related to compiling, computing or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages. No further distribution or dissemination of the MSCI data is permitted without MSCI's express written consent.

## **Portfolio Review**

### ***Fund returned 5.40% in 2024***

For the 12-month period ended 31 December 2024, the Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") posted a return of 5.40% (SGD terms, on a NAV-NAV basis), underperforming the benchmark which returned 10.34% for the period. Some of the contributors included Dixon Technologies, JNBY Design, Stella International and iFamilySC. Detractors included Clio, Sunjuice, Openedge Technology and DreamTech.

Starting our review in Hong Kong, Stella International has been a solid contributor. The company is a prominent player in footwear and leather goods manufacturing. The company has been benefiting from market consolidation as well as the growth in luxury sportswear. Mr Stephen Chi (second generation leader) took over in 2019 and has since then announced a three-year plan, using Nike as an anchor customer, reducing exposure to low margin casual shoes and expanding the luxury and high-end segment. This initiative has driven margins, supporting growth. The company trades at 9.9x Price-to-Earnings FY25 with 7% dividend yield.

Dixon Technologies in India has been a positive addition to the portfolio as well. The company is an electronic manufacturing services (EMS) company who benefits from India's Productivity Linked Incentive (PLI) scheme. Dixon's key customers include Samsung, Xiaomi, Panasonic, Nokia etc. The company is also looking to backward integrate its smartphone assembly business to drive margin expansion. Dixon trades at 69x Price-to-Earnings FY26.

Across in Korea, Hanmi Semiconductor was also a positive addition to the Fund. The company is the world's first developer of electromagnetic interference (EMI) shielding system and has a virtual monopoly. The company benefits from the growth in artificial intelligence (AI) as their equipment is used in the manufacturing of high-end memory bandwidth (HBM). Hanmi Semiconductor trades at 24x Price-to-Earnings FY25.

While the Fund has been done well in many instances, there were hard decisions that we had to undertake. In Taiwan, Sunjuice Holdings had been suffering due to weak consumption in China as well as competition which led to declining sales. We decided to exit from the position as sales continued to be weak and recovery did not seem to be nearing. In India, we exited from our position in Protean eGov, a software company, as the main shareholders NSE Investments planned to offload their entire stake in the company. We viewed this change negatively as it meant that the company would no longer have a strong owner, and the future direction of the company was at risk. This is not an exhaustive review of the activities the Fund undertook during the review period, but an overview of some of the ideas that materialised from our meetings with company management, regular research and our endeavour to identify suitable investments for the Fund.

## **Market Review**

Asian equities, including small caps, had a good run in 2024, with the MSCI Asia ex-Japan Small Cap Index (Net Total Return) returning 6.7% in US dollar (USD) terms.

---

Stocks in the region started the year on a positive note amid expectations of interest rate cuts by the US Federal Reserve (Fed), optimism over the health of the global economy as well as enthusiasm over the advent of AI technology into the broader market. Equities rallied further into the second half of the year as eagerly-anticipated rate reductions from the Fed materialised, kicking off the start of an easing cycle worldwide. Towards the close of the period, investors did however take some profits off the table as Donald Trump's US presidential election victory raised the spectre of further global trade disputes in the days ahead. Separately, the Fed signalled there will be fewer cuts in 2025 than previously expected. Slowing growth in Mainland China also remained an area of concern. Although Beijing attempted to address this with a range of policy measures, investors ultimately decided that not enough was being done to help the economy there. Elsewhere in Asia, Taiwan emerged as the top performer in 2024, buoyed by its semiconductor companies amid the global AI boom and demand for related hardware and applications. In contrast, South Korea was worst performer over the year as a political crisis unfolded, which saw both the president, and then the acting president, impeached. The country's "Corporate Value-up program" also failed to boost stocks thus far.

Within the region, the stock markets of Taiwan, Singapore and Malaysia were the best performers (as measured by the MSCI indices in USD terms), while South Korea, Indonesia and the Philippines were the laggards.

### **Market Outlook and Strategy**

After three years of tightening monetary policy, global central banks have started to ease, benefiting investment opportunities, particularly in twin deficit economies such as India and parts of ASEAN. However, this environment may be complicated by the unpredictable nature of Trump's return to power, which could increase market volatility due to his protectionist policies. Rate cut expectations are already being dialled back. Despite concerns about Trump's impact on emerging markets, historical data shows that during his first term, China, South Korea and Taiwan outperformed the S&P 500—despite being the most trade-sensitive equity markets. This time around, Chinese equities already reflect a higher risk premium for trade disruptions. Investing in companies with strong management and adaptability is crucial for mitigating risks and seizing opportunities. In China, opportunities lie in self-sufficiency and industries that have consolidated. Supply chain diversification is essential, especially in regions with minimal trade balances with the US. We continue to be bottom-up focused and concentrate on companies with sustainable earning growth which display positive fundamental change that are undervalued. We also continue to be focused on the core fundamentals of companies, constructing the portfolio from a bottom-up perspective, while staying cognisant of macroeconomic risks. Areas that we like include the healthcare sector which benefits from demographic changes as well as the technology sector which benefits from the growth in AI.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **REPORT OF THE TRUSTEE**

*For the financial year ended 31 December 2024*

---

The Trustee is under a duty to take into custody and hold the assets of Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Fund during the financial year covered by these financial statements, set out on pages 11 to 31, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **STATEMENT BY THE MANAGER**

*For the financial year ended 31 December 2024*

---

In the opinion of Nikko Asset Management Asia Limited, the accompanying financial statements set out on pages 11 to 31, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and the portfolio holdings of Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") as at 31 December 2024, and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Fund will be able to meet its financial obligations as and when they materialise.

# **INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

## **Our Opinion**

In our opinion, the accompanying financial statements of Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund"), are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7"), so as to present fairly, in all material respects, the financial position and portfolio holdings of the Fund as at 31 December 2024, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

### *What we have audited*

The financial statements of the Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2024;
- the Statement of Financial Position as at 31 December 2024;
- the Statement of Movements of Unitholders' Funds for the financial year then ended;
- the Statement of Portfolio as at 31 December 2024; and
- the notes to the financial statements, including material accounting policy information.

## **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Independence*

We are independent of the Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

## **Other Information**

The Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF NIKKO AM SHENTON EMERGING ENTERPRISE  
DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**Responsibilities of the Manager for the Financial Statements**

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP 7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Fund or to cease the Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Fund's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF NIKKO AM SHENTON EMERGING ENTERPRISE  
DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**Auditor's Responsibilities for the Audit of the Financial Statements** (continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

## NOTES TO THE FINANCIAL STATEMENTS

*For the financial year ended 31 December 2024*

---

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

### 1. General

Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") is a Singapore domiciled fund, constituted by a Trust Deed dated 20 October 1997 as amended by Supplemental Deeds and Amended and Restated Deeds (collectively referred to as the "Deeds"). The Deeds are governed by the laws of the Republic of Singapore. The Trustee of the Fund is BNP Paribas Trust Services Singapore Limited (the "Trustee"). The Manager of the Fund is Nikko Asset Management Asia Limited (the "Manager").

There are three classes of units established within the Fund, namely the SGD Class, USD Class and RMB Class.

The classes may differ in terms of their class currency and the minimum subscription amounts applicable.

As of 31 December 2024 and 2023, only units in the SGD Class have been issued.

The Fund is single priced and the NAV of the Fund may fall as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such investments caused by subscriptions, redemptions, switches and/or exchanges of units in the Fund. To protect unitholders' interests, the Manager shall, in consultation with the Trustee, have the discretion to apply dilution adjustment or swing pricing in certain circumstances which the Manager deem appropriate. Swing pricing involves making upwards or downwards adjustments in the calculation of the NAV per unit of the Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the underlying investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging units on that Dealing Day.

The NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the "Swing Threshold") of the size of the Fund as of such relevant Dealing Day.

Any dilution adjustment as at the last dealing day of the year will be disclosed under Units in issue.

### 2. Material accounting policy information

The principal accounting policies applied in the preparation of these financial statements are set out below:

#### (a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value, and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued by the Institute of Singapore Chartered Accountants.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 2. Material accounting policy information (continued)

##### (b) Recognition of income

Dividend income from investments is recognised when the right to receive payment is established.

Interest income is recognised on a time-proportion basis using the effective interest rate method.

##### (c) Investments

Investments are classified as financial assets at fair value through profit or loss.

###### (i) *Initial recognition*

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

###### (ii) *Subsequent measurement*

Investments are subsequently carried at fair value. Net change in fair value on investments is included in the Statement of Total Return in the year in which they arise.

###### (iii) *Derecognition*

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

##### (d) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price used for investments held by the Fund is the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of fair value.

##### (e) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

##### (f) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 2. Material accounting policy information (continued)

(g) Payables

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks which are subject to an insignificant risk of changes in value.

(i) Foreign currency translation

(i) *Functional and presentation currency*

The Fund qualifies as an authorised scheme under the Securities and Futures Act 2001 ("SFA") of Singapore and is offered to retail investors in Singapore. The Fund's activities are substantially based in Singapore, with subscriptions and redemptions of the units of the Fund denominated in Singapore Dollar ("SGD").

The performance of the Fund is measured and reported to the investors in Singapore Dollar. The Manager considers the Singapore Dollar as the currency which most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are expressed in Singapore Dollar, which is the Fund's functional and presentation currency.

(ii) *Transactions and balances*

Foreign currency monetary assets and liabilities are translated into Singapore Dollar at the rates of exchange prevailing at the date of the Statement of Financial Position. The net unrealised gain or loss is taken to the Statement of Total Return within the net foreign exchange gain or loss. Transactions during the year are recorded in Singapore Dollar at the rates of exchange ruling on transaction dates. All realised gains or losses are recognised in the Statement of Total Return.

(j) Expenses

Expenses including transaction costs on purchases or sales of investments are recognised in the Statements of Total Return as the related services are performed, in the period in which they arise.

(k) Management fee

Management fee expense is recognised on an accrual basis and in accordance with the Prospectus. Management fee is recognised as an expense over the period for which the service is provided. The management fee charged on any investment in other unit trusts managed by the Manager is rebated back to the Fund, where applicable.

(l) Creation and cancellation of units

Units are issued and redeemed at the prices based on the Fund's net asset value per unit at the time of issue or redemption for each respective class. The Funds net asset value per unit is calculated by dividing the net asset attributable to the unitholders of each class of units with the total number of outstanding units for each respective class.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 3. Income tax

The Fund was granted the status of Designated Unit Trust (DUT) in Singapore. The Manager and Trustee of the Fund will ensure that the Fund fulfils its reporting obligations under the DUT Scheme.

Under the DUT Scheme, subject to certain conditions and reporting obligations being met, certain income of the DUT fund is not taxable in accordance with Sections 35(12) and 35(12A) of the Income Tax Act 1947. Such income includes:

- (a) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (b) interest (other than interest for which tax has been deducted under section 45 of the Income Tax Act 1947);
- (c) dividends derived from outside Singapore and received in Singapore;
- (d) gains or profits derived from foreign exchange transactions, transactions in futures contracts, transactions in interest rate or currency forwards, swaps or option contracts and transactions in forwards, swaps or option contracts relating to any securities or financial index;
- (e) discount prepayment fees, redemption premium and break cost from qualifying debt securities issued during the prescribed period; and
- (f) distributions from foreign unit trusts derived from outside Singapore and received in Singapore.

Income tax for the financial year ended 31 December 2024 and 2023 comprises:

	2024 S\$	2023 S\$
Singapore income tax	950	541
Overseas income tax	295,628	66,832
	<u>296,578</u>	<u>67,373</u>

The Singapore income tax represents tax deducted at source for Singapore sourced dividends. The overseas income tax represents tax deducted at source on dividends derived from outside Singapore.

#### 4. Receivables

	2024 S\$	2023 S\$
Receivable from unitholders for creation of units	47,765	80,460
Dividends receivable	3,439	16,954
	<u>51,204</u>	<u>97,414</u>

For the financial year ended 31 December 2024

#### 5. Payables

	2024 S\$	2023 S\$
Payable to unitholders for cancellation of units	138,533	420,211
Amount due to the Manager	120,565	112,231
Amount due to the Trustee	24,091	20,897
Valuation fee payable	10,841	9,404
Transfer agent fee payable	1,236	3,663
Provision for audit fee	11,102	11,340
Custody fee payable	8,083	5,964
Other payables	586	-
	<b>315,037</b>	<b>583,710</b>

Amount due to the Manager comprises of management fee payable to Nikko Asset Management Asia Limited. Trustee fee is payable to BNP Paribas Trust Services Singapore Limited. Custody fee, transfer agent fee and valuation fee are payable to BNP Paribas, acting through its Singapore Branch.

#### 6. Units in issue

During the financial year ended 31 December 2024 and 2023, the number of units issued, redeemed and outstanding were as follows:

<u>SGD Class</u>	2024	2023
Units at beginning of the financial year	6,667,978	5,987,269
Units created	2,138,107	2,061,166
Units cancelled	(2,304,936)	(1,380,457)
Units at end of the financial year	<b>6,501,149</b>	<b>6,667,978</b>
Net assets attributable to unitholders - S\$	28,748,902	27,975,000
Net asset value per unit - S\$	<b>4.4221</b>	<b>4.195</b>

A reconciliation of the net asset value as reported in the Statement of Financial Position to the net asset value as determined for the purpose of processing unit subscription and redemption is provided below:

<u>SGD Class</u>	2024 S\$	2023 S\$
Net assets attributable to unitholders per financial statements per unit	4.4221	4.195
Effect of adjustments of bid-ask prices per unit	0.0016	0.001
Effect for movement in the net assets value between the last dealing date and the end of the reporting period <sup>^</sup>	-	0.001
Net assets attributable to unitholders for issuing/redeeming per unit	<b>4.4237</b>	<b>4.197</b>

<sup>^</sup> The net asset value for the purposes of processing unit subscription and redemption was established in accordance with the methodology indicated in the Fund's Prospectus. This item reflects the movement in net asset value between the last dealing date and the end of reporting period due to accrual of operating expenses.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 December 2024*

---

#### **7. Financial risk management**

The Fund's activities expose it to a variety of risk, including but not limited to market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk. The Manager is responsible for the implementation of the overall risk management programme, which seeks to minimise potential adverse effects on the Fund's financial performance. Specific guidelines on exposures to individual securities and certain industries and/or countries are in place as part of the overall financial risk management to reduce the Fund's exposures to these risks.

The Fund's objective is to achieve medium to long term capital appreciation by investing primarily in listed equities of small to medium sized companies in Asia ex Japan, which in the Managers' opinion are undervalued.

These financial instruments are held in accordance with the published investment policies of the Fund and managed accordingly to achieve the investment objectives.

##### **(a) Market risk - Price risk**

Price risk is the risk that arises from uncertainties about future prices of financial instruments.

The Fund's investment is substantially dependent on the changes of market prices. The Fund's overall market positions are monitored regularly so as to assess any deviation from the Fund's investment objective. However, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the net asset value of the Fund.

The Fund's market price risk is managed through diversification of the investment portfolio exposure across various geographies and industries in Asia ex Japan.

The benchmark against which the performance of the Fund is measured is the MSCI Asia ex Japan Small Cap Index (the "Benchmark").

As at 31 December 2024, an increase/decrease of the index component within the Benchmark by 14% (2023: 15%), with all other variables remaining constant, the net assets attributable to unitholders for the year would increase/decrease by approximately 14% (2023: 14%). The analysis was based on the assumptions that the index components within the Benchmark increased/decreased by a reasonable possible shift, with all other variables held constant and that the fair value of Fund's investments moved according to the beta. Reasonable possible changes in market index percentage are revised annually depending on the Manager's current view on market volatility and other relevant factors.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 December 2024*

---

#### **7. Financial risk management (continued)**

##### **(b) Market risk - Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates (fair value risk).

Investment funds that invest in equity securities may be subject to interest rate risk as any interest rate change may affect the equity risk premium though at varying degrees. To manage this risk, the Manager analyses how interest rate changes may affect different industries and securities and then seeks to adjust the Fund's portfolio investments accordingly.

However, the effects of changes in interest rates on the Fund's portfolio may not be quantified as the relationship between the interest rates and the value of equity securities is indirect. Hence, no sensitivity analysis has been presented separately.

##### **(c) Market risk - Currency risk**

Currency risk is the risk that the value of financial instrument will fluctuate due to changes in foreign exchange rates.

To minimise currency risk, the Fund mainly holds its excess cash in its functional currency. For hedging purposes, the Fund may also enter into forward foreign exchange contracts.

**NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**  
(Constituted under a Trust Deed registered in the Republic of Singapore)

**NOTES TO THE FINANCIAL STATEMENTS**  
For the financial year ended 31 December 2024

**7. Financial risk management (continued)**

**(c) Market risk - Currency risk (continued)**

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 7. Financial risk management (continued)

##### (c) Market risk - Currency risk (continued)

Portfolio of investments, which is a significant item in the Statement of Financial Position is exposed to currency risk and other price risk. The Manager has considered the impact of currency risk sensitivity on non-monetary assets which include listed equities and real estate investment funds as part of the price risk sensitivity analysis.

As of 31 December 2024 and 2023, the Fund does not hold substantial monetary assets/liabilities denominated in foreign currencies. Changes in foreign exchange rates on monetary assets/liabilities will not result in a significant change in the net asset value of the Fund. Hence, no separate sensitivity analysis on foreign currency risk has been presented.

##### (d) Liquidity risk

Liquidity risk is the risk of loss arising from the inability of the Fund to meet its obligations as and when they fall due without incurring unacceptable cost or losses.

The Fund is exposed to daily cash redemptions from unitholders. However, in accordance with the Fund's prospectus, minimum holdings and redemption size are set.

To manage the liquidity risk, a cash buffer is maintained in the Fund and monitored for minimum cash balances to prevent any extensive disposition of assets which may occur at lower prices and overdraft situations to meet trade settlements and obligations.

The Fund's securities are considered readily realisable, as the majority of the securities are listed on recognised stock exchanges.

The Fund's financial liabilities are analysed using contractual undiscounted cash flows for maturity groupings based on the remaining year at the Statement of Financial Position date to the contractual maturity date. As at 31 December 2024 and 2023, all liabilities are either payable upon demand or due in less than 3 months. The impact of discounting is not significant.

	<u>Less than 3 months</u>	
	As at	As at
	31 December	31 December
	2024	2023
	S\$	S\$
Payables	315,037	583,710

<b>Contractual cash outflows</b>	<b>451,445</b>	<b>660,892</b>

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 7. Financial risk management (continued)

##### (e) Credit risk

Credit risk is the risk that a counterparty will be unable to fulfil its obligations to the Fund in part or in full as and when they fall due.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties as well as the respective credit limits are approved;
- ensuring there are controls in place to identify and assess the creditworthiness of counterparties and review such controls on a semi-annual basis; and
- ensuring that transactions are undertaken with a large number of counterparties.

The Fund is also exposed to counterparty credit risk on its financial assets held at amortised cost. As at 31 December 2024 and 2023, the Fund's financial assets held at amortised cost as disclosed in the Statement of Financial Position are realised within three months. The Manager considers the probability of default to be insignificant as the counterparties generally have a strong capacity to meet their contractual obligations in the near term. Hence, no loss allowance has been recognised based on the 12 month expected credit losses as any such impairment would be insignificant to the Fund.

All trade settlement with approved counterparties are on Delivery versus Payment and/or Receipt versus Payment basis, with the exception of initial public offerings, new issues and placement transactions.

Credit risk arises from cash and cash equivalents and outstanding and committed transactions from brokers. The table below summarises the credit rating of bank and custodians in which the Fund's assets are held as at 31 December 2024 and 2023.

	<b>Credit rating as at 31 December 2024</b>	Credit rating as at 31 December 2023	<b>Source of credit rating</b>
<b>Bank and custodian</b>			
- BNP Paribas, acting through its Singapore Branch	<b>A1</b>	Aa3	Moody's

The credit ratings are based on the Local Long-Term Bank Deposits published by the rating agency.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

##### (f) Capital management

The Fund's capital is represented by the net assets attributable to unitholders. The Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 7. Financial risk management (continued)

##### (g) Fair value estimation

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value at 31 December 2024 and 2023:

<b>As at 31 December 2024</b>	<b>Level 1 S\$</b>	<b>Level 2 S\$</b>	<b>Level 3 S\$</b>	<b>Total S\$</b>
<b>Assets</b>				
Portfolio of investments:				
- Quoted equities	26,806,161	-	-	26,806,161
- Quoted real estate investment trusts	440,625	-	-	440,625
	<u>27,246,786</u>	<u>-</u>	<u>-</u>	<u>27,246,786</u>
<b>As at 31 December 2023</b>	<b>Level 1 S\$</b>	<b>Level 2 S\$</b>	<b>Level 3 S\$</b>	<b>Total S\$</b>
<b>Assets</b>				
Portfolio of investments:				
- Quoted equities	26,589,236	-	-	26,589,236
	<u>26,589,236</u>	<u>-</u>	<u>-</u>	<u>26,589,236</u>

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities and real estate investment trusts. The Fund does not adjust the quoted price for these instruments.

The assets and liabilities included in the Statement of Financial Position except portfolio of investments and financial derivatives are carried at amortised cost; their carrying values are reasonable approximation of fair value.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

---

#### 8. Related party transactions

In addition to related party information shown elsewhere in the financial statements, the following significant transactions took place during the financial year between the Fund and the related party at terms agreed between the parties and within the provisions of the Deeds:

	2024 S\$	2023 S\$
Bank balances held with related party of the Trustee	<u>1,764,789</u>	<u>1,949,242</u>

#### 9. Financial ratios

##### Expense ratio

		2024	2023
<b><u>SGD Class</u></b>			
Total operating expenses	S\$	589,870	487,008
Average daily net asset value	S\$	28,896,676	24,903,232
<b>Total expense ratio<sup>1</sup></b>	%	<u>2.04</u>	<u>1.96</u>

##### Turnover ratio

		2024	2023
Lower of total value of purchases or sales	S\$	28,503,010	17,896,164
Average daily net asset value	S\$	28,896,676	24,903,232
<b>Total turnover ratio<sup>2</sup></b>	%	<u>98.64</u>	<u>71.86</u>

<sup>1</sup> The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial year end was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Fund does not pay any performance fee. The average net asset value is based on the daily balances.

<sup>2</sup> The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.

## **Portfolio Review**

### ***Fund returned 14.49% in first half of 2024 (1H24)***

For the six-month period ended 30 June 2024, the Nikko AM Shenton Emerging Enterprise Discovery Fund (the “Fund”) posted a return of 14.49% (SGD terms, on a NAV-NAV basis), outperforming the benchmark which returned 11.12% for the period. Some of the contributors included Hanmi Semiconductor, iFamilySC, Sunjin Beauty Science and PSK Holdings. Detractors included Lunit, Openedge Technologies and Dreamtech.

Starting our review in South Korea, iFamilySC was one of the top contributors. The company has seen much success through its leading brand Rom&nd. Rom&nd stems from the name of one of South Korea’s top beauty creator Sae Rom Kim who founded the brand together with iFamilySC. Launched in 2016, the brand’s success can be attributed to its ability to quickly react to trends, grabbing the attention of the MZ (Millennials and Generation Z) consumers with their catchy marketing as well as strong product portfolio. Rom&nd is ranked amongst the top brands in Olive Young, South Korea’s leading health and beauty store chain, for cosmetics products as well. The company trades at 13x price-to-earnings (P/E) FY25, with 25% net profit growth expected in FY25.

PSK Holdings in South Korea has been a positive addition to the portfolio as well. The company produces semiconductor manufacturing machines and other related products. PSK Holdings also offers front-end and back-end thermal processing and semiconductor components wholesale services. The company benefits from the growth in high bandwidth memory as the descum equipment they manufacture is used as an integral part of the process to remove particles produced. The company trades at 12x P/E FY25, with 25% net profit growth expected in FY25.

Another company that contributed significantly was India-based Aegis Logistics, which distributes liquefied petroleum gas (LPG), and provides logistics and terminal services in the oil, gas and chemicals sectors. The company also manufactures and distributes oleochemicals and kerosene oil, as well as providing chemical storage facilities. Aegis Logistics should also benefit from increasing LPG demand in India. Policy is also supportive as the government wants to phase out alternative pollutive cooking fuels and increase LPG penetration. The company is planning to expand capacity with Indian rupee (INR) 45 billion by FY27. The company is also looking at alternative fuels as a future growth driver. The company trades at 37x P/E FY26.

While the Fund has done well in many instances, there were hard decisions that we had to undertake. In Hong Kong, we cut our exposure to Samsonite International after the company reduced forward earnings guidance on the back of the weak macro economy. Sporton International in Taiwan was another position that we exited from, as sales continued to be disappointing and the pickup in sales from new model launches failed to materialise.

This is not an exhaustive review of the activities the Fund undertook during the review period, but an overview of some of the ideas that materialised from our meetings with company management, regular research and our endeavour to identify suitable investments for the Fund.

---

## **Market Review**

Asian equities, including small caps, maintained their positive momentum in 1H24, with the MSCI Asia ex-Japan Small Cap Index (Net Total Return) returning 8.2% in US dollar (USD) terms. Globally, stocks were fuelled by optimism over a resilient economy, improved corporate earnings and the boom in artificial intelligence (AI) technology. Chinese stocks recovered some ground in 1H24 following a rough 2023, as authorities unveiled new policy efforts, including sweeping measures to support the struggling housing market, including removing the floor on mortgage rates, lowering downpayment and encouraging local governments to acquire homes to convert them into affordable housing. Taiwan was the best-performing market over the six-month period, benefitting from the increase in global demand for the hardware underpinning AI technologies. Elsewhere, India was another top performer, as Narendra Modi was sworn in as India's prime minister for a third straight term, extending his leadership for another five years despite an electoral setback that saw the Modi-led Bharatiya Janata Party fail to secure the simple majority on its own.

Within the region, the stock markets of Taiwan, India and Singapore were the best performers in 1H24 (as measured by the MSCI indices in USD terms), while those of Thailand, Hong Kong and Indonesia underperformed.

## **Market Outlook and Strategy**

Small-cap companies in Asia continue to look attractive, with the MSCI Asia ex Japan Small Cap Index trading at a 12.29x FY25 P/E multiple, below the mid-cycle valuations of 15.79x P/E. 2024 is an exciting year with elections happening in multiple countries across the region, from Taiwan to Indonesia, India and Korea. The US elections will also be of focus, and we think that geopolitical risks will continue to be of focus. We continue to be bottom-up focused and concentrate on companies with sustainable earning growth which display positive fundamental change that are undervalued. We continue to be focused on the core fundamentals of companies, constructing the portfolio from a bottom-up perspective, while staying cognisant of macroeconomic risks. Areas that we like include the Korean cosmetic sector which is benefiting from secular growth in Korean brands as well as the technology sector which benefits from the growth in AI.

Nil.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### REPORT TO UNITHOLDERS

For the financial period from 01 January 2024 to 30 June 2024 (unaudited)

---

#### 5. Global exposure to financial derivatives

Nil.

#### 6. Collateral

Nil.

#### 7. Securities lending or repurchase transactions

Nil.

#### 8. Investment in unit trusts, mutual funds and collective investment schemes

Nil.

#### 9. Borrowings

Nil.

#### 10. Amount of units created and cancelled for the financial period ended 30 June 2024

S\$

Units created	4,135,644
Units cancelled	(5,150,220)

#### 11. Turnover ratio

		30 June 2024	30 June 2023
Lower of total value of purchases or sales	S\$	13,725,433	7,220,649
Average daily net asset value	S\$	28,431,526	22,991,968
<b>Total turnover ratio<sup>1</sup></b>	<b>%</b>	<b>48.28</b>	<b>31.41</b>

<sup>1</sup> The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.

#### 12. Expense ratio

		30 June 2024	30 June 2023
<b><u>SGD Class</u></b>			
Total operating expenses	S\$	544,229	445,092
Average daily net asset value	S\$	27,579,495	22,590,561
<b>Total expense ratio<sup>2</sup></b>	<b>%</b>	<b>1.97</b>	<b>1.97</b>

<sup>2</sup> The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial period end was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Fund does not pay any performance fee. The average net asset value is based on the daily balances.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### REPORT TO UNITHOLDERS

For the financial period from 01 January 2024 to 30 June 2024 (unaudited)

---

#### 13. Related party transactions

The Manager of the Fund is Nikko Asset Management Asia Limited, a subsidiary of Nikko Asset Management International Limited. The Trustee of the Fund is BNP Paribas Trust Services Singapore Limited (the "Trustee").

Management fee is payable to the Manager. Trustee fee is payable to the Trustee. Custody fee, transfer agent fee and valuation fee are payable to a related company of the Trustee, BNP Paribas acting through its Singapore Branch.

In addition to related party information shown elsewhere in the financial statements (including the Statement of Portfolio), the following significant transactions took place during the financial period between the Fund and a related party at terms agreed between the parties and within the provisions of the Deeds:

	<b>30 June 2024</b>	31 December 2023
	<b>S\$</b>	S\$
Bank balances held with related party of the Trustee	<u>1,522,238</u>	<u>1,949,242</u>

#### 14. Any other material information that will adversely impact the valuation of the Fund

Nil.

#### 15. Soft dollar commissions/arrangements

In their management of the Fund, the Managers currently do not receive or enter into any soft dollar commissions or arrangements.

## **Portfolio Review**

### ***Fund returned 17.63% in 2023***

For the 12-month period ended 31 December 2023, the Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") posted a return of 17.63% (SGD terms, on a NAV-NAV basis), underperforming the benchmark which returned 19.57% for the period. Some of the contributors included Hanmi Semiconductor, Gold Circuit Electronics, Clio Cosmetics and HPSP. Detractors included Wilcon Depot and CS Wind. The largest detractor was Ecopro Co, an electric vehicle "meme" stock which we did not own that single handedly led to a 1.7% of underperformance.

Starting our review in South Korea, Clio Cosmetics was one of the top ten contributors. Clio is one of the leading cosmetic companies. The company delivered stellar growth of 21% year-on-year (YoY) in sales and 170% growth in net profit in 2023. The strong growth was delivered due to their strong product portfolio. The company ranked first in colour make up and fifth in skincare (from 11th in 2022) in Korea's fastest-growing channel Olive Young. In addition, Clio launched a new product line Twinkle Pop targeted at the alpha generation. Moving forward, the company is also expanding into new categories such as inner beauty for further growth. The company trades at 15x price-to-earnings (P/E) ratio FY24 with a 26% net profit growth.

Another company that contributed significantly was HPSP, a Korean technology equipment company. HPSP is an exclusive manufacturer and supplier of high-pressure hydrogen annealing equipment to semiconductor foundry companies and memory makers. The company benefits from technology migration as advanced processes will use their products. The company trades at 48x P/E ratio FY24 with a 12% net profit growth.

Across in Taiwan, Accton Technology continued to deliver positive returns. The company benefits from the growth in artificial intelligence (AI) through increasing demand for high speed switches and smart network interface cards. While there exists slight slowdown in enterprise server demand due to excess inventory, we think that the situation will be manageable and the strong tailwind from AI will be able to offset the decline.

While the Fund has been done well in many instances, there were hard decisions that we had to undertake. In South Korea, we cut our exposure to Hansol Chemical, a manufacturer and distributor of fine chemicals. We had originally thought that demand for the chemicals would recover but it took longer than expected and margins continued to be under pressure. Across in Singapore, we cut losses from Seatrium, an engineering company that provides offshore and marine services. The company reported weaker-than-expected results on the back of larger-than-expected write-downs. This is not an exhaustive review of the activities the Fund undertook during 2023, but an overview of some of the ideas that materialised from our meetings with company management, regular research and our endeavour to identify suitable investments for the Fund.

## **Market Review**

Asian stocks largely rose in 2023, with the MSCI Asia ex-Japan Small Cap Index (Net Total Return) returning 21.6% in US dollar (USD) terms.

Regional stocks kicked off the year trading higher, supported by a rebound in investor sentiment towards Chinese equities due to policy pivots in areas including COVID-19, housing and internet regulation. Asian stocks shrugged off the market volatility created by the US banking turmoil and ongoing monetary policy tightening by the US Federal Reserve (Fed), turning in decent gains in the first quarter of 2023. However, regional equities lost momentum and retreated in the second quarter

---

due to growing concerns that the recovery in the Chinese economy is losing steam. Asian equities continued to trend lower in the third quarter due to a surge in longer-term government bond yields, higher oil prices and lacklustre macroeconomic data out of China amid renewed stress in the country's debt-laden property sector. Market sentiment, however, improved heading into 2024 as markets adjusted to the fact that US interest rates may have peaked. Eventually, December saw the Fed send its clearest message yet that its aggressive hiking campaign has ended by forecasting a series of rate cuts in 2024.

Within the region, the stock markets of Taiwan, South Korea and India were the best performers (as measured by the MSCI indices in USD terms), while those of Hong Kong, China and Thailand underperformed.

### **Market Outlook and Strategy**

Small-cap companies in Asia continue to look attractive, with the MSCI Asia ex Japan Small Cap Index trading at a 13.07x FY24 P/E multiple, below the mid-cycle valuations of 15.5x P/E. 2024 is an exciting year with elections happening in multiple countries across the region, from Taiwan to Indonesia, India and Korea. The US elections will also be of focus, and we think that geopolitical risks will continue to be of focus. We continue to be bottom-up focused and concentrate on companies with sustainable earning growth which display positive fundamental change that are undervalued. We continue to be focused on the core fundamentals of companies, constructing the portfolio from a bottom-up perspective, while staying cognisant of macroeconomic risks. Areas that we like include the technology sector which benefits from the growth in AI as well as selected areas within the consumer space.

### **REPORT OF THE TRUSTEE**

*For the financial year ended 31 December 2023*

---

The Trustee is under a duty to take into custody and hold the assets of Nikko AM Shenton Emerging Enterprise Discovery Fund (the “Fund”) in trust for the unitholders. In accordance with the Securities and Futures Act 2001, its subsidiary legislation and the Code on Collective Investment Schemes, the Trustee shall monitor the activities of the Manager for compliance with the limitations imposed on the investment and borrowing powers as set out in the Trust Deed in each annual accounting year and report thereon to unitholders in an annual report.

To the best knowledge of the Trustee, the Manager has, in all material respects, managed the Fund during the financial year covered by these financial statements, set out on pages 11 to 31, in accordance with the limitations imposed on the investment and borrowing powers set out in the Trust Deed.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **STATEMENT BY THE MANAGER**

*For the financial year ended 31 December 2023*

---

In the opinion of Nikko Asset Management Asia Limited, the accompanying financial statements set out on pages 11 to 31, comprising the Statement of Total Return, Statement of Financial Position, Statement of Movements of Unitholders' Funds, Statement of Portfolio and Notes to the Financial Statements are drawn up so as to present fairly, in all material respects, the financial position and the portfolio holdings of Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") as at 31 December 2023, and the financial performance and movements in unitholders' funds for the financial year then ended in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants. At the date of this statement, there are reasonable grounds to believe that the Fund will be able to meet its financial obligations as and when they materialise.

# **INDEPENDENT AUDITOR'S REPORT TO THE UNITHOLDERS OF NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

## **Our Opinion**

In our opinion, the accompanying financial statements of Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund"), are properly drawn up in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" issued by the Institute of Singapore Chartered Accountants ("RAP 7"), so as to present fairly, in all material respects, the financial position and portfolio holdings of the Fund as at 31 December 2023, and the financial performance and movements of unitholders' funds for the financial year ended on that date.

### *What we have audited*

The financial statements of the Fund comprise:

- the Statement of Total Return for the financial year ended 31 December 2023;
- the Statement of Financial Position as at 31 December 2023;
- the Statement of Movements of Unitholders' Funds for the financial year then ended;
- the Statement of Portfolio as at 31 December 2023; and
- the notes to the financial statements, including material accounting policy information.

## **Basis for Opinion**

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Independence*

We are independent of the Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code.

## **Other Information**

The Fund's Manager (the "Manager") is responsible for the other information. The other information comprises all sections of the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF NIKKO AM SHENTON EMERGING ENTERPRISE  
DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**Responsibilities of the Manager for the Financial Statements**

The Manager is responsible for the preparation and fair presentation of these financial statements in accordance with the recommendations of RAP7 and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Fund or to cease the Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Fund's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

**INDEPENDENT AUDITOR'S REPORT  
TO THE UNITHOLDERS OF NIKKO AM SHENTON EMERGING ENTERPRISE  
DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

**Auditor's Responsibilities for the Audit of the Financial Statements** (continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

## NOTES TO THE FINANCIAL STATEMENTS

*For the financial year ended 31 December 2023*

---

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

### 1. General

Nikko AM Shenton Emerging Enterprise Discovery Fund (the "Fund") is a Singapore domiciled fund, constituted by a Trust Deed dated 20 October 1997 as amended by Supplemental Deeds and Amended and Restated Deeds (collectively referred to as the "Deeds"). The Deeds are governed by the laws of the Republic of Singapore. The Trustee of the Fund is BNP Paribas Trust Services Singapore Limited (the "Trustee"). The Manager of the Fund is Nikko Asset Management Asia Limited (the "Manager").

There are three classes of units established within the Fund, namely the SGD Class, USD Class and RMB Class.

The classes may differ in terms of their class currency and the minimum subscription amounts applicable.

As of 31 December 2023 and 2022, only units in the SGD Class have been issued.

The Fund is single priced and the NAV of the Fund may fall as a result of the transaction costs incurred in the purchase and sale of its underlying investments and the spread between the buying and selling prices of such Investments caused by subscriptions, redemptions, switches and/or exchanges of units in the Fund. To protect unitholders' interests, the Manager shall, in consultation with the Trustee, have the discretion to apply dilution adjustment or swing pricing in certain circumstances which the Manager deem appropriate. Swing Pricing involves making upwards or downwards adjustments in the calculation of the NAV per unit of the Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the underlying investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging units on that Dealing Day.

The NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the "Swing Threshold") of the size of the Fund as of such relevant Dealing Day.

Any dilution adjustment as at the last dealing day of the year will be disclosed under Units in issue.

During the financial year ended 31 December 2023, the Fund did not reach the swing threshold and no swing pricing has been applied. For the financial year ended 31 December 2022, the Fund had reached the swing threshold and swing pricing had been applied on some Dealing Day.

### 2. Material accounting policy information

The principal accounting policies applied in the preparation of these financial statements are set out below:

#### (a) Basis of preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial instruments at fair value, and in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Investment Funds" ("RAP 7") issued and revised by the Institute of Singapore Chartered Accountants in August 2023 for the financial year beginning on or after 1 January 2023.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 2. Material accounting policy information (continued)

##### (a) Basis of preparation (continued)

The adoption of the revised RAP 7 did not result in substantial changes to the accounting policies of the Fund and had no material effect on the amounts reported for the current or prior years.

##### (b) Recognition of income

Dividend income from investments is recognised when the right to receive payment is established.

Interest income is recognised on a time-proportion basis using the effective interest rate method.

##### (c) Investments

Investments are classified as financial assets at fair value through profit or loss.

###### (i) *Initial recognition*

Purchases of investments are recognised on the trade date. Investments are recorded at fair value on initial recognition.

###### (ii) *Subsequent measurement*

Investments are subsequently carried at fair value. Net change in fair value on investments is included in the Statement of Total Return in the year in which they arise.

###### (iii) *Derecognition*

Investments are derecognised on the trade date of disposal. The resultant realised gains and losses on the sales of investments are computed on the basis of the difference between the weighted average cost and selling price gross of transaction costs, and are taken up in the Statement of Total Return.

##### (d) Basis of valuation of investments

The fair value of financial assets and liabilities traded in active markets is based on quoted market prices at the close of trading on the reporting date. The quoted market price used for investments held by the Fund is the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager will determine the point within the bid-ask spread that is most representative of fair value.

##### (e) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at their fair value and subsequently carried at amortised cost using the effective interest method, less accumulated impairment losses.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 2. Material accounting policy information (continued)

(f) Sales and purchases awaiting settlement

Sales and purchases awaiting settlement represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet settled or delivered on the Statement of Financial Position date respectively. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

(g) Payables

Accrued expenses are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

(h) Cash and cash equivalents

Cash and cash equivalents comprise cash at banks which are subject to an insignificant risk of changes in value.

(i) Foreign currency translation

(i) *Functional and presentation currency*

The Fund qualifies as an authorised scheme under the Securities and Futures Act 2001 ("SFA") of Singapore and is offered to retail investors in Singapore. The Fund's activities are substantially based in Singapore, with subscriptions and redemptions of the units of the Fund denominated in Singapore Dollar ("SGD").

The performance of the Fund is measured and reported to the investors in Singapore Dollar. The Manager considers the Singapore Dollar as the currency which most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are expressed in Singapore Dollar, which is the Fund's functional and presentation currency.

(ii) *Transactions and balances*

Foreign currency monetary assets and liabilities are translated into Singapore Dollar at the rates of exchange prevailing at the date of the Statement of Financial Position. The net unrealised gain or loss is taken to the Statement of Total Return within the net foreign exchange gain or loss. Transactions during the year are recorded in Singapore Dollar at the rates of exchange ruling on transaction dates. All realised gains or losses are recognised in the Statement of Total Return.

(j) Expenses

Expenses are recognised in the Statement of Total Return as the related services are performed.

(k) Management fee

Management fee expense is recognised on an accrual basis and in accordance with the Prospectus. Management fee is recognised as an expense over the period for which the service is provided. The management fee charged on any investment in other unit trusts managed by the Manager is rebated back to the Fund, where applicable.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 2. Material accounting policy information (continued)

##### (l) Creation and cancellation of units

Units are issued and redeemed at the prices based on the Fund's net asset value per unit at the time of issue or redemption for each respective class. The Fund's net asset value per unit is calculated by dividing the net asset attributable to the unitholders of each class of units.

#### 3. Income tax

The Manager and Trustee of the Fund have assessed and are satisfied that the Fund has met the requisite conditions under the Designated Unit Trust (DUT) scheme for the current financial year. The Manager and Trustee of the Fund will ensure that the Fund fulfils its reporting obligations under the DUT Scheme.

Under the DUT Scheme, certain income of the DUT fund is not taxable in accordance to Sections 35(12) and 35(12A) of the Income Tax Act 1947. Such income includes:

- (a) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (b) interest (other than interest for which tax has been deducted under section 45 of the Income Tax Act 1947);
- (c) dividends derived from outside Singapore and received in Singapore;
- (d) gains or profits derived from foreign exchange transactions, transactions in futures contracts, transactions in interest rate or currency forwards, swaps or option contracts and transactions in forwards, swaps or option contracts relating to any securities or financial index;
- (e) discount prepayment fees, redemption premium and break cost from qualifying debt securities issued during the prescribed period; and
- (f) distributions from foreign unit trusts derived from outside Singapore and received in Singapore.

Income tax for the financial year ended 31 December 2023 and 2022 comprises:

	2023 S\$	2022 S\$
Singapore income tax	541	785
Overseas income tax	66,832	87,910
	<b>67,373</b>	<b>88,695</b>

The Singapore income tax represents tax deducted at source for Singapore sourced dividends. The overseas income tax represents tax deducted at source on dividends derived from outside Singapore.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 6. Units in issue

During the financial year ended 31 December 2023 and 2022, the number of units issued, redeemed and outstanding were as follows:

<b><u>SGD Class</u></b>	<b>2023</b>	2022
Units at beginning of the financial year	<b>5,987,269</b>	8,657,114
Units created	<b>2,061,166</b>	1,003,935
Units cancelled	<b>(1,380,457)</b>	(3,673,780)
Units at end of the financial year	<b>6,667,978</b>	5,987,269
Net assets attributable to unitholders - S\$	<b>27,975,000</b>	21,350,736
Net asset value per unit - S\$	<b>4.195</b>	3.566

A reconciliation of the net asset value as reported in the Statement of Financial Position to the net asset value as determined for the purpose of processing unit subscription and redemption is provided below:

<b><u>SGD Class</u></b>	<b>2023</b>	2022
	<b>S\$</b>	S\$
Net assets attributable to unitholders per financial statements per unit	<b>4.195</b>	3.566
Effect of adjustment of bid-ask prices per unit	<b>0.001</b>	0.002
Effect for movement in the net assets value between the last dealing date and the end of the reporting period <sup>^</sup>	<b>0.001</b>	-*
Net assets attributable to unitholders for issuing/redeeming per unit	<b>4.197</b>	3.568

<sup>^</sup> The net asset value for the purposes of processing unit subscription and redemption was established in accordance with the methodology indicated in the Fund's Prospectus. This item reflects the movement in net asset value between the last dealing date and the end of reporting period due to accrual of operating expenses.

\* Effect is less than 0.001.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 December 2023*

---

#### **7. Financial risk management**

The Fund's activities expose it to a variety of risk, including but not limited to market risk (including price risk, interest rate risk and currency risk), liquidity risk and credit risk. The Manager is responsible for the implementation of the overall risk management programme, which seeks to minimise potential adverse effects on the Fund's financial performance. Specific guidelines on exposures to individual securities and certain industries and/or countries are in place as part of the overall financial risk management to reduce the Fund's exposures to these risks.

The Fund's objective is to achieve medium to long-term capital appreciation by investing primarily in listed equities of small to medium sized companies in Asia ex Japan, which in the Managers' opinion are undervalued.

These financial instruments are held in accordance with the published investment policies of the Fund and managed accordingly to achieve the investment objectives.

##### **(a) Market risk - Price risk**

Price risk is the risk that arises from uncertainties about future prices of financial instruments.

The Fund's investment is substantially dependent on the changes of market prices. The Fund's overall market positions are monitored regularly so as to assess any deviation from the Fund's investment objective. However, events beyond reasonable control of the Manager could affect the prices of the underlying investments and hence the net asset value of the Fund.

The Fund's market price risk is managed through diversification of the investment portfolio exposure across various geographies and industries in Asia ex Japan.

The benchmark against which the performance of the Fund is measured is the MSCI Asia ex Japan Small Cap Index (the "Benchmark").

As at 31 December 2023, an increase/decrease of the index component within the Benchmark by 15% (2022: 16%), with all other variables remaining constant, the net assets attributable to unitholders for the year would increase/decrease by approximately 14% (2022: 14%). The analysis was based on the assumptions that the index components within the Benchmark increased/decreased by a reasonable possible shift, with all other variables held constant and that the fair value of Fund's investments moved according to the beta. Reasonable possible changes in market index percentage are revised annually depending on the Manager's current view on market volatility and other relevant factors.

## **NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND**

*(Constituted under a Trust Deed registered in the Republic of Singapore)*

### **NOTES TO THE FINANCIAL STATEMENTS**

*For the financial year ended 31 December 2023*

---

#### **7. Financial risk management (continued)**

##### **(b) Market risk - Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates (fair value risk).

Investment funds that invest in equity securities may be subject to interest rate risk as any interest rate change may affect the equity risk premium though at varying degrees. To manage this risk, the Manager analyses how interest rate changes may affect different industries and securities and then seeks to adjust the Fund's portfolio investments accordingly.

However, the effects of changes in interest rates on the Fund's portfolio may not be quantified as the relationship between the interest rates and the value of equity securities is indirect. Hence, no sensitivity analysis has been presented separately.

##### **(c) Market risk - Currency risk**

Currency risk is the risk that the value of financial instrument will fluctuate due to changes in foreign exchange rates.

To minimise currency risk, the Fund mainly holds its excess cash in its functional currency. For hedging purposes, the Fund may also enter into forward foreign exchange contracts.

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 7. Financial risk management (continued)

##### (c) Market risk - Currency risk (continued)

Portfolio of investments, which is a significant item in the Statement of Financial Position is exposed to currency risk and other price risk. The Manager has considered the impact of currency risk sensitivity on non-monetary assets which include listed equities and real estate investment funds as part of the price risk sensitivity analysis.

As of 31 December 2023 and 2022, the Fund does not hold substantial monetary assets/liabilities denominated in foreign currencies. Changes in foreign exchange rates on monetary assets/liabilities will not result in a significant change in the net asset value of the Fund. Hence, no separate sensitivity analysis on foreign currency risk has been presented.

##### (d) Liquidity risk

Liquidity risk is the risk of loss arising from the inability of the Fund to meet its obligations as and when they fall due without incurring unacceptable cost or losses.

The Fund is exposed to daily cash redemptions from unitholders. However, in accordance with the Fund's prospectus, minimum holdings and redemption size are set.

To manage the liquidity risk, a cash buffer is maintained in the Fund and monitored for minimum cash balances to prevent any extensive disposition of assets which may occur at lower prices and overdraft situations to meet trade settlements and obligations.

The Fund's securities are considered readily realisable, as the majority of the securities are listed on recognised stock exchanges.

The Fund's financial liabilities are analysed using contractual undiscounted cash flows for maturity groupings based on the remaining year at the Statement of Financial Position date to the contractual maturity date. As at 31 December 2023 and 2022, all liabilities are either payable upon demand or due in less than 3 months. The impact of discounting is not significant.

	<u>Less than 3 months</u>	
	As at	As at
	31 December	31 December
	2023	2022
	S\$	S\$
Payables	583,710	145,661
Purchases awaiting settlement	77,182	-
<b>Contractual cash outflows</b>	<b>660,892</b>	<b>145,661</b>

## NIKKO AM SHENTON EMERGING ENTERPRISE DISCOVERY FUND

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 7. Financial risk management (continued)

##### (e) Credit risk

Credit risk is the risk that a counterparty will be unable to fulfil its obligations to the Fund in part or in full as and when they fall due.

Concentrations of credit risk are minimised primarily by:

- ensuring counterparties as well as the respective credit limits are approved;
- ensuring there are controls in place to identify and assess the creditworthiness of counterparties and review such controls on a semi-annual basis; and
- ensuring that transactions are undertaken with a large number of counterparties.

The Fund is also exposed to counterparty credit risk on its financial assets held at amortised cost. As at 31 December 2023 and 2022, the Fund's financial assets held at amortised cost as disclosed in the Statement of Financial Position are realised within three months. The Manager considers the probability of default to be insignificant as the counterparties generally have a strong capacity to meet their contractual obligations in the near term. Hence, no loss allowance has been recognised based on the 12 month expected credit losses as any such impairment would be insignificant to the Fund.

All trade settlement with approved counterparties are on Delivery versus Payment and/or Receipt versus Payment basis, with the exception of initial public offerings, new issues and placement transactions.

Credit risk arises from cash and cash equivalents and outstanding and committed transactions from brokers. The table below summarises the credit rating of bank and custodian in which the Fund's assets are held as at 31 December 2023 and 2022.

	<b>Credit rating as at 31 December 2023</b>	Credit rating as at 31 December 2022	<b>Source of credit rating</b>
<b>Bank and custodian</b>			
- BNP Paribas, acting through its Singapore Branch	<b>Aa3</b>	Aa3	Moody's

The credit ratings are based on Local Long-Term Bank Deposits published by the rating agency.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial instruments.

##### (f) Capital management

The Fund's capital is represented by the net assets attributable to unitholders. The Fund strives to invest the subscriptions of redeemable participating units in investments that meet the Fund's investment objectives while maintaining sufficient liquidity to meet unitholder redemptions.

(Constituted under a Trust Deed registered in the Republic of Singapore)

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

#### 7. Financial risk management (continued)

##### (g) Fair value estimation

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table analyses within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value at 31 December 2023 and 2022:

<b>As at 31 December 2023</b>	<b>Level 1 S\$</b>	<b>Level 2 S\$</b>	<b>Level 3 S\$</b>	<b>Total S\$</b>
<b>Assets</b>				
Portfolio of investments:				
- Quoted equities	<b>26,589,236</b>	-	-	<b>26,589,236</b>
<b>As at 31 December 2022</b>	<b>Level 1 S\$</b>	<b>Level 2 S\$</b>	<b>Level 3 S\$</b>	<b>Total S\$</b>
<b>Assets</b>				
Portfolio of investments:				
- Quoted equities	19,558,531	-	-	19,558,531
- Quoted real estate investment trusts	453,303	-	-	453,303
	<b>20,011,834</b>	-	-	<b>20,011,834</b>

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities and real estate investment trusts. The Fund does not adjust the quoted price for these instruments.

The assets and liabilities included in the Statement of Financial Position except portfolio of investments are carried at amortised cost; their carrying values are reasonable approximation of fair value.

### NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2023

---

#### 8. Related party transactions

In addition to related party information shown elsewhere in the financial statements, the following significant transactions took place during the financial year between the Fund and the related party at terms agreed between the parties and within the provisions of the Deeds:

	2023 S\$	2022 S\$
Bank balances held with related party of the Trustee	<u>1,949,242</u>	<u>1,436,065</u>

#### 9. Financial ratios

##### Expense ratio

		2023	2022
<b><u>SGD Class</u></b>			
Total operating expenses	S\$	487,008	488,815
Average daily net asset value	S\$	24,903,232	25,956,645
<b>Total expense ratio<sup>1</sup></b>	%	<u>1.96</u>	<u>1.88</u>

##### Turnover ratio

		2023	2022
Lower of total value of purchases or sales	S\$	17,896,164	13,557,355
Average daily net asset value	S\$	24,903,232	25,956,645
<b>Total turnover ratio<sup>2</sup></b>	%	<u>71.86</u>	<u>52.23</u>

<sup>1</sup> The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio at financial year end was based on total operating expenses divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The Fund does not pay any performance fee. The average net asset value is based on the daily balances.

<sup>2</sup> The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments, divided by the average daily net asset value.
