is offered to retail investors in Singapore. The Sub-Fund's activities are substantially based in Singapore, with subscriptions and redemptions of the units of the Sub-Fund denominated in Renminbi ("RMB").

The performance of the Sub-Fund is measured and reported to the investors in Renminbi. The Manager considers the Renminbi as the currency which most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are expressed in Renminbi, which is the Sub-Fund's functional and presentation currency.

(ii) Transactions and balances

Foreign currency monetary assets and liabilities are translated into Renminbi at the rates of exchange prevailing at the date of the Statement of Financial Position. The net unrealised gain or loss is taken to the Statement of Total Return within the net foreign exchange gain or loss. Transactions during the financial year are recorded in Renminbi at the rates of exchange ruling on transaction dates. All realised gains or losses are recognised in the Statement of Total Return.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

2. Material accounting policy information (continued)

(k) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Sub-Fund or the counterparty.

(I) Margin and collateral accounts

Cash margin provided by the Sub-Fund is identified in the Statement of Financial Position as margin and collateral accounts and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Sub-Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the Notes to the Financial Statements.

(m) Financial derivatives

Financial derivatives are entered into for the purposes of efficient portfolio management, tactical asset allocation or specific hedging of financial assets held as determined by the Manager and in accordance with the provisions of the Deeds.

Financial derivatives outstanding at the end of the financial year are valued at forward rates or at current market prices using the "mark-to-market" method, as applicable, and the resultant gains and losses are taken up in the Statement of Total Return.

When a financial derivative expires, or is sold or terminated, the gains or losses are taken up in the Statement of Total Return.

(n) Expenses

Expenses are recognised in the Statement of Total Return as the related services are performed.

(o) Management fee

Management fee expense is recognised on an accrual basis and in accordance with the Prospectus. Management fee is recognised as an expense over the period for which the service is provided. The management fee charged on any investment in other unit trusts managed by the Manager is rebated back to the Sub-Fund, where applicable.

(p) Creation and cancellation of units

Units are issued and redeemed at the prices based on the Sub-Fund's net asset value per unit at the time of issue or redemption for each respective class. The Sub-Fund's net asset value per unit is calculated by dividing the net asset attributable to the unitholders of each class of units.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

3. Critical accounting estimates and assumptions

Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Uncertain tax positions

The Sub-Fund invests in securities issued by entities which are domiciled in countries other than Singapore. Many of these foreign countries have tax laws that indicate that capital gains taxes and interest income taxes may be applicable to non-residents, such as the Sub-Fund. Typically, these taxes are required to be determined on a self-assessment basis; therefore, such taxes may not be deducted by the bond issuer on a 'withholding' basis.

At 31 December 2023 and 2022, the Sub-Fund has provided for uncertain tax liabilities with respect to foreign capital gains taxes and foreign interest income taxes. The exposure to the Sub-Fund is disclosed under Note 5 Payables in "Provision for tax liabilities".

4. Income tax

The Manager and the Trustee of the Sub-Fund have assessed and are satisfied that the Sub-Fund has met the requisite conditions under the Designated Unit Trust (DUT) scheme for the current financial year. The Manager and Trustee of the Sub-Fund will ensure that the Sub-Fund fulfils its reporting obligations under the DUT Scheme.

Under the DUT Scheme, certain income of the DUT fund is not taxable in accordance with Sections 35(12) and 35(12A) of the Income Tax Act 1947. Such income includes:

- (a) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (b) interest (other than interest for which tax has been deducted under section 45 of the Income Tax Act);
- (c) dividends derived from outside Singapore and received in Singapore;
- (d) gains or profits derived from foreign exchange transactions, transactions in futures contracts, transactions in interest rate or currency forwards, swaps or option contracts and transactions in forwards, swaps or option contracts relating to any securities or financial index;
- (e) discount, prepayment fees, redemption premium and break cost from qualifying debt securities issued during the prescribed period; and
- (f) distributions from foreign unit trusts derived from outside Singapore and received in Singapore.

Income tax for the financial year ended 31 December 2023 and 2022 comprises:

Nikko AM China Onshore Bond Fund

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

6. Financial derivatives (continued)

The Sub-Fund also restricts its exposure to credit losses on the trading derivative instruments it holds by entering into master netting arrangements with approved brokers with whom it undertakes a significant volume of transactions. Master netting arrangements do not result in an offset of Statement of Financial Position assets and liabilities, as transactions are usually settled on a gross basis. However, the credit risk is reduced by a master netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. The Sub-Fund's overall exposure to credit risk on derivative instruments, subject to a master netting arrangement, can change substantially within a short period, as it is affected by each transaction subject to the arrangement.

Financial assets and financial liabilities which are subject to enforceable master netting agreements or similar agreements for the financial year ended 31 December 2023 and 2022 are detailed in the following table.

(i) Offsetting financial assets

				Related account in the Statement Position	of Financial

7. Units in issue

During the financial year ended 31 December 2023 and 2022, the number of units issued, redeemed and outstanding were as follows:

RMB Class	2023	2022
Units at beginning of the financial year Units created Units cancelled Units at end of the financial year	23,551,063 929,988 (57,577)	28,701,045 1,081,437 (6,231,419)
Units at end of the financial year Net assets attributable to unitholders - RMB Net asset value per unit - RMB	24,423,474 104,194,678 4.2662	23,551,063 102,238,198 4.3411

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

7. Units in issue (continued)

A reconciliation of the net asset value as reported in the Statement of Financial Position to the net asset value as determined for the purpose of processing unit subscription and redemption is provided below:

RMB Class	2023 RMB	2022 RMB
Net assets attributable to unitholders per financial statements		
per unit	4.2662	4.3411
Effects of distribution per unit	0.0142	0.0145
Effect for movement in the net assets value between the last		
dealing date and the end of the reporting period ^	(0.0002)	_*
Net assets attributable to unitholders for issuing/redeeming		_
per unit	4.2802	4.3556

[^] The net asset value for the purposes of processing unit subscription and redemption was established in accordance with the methodology indicated in the Sub-Fund's Prospectus. This item reflects the movement in net asset value between the last dealing date and the end of reporting period due to accrual of operating expenses.

8. Margin and collateral accounts

Nikko AM China Onshore Bond Fund

	2023 RMB	2022 RMB
Margin account	979,308	803,957

Margin accounts represents margin deposits held in respect of open exchange-traded futures contracts held with BNP Paribas, acting through its Singapore Branch. As of 31 December 2023, there was no open exchange-traded futures.

^{*} Effect is less than 0.0001.

(Constituted under a Trust Deed registered in the Republic of Singapore)

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

10. Reserve accounts

The Depository, China Securities Depository and Clearing Corporation Limited, requires a minimum clearing reserve fund for settlement of security transactions under the RMB Qualified Foreign Investor Scheme. The Sub-Fund therefore maintains reserve funds with its respective custodian for China Securities.

11. Financial risk management

The Sub-Fund's activities expose it to a variety of risk, including but not limited to market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk. The Manager is responsible for the implementation of the overall risk management programme, which seeks to minimise potential adverse effects on the Sub-Fund's financial performance. Specific guidelines on exposures to individual securities and certain industries and/or countries are in place as part of the overall financial risk management to reduce the Sub-Fund's exposures to these risks.

The Sub-Fund's primary objective is to provide a total return of capital growth and income over the medium to long-term and invests primarily in fixed income instrument issued onshore in the People's Republic of China ("PRC"), which may include, but will not be limited to, certificate of deposits, preferred shares, fixed and floating bonds, convertible bonds, notes, bond and money market funds, and other such fixed income instruments issued in the PRC by governments, governments entities, quasi government entities, corporations and/or financial institutions, and offshore outside of the PRC that are denominated in Renminbi. The Sub-Fund may also invest in fixed income instruments issued by Chinese entities that are denominated in currencies other than Renminbi.

These financial instruments are held in accordance with the published investment policies of the Sub-Fund and managed accordingly to achieve the investment objectives.

(a) Market risk - Price risk

Price risk is the risk that arises from uncertainties about future prices of financial instruments.

The Sub-Fund's investment is substantially dependent on the changes of market prices. The Sub-Fund's overall market positions are monitored regularly so as to assess any deviation from the Sub-Fund's investment objective. However, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the net asset value of the Sub-Fund.

The market prices of financial assets held by the Sub-Fund are primarily dependent on prevailing market interest rates, as the Sub-Fund invests in fixed income instruments issued onshore by the PRC and offshore outside of the PRC that are denominated in Renminbi. Consequently, no separate price risk sensitivity analysis is prepared as it is covered in interest rate risk sensitivity analysis.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial risk management (continued)

(b) Market risk - Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates (fair value risk).

The Manager will regularly assess the economic condition, monitor changes in interest rates outlook and take appropriate measures accordingly to control the impact of interest rate risk. The Sub-Fund's overall market positions are monitored frequently and are reviewed formally on a quarterly basis by the Manager.

The tables below summarise the Sub-Fund's exposure to interest rate risks. They include the Sub-Fund's assets and liabilities categorised by the earlier of contractual re-pricing or maturity dates.

Non interest

As at 31 December 2023 and 2022, an increase/decrease of interest rates 1% (2022: 1%), with all other variables remaining constant, would result in a decrease/increase of the net assets attributable to unitholders by approximately 4% (2022: 5%). Reasonable possible changes in interest rate are revised annually depending on the Manager's current view of market volatility and other factors.

(c) Market risk - Currency risk

Currency risk is the risk that the value of financial instrument will fluctuate due to changes in foreign exchange rates.

To minimise currency risk, the Sub-Fund mainly holds its excess cash in its functional currency. For hedging purposes, the Sub-Fund may also enter into forward foreign exchange contracts.

(Constituted under a Trust Deed registered in the Republic of Singapore)

As of 31 December 2023 and 2022, the Sub-Fund does not hold substantial monetary assets/liabilities denominated in foreign currencies. Changes in foreign exchange rates on monetary assets/liabilities will not result in a significant change in the net asset value of the Sub-Fund. Hence, no separate sensitivity analysis on foreign currency risk has been presented.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial risk management (continued)

(d) Liquidity risk

Liquidity risk is the risk of loss arising from the inability of the Sub-Fund to meet its obligations as and when they fall due without incurring unacceptable cost or losses.

The Sub-Fund is exposed to daily cash redemptions from unitholders. However, in accordance with the Sub-Fund's prospectus, minimum holdings and redemption size are set.

To manage the liquidity risk, a cash buffer is maintained in the Sub-Fund and monitored for minimum cash balances to prevent any extensive disposition of assets which may occur at lower prices and overdraft situations to meet trade settlements and obligations.

The Sub-Fund's financial liabilities are analysed using contractual undiscounted cash flows for maturity groupings based on the remaining year at the Statement of Financial Position date to the contractual maturity date. As at 31 December 2023 and 2022, all liabilities are either payable upon demand or due in less than 3 months. The impact of discounting is not significant.

The table below analyses the Sub-Fund's derivative financial instruments in a loss position that will be settled on a gross basis into relevant maturity groupings based on the period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 3 months equal their carrying balances, as the impact of discounting is not significant.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial risk management (continued)

(e) Credit risk

Credit risk is the risk that a counterparty will be unable to fulfil its obligations to the Sub-Fund in part or in full as and when they fall due.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties as well as the respective credit limits are approved;
- ensuring there are controls in place to identify and assess the creditworthiness of counterparties and review such controls on a semi-annual basis; and
- ensuring that transactions are undertaken with a large number of counterparties.

The Sub-Fund is also exposed to counterparty credit risk on its financial assets held at amortised cost. As at 31 December 2023 and 2022, the Sub-Fund's financial assets held at amortised cost as disclosed in the Statement of Financial Position are realised within three months. The Manager considers the probability of default to be insignificant as the counterparties generally have a strong capacity to meet their contractual obligations in the near term. Hence, no loss allowance has been recognised based on the 12 month expected credit losses as any such impairment would be insignificant to the Sub-Fund.

The table below analyses the Sub-Fund's investments by credit ratings. The credit ratings are reviewed regularly.

_	Fair val 31 Decemb		Fair value at 31 December 2022

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial risk management (continued)

(e) Credit risk (continued)

All trade settlement with approved counterparties are on Delivery versus Payment and/or Receipt versus Payment basis, with the exception of initial public offerings, new issues and placement transactions.

Credit risk arises from cash and cash equivalents and outstanding and committed transactions from brokers. The table below summarises the credit rating of bank and custodians in which the Sub-Fund's assets are held as at 31 December 2023 and 2022.

Nikko AM China Onshore Bond Fund

	Credit rating as at 31 December 2023	Credit rating as at 31 December 2022	Source of credit rating
Bank and custodian - BNP Paribas, acting through its Singapore Branch - Bank of China Limited		Aa3 A1	Moody's Moody's
Counterparties of forward foreign exchange contracts - Australia and New Zealand			
Bank	Aa3	Aa3	Moody's
- Barclays Capital - Goldman Sachs	A1 A1	N.A A2	Moody's
- HSBC Bank	Aa3	N.A	Moody's Moody's
- JP Morgan Chase & Company	A1	A1	Moody's
- Standard Chartered Bank	A1	A3	Moody's
Counterparty of futures contracts and interest rate swap contracts - BNP Paribas, acting through its			
Singapore Branch	Aa3	Aa3	Moody's

The credit ratings are based on Local Long-Term Bank Deposits published by the rating agency.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

(f) Capital management

The Sub-Fund's capital is represented by the net assets attributable to unitholders. The Sub-Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Sub-Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

11. Financial risk management (continued)

(g) Fair value estimation

The Sub-Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Sub-Fund's financial assets and liabilities (by class) measured at fair value at 31 December 2023 and 2022:

Nikko AM China Onshore Bond Fund

As at 31 December 2023	Level 1 RMB	Level 2 RMB	Level 3 RMB	Total RMB
Assets Portfolio of investments: - Quoted fixed income securities	_	105,505,528	_	105,505,528
Financial derivatives at fair value	-	593,225	-	593,225
	-	106,098,753	-	106,098,753
Liabilities Financial derivatives at fair value	-	54,723	-	54,723
As at 31 December 2022	Level 1 RMB	Level 2 RMB	Level 3 RMB	Total RMB
Assets Portfolio of investments:				
- Quoted fixed income securities	_	102,114,030	_	102,114,030
Financial derivatives at fair value	-	930,054	-	930,054
	-	103,044,084		103,044,084

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include investment-grade corporate bonds, government bonds issued in the PRC and over-the-counter derivatives.

The assets and liabilities included in the Statement of Financial Position except portfolio of investments and financial derivatives are carried at amortised cost; their carrying values are reasonable approximation of fair value.

(Constituted under a Trust Deed registered in the Republic of Singapore)

NOTES TO THE FINANCIAL STATEMENTS

Total operating expenses Average daily net asset value Total expense ratio ¹	RMB RMB %	1,420,348 103,131,367 1.38	1,542,204 120,398,253 1.28
Turnover ratio		2023	2022
Lower of total value of purchases or sales Average daily net asset value Total turnover ratio ²	RMB RMB %	120,251,953 103,131,367 116.60	141,940,199 120,398,253 117.89

The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial year end was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Sub-Fund does not pay any performance fee. The average net asset value is based on the daily balances.

The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.

5. Global exposure to financial derivatives

The global exposure to financial derivatives is computed using the commitment approach which is calculated as the sum of:

- a. the absolute value of the exposure of each individual financial derivative not involved in netting or hedging arrangements;
- b. the absolute value of the net exposure of each individual financial derivative after netting or hedging arrangements; and
- c. the sum of the values of cash collateral received pursuant to:
 - i. the reduction of exposure to counterparties of OTC financial derivatives; and
 - ii. EPM techniques relating to securities lending and repurchase transactions, and that are reinvested.
