

# NIKKO AM MULTI SECTOR CREDIT FUND

## March 2025 Factsheet

### Investment Objective

The investment focus and approach of the Nikko AM Multi Sector Credit Fund is to adopt an active strategic and tactical asset allocation process to credit-related debt securities globally. Through this asset allocation process, the Fund will gain exposure to actively selected debt securities based on both fundamental and quantitative research. The strategic asset-allocation process applies a risk-balanced approach to each of the credit sectors with the tactical overlay allowing the Fund to shift these allocations to exploit investment opportunities of different market environments.

The Fund will invest in credit-related debt securities such as emerging market debt, high-yield debt and investment-grade corporate debt. The Fund may also invest in other assets such as convertible bonds, asset-backed securities, mortgage-backed securities, debt securities of governments and their agencies and cash and cash equivalents. Depending on the market environment, the Fund has the flexibility to allocate tactically to any other credit sector not mentioned above.

<sup>2</sup> Weighted Average Yield to Maturity (%) is an average yield calculated by weighting each security presently held by the Fund at time of calculation with capitalisation and duration. Yield to Maturity and Yield to Call measures are used in the calculation for non-callable and callable bonds respectively. The figure is for reference only and would vary from time to time due to market conditions and it does not represent the fund/sub-fund's distribution yield or actual rate of return.

<sup>3</sup> Weighted Average Duration (years) is an average duration weighted with capitalisation, and the figure is for reference only and would vary from time to time due to market conditions.

<sup>4</sup> Cash is included in the calculation of the average credit rating and is rated as AAA regardless of currencies held. The credit ratings of the underlying fixed income securities are determined by S&P or Moody's, and where official credit ratings are unavailable, Nikko AM Asia's internal credit ratings are used.

Prior to 31 March 2022, the Nikko AM Multi Sector Credit Fund was known as the Horizon Global Bond Fund (S\$ Hedged). The Horizon Global Bond Fund (S\$ Hedged) ceased to be included under the CPF Investment Scheme ("CPFIS") from 15 March 2008.

## Important Information

The Central Provident Board ("CPF") interest rate for the Ordinary Account ("OA") is based on the 12-month fixed deposit and month-end savings rates of major local banks, subject to a minimum 2.5% interest per annum. The interest rate for Special, Medisave and Retirement Accounts ("SMRA") is pegged to the 12-month average yield of 10-year Singapore Government Securities plus 1% per annum. A 4% per annum floor rate will be maintained for interest earned on SMRA until 31 December 2020, after which a 2.5% per annum minimum rate will apply. An extra 1% per annum interest is paid on the first S\$60,000 of a member's combined balances, including up to S\$20,000 in the OA. The first S\$20,000 in the OA and the first S\$40,000 in the Special Account ("SA") cannot be invested under the CPF Investment Scheme ("CPFIS"). Investors should note that the applicable interest rates for each of the CPF accounts may be varied by the CPF Board from time to time.
