Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> The Manager is Nikko Asset Management Asia Limited. The Trustee is BNP Paribas Trust Services Singapore Limited. The custodian is BNP Paribas, acting through its Singapore branch. The Manager has partially delegated the trade execution function for certain United States, Canada (North America) and Latin America fixed income securities to Nikko Asset Management Americas, Inc to provide overnight trade support during US trading hours. 	<p>Refer to Para 2 to 4 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? You should be aware that the price of Units can go down as well as up. The value of the product and its dividends or coupons may rise or fall. The following are key risk factors that may cause you to lose some or all of your investment:</p>	<p>Refer to Para 9 and 14 of the Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> You are exposed to market and interest rate risk. Investments in debt securities are subject to interest rate risks and default risks by the issuers. You should also consider the usual risks of investing and participating in unlisted securities. Prices of securities may go up or down in response to changes in the economic conditions, the interest rates, and the market's perception of securities of the relevant country. You are exposed to credit risks. Investments in debt securities are subject to credit risks, such as risk of default by the issuer, and are subject to adverse changes in general economic conditions, the financial condition of the issuer, or both, or an unanticipated rise in interest rates, which may impair the issuer's ability to make payments of interest and principal, resulting in a possible default by the issuer. You are exposed to the risk of investing in foreign securities. The investments of the Fund may be affected by political instability, exchange controls, changes in taxation, foreign investment policies and other restrictions and controls. The legal infrastructure and accounting, auditing and reporting standards in certain countries may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Foreign ownership restrictions in some markets may mean that corporate action entitlements may not always be secured or may be restricted. 	
Liquidity Risks	
<ul style="list-style-type: none"> The Fund is not listed and you can redeem only on Dealing Days. 	
Product-Specific Risks	
<ul style="list-style-type: none"> You are exposed to emerging markets risks. The Fund may invest in emerging 	

<p>markets securities which are in general more volatile than those of developed countries, with the result that the Units may be subject to greater price volatility.</p> <ul style="list-style-type: none"> • You are exposed to foreign exchange risk. As the investments of the Fund may be denominated in foreign currencies, fluctuations of the exchange rates of such foreign currencies against the base currency of the Fund (i.e. SGD) may affect the value of Units. The Manager reserves the discretion to hedge, whether fully, partially or not at all, the foreign currency exposure of the Fund depending on the prevailing foreign exchange rates, and in the event no hedging or partial hedging is made, the value of the Fund may be affected. • You are exposed to derivatives risk. The Manager may invest in financial derivative instruments (“FDIs”) for the purposes of hedging and/or efficient portfolio management. FDIs involve risks different from, and in some cases, greater than, the risks presented by more traditional investments. Some of the risks associated with FDIs are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk. The Fund may invest into underlying funds which use or invest in FDIs, and it is possible that the Fund’s NAV may be subject to volatility due to the Fund’s or the underlying funds’ usage or investment in FDIs. • You are exposed to risks of investing into the mainland China onshore market via Bond Connect. The Fund may invest in the mainland China interbank bond markets via Bond Connect. In addition to the risks associated with the Chinese market and risks related to investments in RMB, investments via Bond Connect are subject to additional risks such as market volatility and liquidity risk, settlement, clearing and custody risk, operational risk, regulatory risk and mainland tax considerations. <p>You should be aware that your investment in the Fund may be exposed to other risks of an exceptional nature from time to time.</p>

* Based on the audited accounts of the Fund for the year ended 31 December 2022, the (i) legal and professional fees and (ii) transaction fees amounted to approximately 0.13% and 0.27% respectively of the average NAV of the Fund for the year ended 31 December 2022.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The issue price and realisation price of the Units will be available on the Business Day following each Dealing Day. You may check such price on the Manager's website at www.nikkoam.com.sg.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

Cancellation of Units

If applicable to you, you may cancel your subscription for Units by giving written notice to the Manager through the approved distributor(s) from whom you purchased your Units within 7 calendar days from the date of your subscription or purchase of the Units. Any Initial Sales Charge paid will be refunded to you. However, you will have to take the risk for any price changes in the NAV of the relevant Class since you purchased the Units.

Realisation of Units

You can exit the Fund by writing to the Manager through the approved distributor from whom you purchased your Units. If you are an institutional investor who had purchased your Units directly from the Manager, you may submit your realisation request to the Manager. If your realisation request is received and accepted by 5 p.m. (Singapore time) on a Dealing Day, you will be paid a price based on the value of the Fund for that Dealing Day. If your realisation request is received and accepted after 5 p.m. (Singapore time), you will be paid a price based on the value of the Fund on the immediately following Dealing Day. The realisation proceeds that you will receive are calculated by multiplying the number of Units to be realised by the realisation price. There is currently no realisation charge imposed. An example is as follows:

Units to be realised	x	Realisation Price	=	Realisation Proceeds payable
1,000	x	\$1.050	=	\$1,050.00

The cancellation or realisation proceeds will normally be paid within seven Business Days after the relevant Dealing Day on which the cancellation or realisation request is received.

Refer to Para 10.9, 11 and 13 of the Prospectus for further information on valuation and exiting from the product.
