Each investor undertakes to ensure that all information provided to the Recipient is true, accurate and complete and that changes to any such information shall be notified to the Recipient in a timely manner.

Foreign Account Tax Compliance

Each investor acknowledges that it shall notify the Managers or their registered distributors immediately in writing if it is a US Person and if it has subscribed for or holds any Units on behalf of any US Person. Each investor shall further notify the Managers or their registered distributors not later than thirty (30) days of any change under FATCA or any laws or regulations that affects the investor's tax status or the tax status of any US Person on whose behalf the investor has subscribed for or holds any Units.

Each investor represents and warrants that it has provided or shall provide to the Managers or their registered distributors all documentation or other information required for compliance with FATCA and in connection with any change in tax

status and shall otherwise provide all required documentation (including the completion of any FATCA related forms and documents) and other information not later than seven (7) days of any request in writing by the Managers or their registered distributors.

Each investor acknowledges that in the event of any failure to provide accurate and timely information the Managers and their registered distributors have the right to deem the investor recalcitrant and/or reportable and shall be entitled to take all necessary action(s) against the investor to be compliant with requirements under FATCA, including but not limited to any local legislation enacted in connection with FATCA as the same may be modified, amended, supplemented, re-enacted or re-constituted from time to time. Each investor notes that the Managers may compulsorily realise all or any of its Units in any of the circumstances set out in Section 8.15 of this Prospectus.

Each investor consents to the collection, storage, and disclosure of any confidential information including personal data to persons to whom payments are made or from whom payments are received for the account of the investor and to governmental authorities as required by laws and regulations or other agreement by or between governments pursuant to FATCA. Each investor represents that it has secured from any third party whose information may be provided to the Managers and their registered distributors all necessary consents and/or waivers to permit the Managers and their registered distributors to carry out the actions required pursuant to FATCA, and that the investor shall secure such consents and waivers prior to furnishing such information to the Managers and their registered distributors.

Each investor acknowledges that the Managers and their registered distributors are entitled to take all necessary action determined by the Managers and the registered distributors to be and remain compliant with FATCA as is required by law or other agreement by or between governments. Each investor authorises the Managers and their registered distributors to withhold or otherwise deduct from any payment any required tax or other government assessment, including but not limited to any requirement to withhold or deduct an amount pursuant to FATCA.

The Managers and their registered distributors shall have the right to determine and carry out any action which they consider to be appropriate to meet any obligations or requirements, whether in Malaysia, Singapore or elsewhere, for the purpose of the prevention of tax evasion. Such actions may include, but shall not be limited to, investigating and intercepting payments into and out of investors' account(s) (particularly in the case of international transfer of funds), investigating the source of or intended recipient of funds, sharing information and documents with any tax or regulatory authorities and withholding income from investors' accounts and transferring it to such tax authorities. In the event of any doubt as to whether a payment in or out of an investor's account is lawful, the Managers and their registered distributors reserve the right to cease all dealings with the investor in relation to such account.

For the purposes of this section relating to foreign account tax compliance, the following words and expressions shall have the following meanings:

"FATCA" means sections 1471 through 1474 of the United States Internal Revenue Code and any regulations and other guidance issued in connection thereto or any other agreement entered into with or between authorities and governments arising out of or in connection with FATCA or the implementation thereof, as each may be modified, amended, supplemented, re-enacted or re-constituted from time to time.

"US Person" means a United States citizen or resident individual, a partnership or corporation organised in the United States or under the laws of the United States or any state of the United States, or a trust if (i) a court within the United States would have authority under applicable law to render orders or judgments concerning substantially all issues regarding administration of the trust, and (ii) one or more US Persons have the authority to control all substantial decisions of the trust, or an estate of a decedent that is a citizen or resident of the United States. This definition shall be interpreted in accordance with the United States Internal Revenue Code. Please note that persons who have lost their United States citizenship and who live outside the United States may nonetheless in some circumstances be treated as US Persons.

Common Reporting Standard and Automatic Exchange of Information

The Common Reporting Standard ("**CRS**") is an internationally agreed standard for the automatic exchange of financial account information between jurisdictions for tax purposes, to better combat tax evasion and ensure tax compliance. CRS has been implemented in Malaysia via the Income Tax Act 1967, read together with the Income Tax (Automatic Exchange of Financial Account Information) Rules 2016 (collectively the "**CRS Regulations**"). Malaysia has been exchanging financial account information with jurisdictions where Malaysia has a competent authority agreement (also known as "partner jurisdictions") since 2018.

The CRS Regulations require a Malaysian financial institution that is a Reporting Financial Institution (as defined in the CRS Regulations, and referred to in this paragraph as an "**MYFI**") to identify and determine the tax residences of all its account-holders, and in some cases, the controlling persons of an account holder. The MYFI is required to report to the Inland Revenue Board of Malaysia ("**IRBM**") on an annual basis, the particulars and account information of its account holders, and where applicable the particulars of the controlling persons, that are tax residents of partner jurisdictions. The IRBM will in turn transmit the financial account information of such account holders and controlling persons to the respective tax authorities of the partner jurisdictions in which such persons are tax resident pursuant to the terms of the applicable competent authority agreement.

Accordingly, the Managers and/or the Trustee will require each investor to provide, amongst other things, information in relation to each investor's identity and tax residence(s) of each investor's account(s) (and the controlling persons, if any), including tax identification numbers, FATCA and CRS classification status and any additional documentation or

information. Where applicable, the information provided, and the financial account information of each investor's account, will be reported to the IRBM and transmitted to the other relevant tax authorities for purposes of complying with FATCA, the CRS Regulations and any similar automatic exchange of tax information regimes.

Each investor should consult their professional advisers on the possible tax and other consequences with respect to the implementation of FATCA and CRS.

4. RISK FACTORS

4.1 GENERAL RISKS

The general risks of investing in the Fund are as follows:

- (a) while the Managers believe that the Fund offers potential for capital appreciation, no assurance can be given that this objective will be achieved. Prospective investors should read this Prospectus and discuss all risks with their financial and legal advisers before making an investment decision; and
- (b) prospective investors should be aware that the price of Units can go down as well as up and that past performance of the Fund is not necessarily a guide to the future performance of the Fund. Investors may not get back their original investment. Investment in the Fund is designed to produce returns over the long term and is not suitable for short term speculation.

4.2 SPECIFIC RISKS

The risks specific to investing in the Fund are as follows:

(a) Market Risk

The price of the securities comprised in the portfolio of the Fund and its Units, and the income from them, may be influenced by political and economic conditions, changes in interest rates, the earnings of the corporations whose securities are comprised in the portfolio, and the market’s perception of the securities.

(b) Foreign Currency Risk

The Managers do not actively hedge the foreign currency exposure of investments of the Fund and therefore, the Fund may be exposed to exchange rate risks. As investments of the Fund may be denominated in foreign

currencies, fluctuations of the exchange rates of foreign currencies against the base currency of the Fund may have an impact on the income of the Fund and affect the value of the Units.

Any changes in the exchange rate between the base currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the base currency. In order to mitigate this risk, in the case of any non-S\$ investments, the Managers may diversify the investments across different currencies.

Classes may be denominated in currencies other than the base currency of the Fund and changes in the exchange rate between the base currency and the denominated currency of the Class may lead to a depreciation of the value of the investor's holding expressed in the base currency as compared with the investment made in the denominated currency.

(c) Liquidity Risk

The extent of market liquidity is dependent on the size and state of the markets and therefore affects the Fund's ability to acquire or dispose of assets at the price and time they so desire. Securities listed on the smaller emerging markets are generally less liquid in comparison to those listed on more developed markets and may therefore affect the relevant Fund's ability to acquire or dispose of securities at the price and time desired. There may also be state regulations governing the outward remittance by foreign investors of their share of net profits and dividends and the repatriation of their investments in a foreign currency.

In addition, the Fund is not listed on any stock exchange and there is no ready secondary market for the Units in the Fund. Holders can only redeem their Units by completing a realisation request and forwarding the same to the Managers through their registered distributors. If there is a surge in realisations at any particular time, the Managers may impose a gate on realisations. If that happens, realisation of Units and/or the payment of realisation proceeds may be delayed. In addition, Holders may not realise their Units during any period when realisation is suspended.

(d) Emerging Market Risk

Investments in emerging markets securities are generally more volatile than those of developed countries, with the result that the Units may be subject to greater price volatility.

Some emerging markets do not have well-developed or consolidated bodies of securities laws and regulatory frameworks. There may be less public information on companies listed on such markets as compared to other stock markets. The auditing and financial reporting methods used in some emerging markets may differ from internationally recognised standards, and information on the accounts of some companies listed on such markets may not be an accurate reflection of their financial strength.

Investors would also have to take into account that trading volume in emerging markets may be substantially less than in the world's leading stock markets and may have to be conducted at unfavourable prices. Securities of companies domiciled in emerging markets are less liquid and more volatile than those domiciled in more developed stock markets and this may result in fluctuations in the price of the Units. Emerging markets may not have fully developed custodian and settlement services and therefore investments in such markets are subject to a greater degree of risk.

There may also be state regulations governing the outward remittance by foreign investors of their share of net profits and dividends and the repatriation of their investments in a foreign currency.

(e) Equity Risk

The Fund may invest in stocks and other equity securities, which are subject to market risks and are in general more volatile than investment-grade fixed income securities. Units in the Fund investing in equities may therefore be subject to greater price volatility.

(f) Country Specific Risk

The Fund may invest in securities of a limited number of countries. Where the Fund invests in a few, select countries, it will be exposed to fluctuations in the economies of these countries, and the market, currency, political, social environment and other risks related specifically to these countries, which may affect the market price of its investments in these countries. Exposure to a limited number of countries also increases the potential volatility of the Fund due to the increased concentration risk as they are less diversified compared to exposure to specific regional or global markets.

(g) Interest Rate Risk and Credit Risk

Investments in debt securities are subject to interest rate fluctuations and credit risks, such as risk of default by the issuer, and are subject to adverse changes in general economic conditions, the financial condition of the issuer, or both, or an unanticipated rise in interest rates, which may impair the issuer's ability to make payments of interest and principal, resulting in a possible default by the issuer.

(h) Income Distribution

Investors should note that income of the Fund (if any) may be distributed to Holders at the absolute discretion of the Managers. Sources of income for distribution may include dividends and/or interest income and/or capital gains derived from the investments of the Fund. Such dividends and/or interest income may be adversely affected by events such as but not limited to companies suffering unexpected losses, having lower than expected dividends and adverse exchange rate fluctuations. In addition to distributions to Holders out of

distributable income and/or capital gains, the Managers may at their discretion, with the consent of the Trustee, make capital distributions to Holders at such time as they deem fit in accordance with the provisions of the Deed. The Fund may make distribution out of capital if there is insufficient realised gains or realised income. The Managers will decide whether a distribution is to be made based on various factors, including dividend and/or interest income and/or capital gains derived from the underlying investments of the Fund. In the event that income and dividends generated from the underlying investments of the Fund are insufficient to fund a distribution for the Fund, the Managers may in their discretion, with the consent of the Trustee, determine that such distributions should be paid from the capital of the Fund. Where distributions are paid out of capital of the Fund or Class, the NAV of the Fund or Class will be reduced and this will be reflected in the Realisation Price of the Units of the Fund or Class. Holders redeeming their Units may therefore receive an amount less than their initial investment. Such distributions may also result in reduced future returns to Holders.

Where distribution is made out of capital, capital will be eroded, the distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital is depleted.

(i) Risk Associated with the Investment Strategy of the Fund

The ability of the Managers to make any distribution payout is largely dependent on the successful execution of the investment strategy of the Fund. The distributions are particularly sensitive to the dividend yield and capital gains/losses from the Fund's investments in equities.

(j) Usage of Financial Derivative Instruments

While the prudent and judicious use of derivatives by investment professionals can be beneficial, derivatives involve risks different from, and in some cases, greater than, the risks presented by more traditional investments. Some of the risks associated with derivatives are market risk, management risk, credit risk, liquidity risk, moratorium risk, capital control risk, tax risk and leverage risk. The Managers have the necessary expertise and controls for investments in derivatives and have in place systems to monitor the derivative positions for the Fund, if any.

The viability of exercising derivative instruments depends on the market price of the investments to which they relate, and accordingly, the Managers may from time to time decide that it is not viable to exercise certain derivatives held by the Fund within the prescribed period, in which case, any costs incurred in obtaining the derivatives will not be recoverable. Additionally, the market price of the relevant investment may not exceed the exercise price attached to the derivative instrument at any time during the exercise period or at the time at which the warrants or options are exercised and in such an event, this may result in an immediate loss to the Fund.

The above should not be considered to be an exhaustive list of the risks which potential investors should consider before investing in the Fund. Potential investors should be aware that an investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

5. FUND DETAILS

5.1 INVESTMENT OBJECTIVE

The investment objective of the Fund is to achieve medium to long term capital appreciation for the investors.

Any material change to the Fund's investment objective requires Holders' approval.

5.2 INVESTMENT POLICY

The Fund will invest primarily in equities listed on the Singapore Exchange Securities Trading Limited that offer attractive and sustainable dividend payments. In addition, the Fund may also invest in equities listed outside of Singapore offering attractive and sustainable dividend payments. The Fund will invest more than 55% of its assets in shares of corporations (the effect of which would be that investments by the Fund in other equities such as real estate investment trusts, business trusts, exchange traded funds and collective investment schemes which are in the nature of equities would be limited by having to meet the more than 55% requirement). The Fund is only suitable for investors who seek medium to long-term capital appreciation by investing primarily in equity securities listed in Singapore and who are willing and able to accept that their principal will be at risk and that the value of their investment and any derived income may fall as well as rise.

The Managers manage the portfolio by selecting Singapore listed equities which offer attractive and sustainable dividend payments with the potential for long term capital appreciation. The Managers may also invest in non-Straits Times Index component stocks as well as stocks listed outside of Singapore with these characteristics. All the stocks are selected on the basis of a mixture of top-down and bottom-up analysis.

Usage of financial derivative instruments

The Managers may in their absolute discretion, invest in financial derivative instruments including, but not limited to, options on securities, forward contracts, over-the counter options, interest rate swaps and swaptions, index futures and options, futures or options of any kind of financial instrument or structured notes such as credit-linked notes, equity-linked notes and index-linked notes for the purposes of hedging and/or efficient portfolio management. The Managers may make use of financial derivatives as allowed in the Code, MAS Notice, SFR(CMP) and in Part II of the Standards of Qualifying CIS. The Managers may invest in financial derivative instruments for the purposes

of hedging existing positions in a portfolio, where there is a strong correlation to the underlying investments or tactical asset allocation or efficient portfolio management. Financial derivative instruments shall not be used to gear the overall portfolio.

Where financial derivative instruments are used, the global exposure of the Fund to financial derivatives or embedded financial derivatives will not exceed 20% of the net asset value of the Fund at all times. Such exposure would be calculated using the Commitment Approach as described in Appendix 1 – Investment: Core Requirements of the Code and in the Appendix to the Standards of Qualifying CIS.

The Managers will ensure that the risk management and compliance procedures and controls adopted are adequate and have been or will be implemented and that they have the necessary expertise to control and manage the risks relating to the use of financial derivatives.

5.3 INVESTMENT STRATEGY

The Managers believe that an active management of the portfolio is the best way to achieve long-term capital growth. Asian markets are inefficient and individual stocks can go through periods of mis-pricing, and a robust investment process is able to take advantage of these inefficiencies. By monitoring trends and price actions, the Managers remain alert to opportunities that are not easily identifiable through screening techniques alone. Through open forum and constant dialogue between portfolio managers and analysts, knowledge and market intelligence are shared, hence enabling the Managers to develop a greater understanding of future opportunities and risks. In addition, idea generation also comes through country and company visits, general reading, independent research and sell-side research (i.e. research provided by the Managers' or third party brokers).

The portfolio allocation of the Fund is driven primarily by bottom-up fundamental analysis of stocks. The portfolio strategy that is adopted for the Fund focuses on higher dividend paying sectors where cash flows are also more resilient, and selected lower dividend yielding stocks with prospects of growing its dividends to achieve an element of capital growth in addition to dividend yield on a total return basis. Stock selection also continues to focus on stocks with sustainable dividend payouts, resilient business models and proven management. In addition, the Fund continues to be able to selectively invest outside of Singapore, in stocks which meet stringent criteria. The Managers apply the same stringent criteria when investing in stocks in or outside Singapore. Stock selection is focused on stocks with sustainable dividend payouts, resilient business models and proven management, based on the bottom-up fundamental analysis of the stocks. If the Managers identify such an opportunity overseas, then the Fund may invest in such stock.

On a portfolio level, the Managers believe that by sticking to a bottom-up selection criteria, the Fund would be buying companies that have resilient businesses and stronger balance sheets to withstand volatility. This will ultimately protect the downside over the medium term. In the very short term, the portfolio's NAV would be subjected to market volatility. The Managers seek to minimise such volatility by using risk analytical tools to monitor portfolio volatility and in seeking a better understanding through decomposing the sources of such volatility.

Although the Fund is actively managed, how active its trading will be or the frequency of its trading will depend on market opportunities. The Managers frequency of trading is a function of idea generation and the Managers' investment process. There is no strict policy on the frequency of trading of securities, and the Managers do not restrict the portfolio with such policy. However, the Managers' active trading turnover, as with most of its strategies, ranges between 50% and 100%.

5.4 DISTRIBUTION POLICY

The Managers have the absolute discretion to determine whether a distribution should be made in respect of the Fund. Any such distribution will be made in accordance with the relevant provisions of the Deed.

The Managers will decide whether a distribution is to be made based on various factors, including dividend and/or interest income and/or capital gains derived from the underlying investments of the Fund. In the event that income and dividends generated from the underlying investments of the Fund are insufficient to fund a distribution for the Fund, the Managers may in their discretion, with the consent of the Trustee, determine that such distributions should be paid from the capital of the Fund. Income distributions for Units offered in Malaysia will be made in the form of reinvestment in the purchase of additional Units in the Fund or cash. The currency of payment and currency of receipt of the cash, if applicable, will depend on regulatory and other requirements. The form of distribution in Malaysia will be determined by the Managers in their absolute discretion.

Currently, in respect of the RM Class Units, the SGD Class Units and the USD Class Units of the Fund, the Managers intend to make monthly distributions of between 5% to 7% per annum of the NAV per Unit. Investors should note that the intention of the Managers to make monthly distributions is not guaranteed and that the Managers may review the distribution policy of each of the RM Class, the SGD Class and the USD Class of the Fund in future depending on prevailing market conditions.

In respect of the RM (Acc) Class Units, the SGD (Acc) Class Units and the USD (Acc) Class Units, no distributions will be made for these Classes.

5.5 PERFORMANCE BENCHMARK

Prior to 1 November 2017, the benchmark used by the Managers in measuring the performance of the Fund was the Straits Times Index. With effect from 1 November 2017, the benchmark of the Fund has been removed and there is no longer any benchmark for this Fund. This is because pursuant to the investment objective of this Fund,

this Fund is managed on a total return basis and as such, it does not seek to outperform any benchmark. Investors and Holders may, in the absence of a performance benchmark, choose to refer to the Straits Times Index, considering the Fund's investment strategy of investing primarily in equity securities listed in Singapore and the Straits Times Index being an index based on the top 30 companies listed on the Singapore stock exchange. Information on the Straits Times Index is publicly available at <https://www.sgx.com>.

Until 30 June 2001, the DBS 50 Index was used as the benchmark of the Fund instead of the Straits Times Index and the switch was made due to the discontinuation of the DBS 50 Index.

- (h) The aggregate limit of 15% in paragraph (g) does not apply to deposits, debt securities or money market instruments or OTC financial derivatives where the deposit-taking institution, issuing body or counterparty is rated investment grade only with a national rating scale and the jurisdiction in which the issuing body or counterparty is domiciled has a sovereign credit rating that is at least investment grade;

The following is an illustration on the number of Units that an investor will receive in the SGD Class and SGD (Acc) Class of the Fund based on an investment amount of S\$1,000 and a notional Issue Price of S\$1.00 (the actual Issue Price of the Units will fluctuate according to the Value of Deposited Property of the Fund and may be affected by Swing Pricing as described in Section 8.16):

S\$1,000	-	S\$50	=	S\$950	÷	S\$1.00	=	950 Units
Gross Investment Sum		Initial Sales Charge (5%)		Net Investment Sum		Issue Price (i.e. NAV per Unit of the Class)		Number of Units

The following is an illustration on the number of Units that an investor will receive in the USD Class and USD (Acc) Class of the Fund based on an investment amount of US\$1,000 and a notional Issue Price of US\$1.00 (the actual Issue Price of the Units will fluctuate according to the Value of Deposited Property of the Fund and the Applicable Exchange Rate and may be affected by Swing Pricing as described in Section 8.16):

The net realisation proceeds are calculated by multiplying the number of Units of the Fund to be realised by the Realisation Price of the Units of such Fund. The Realisation Price is calculated based on forward pricing and is determined based on the Value of the Units of the Fund at 7 a.m. Singapore time on the Singapore Business Day immediately following the relevant Dealing Day on which the realisation request is received. If an application is received and accepted by the Managers through their registered distributor(s) by the Dealing Deadline on the Dealing Day, the price will be based on the Value of the Fund for that Dealing Day. If an application is received and accepted by the Managers through their registered distributor(s) after the Dealing Deadline on that Dealing Day, it shall be deemed to be received and accepted by the Managers through their registered distributor(s) only on the immediately following Dealing Day. This Realisation Price will be determined only on the Singapore Business Day following the Dealing Day.

The following is an illustration on the realisation proceeds that an investor in the RM Class and RM (Acc) Class of the Fund will receive based on the realisation of 1,000 Units and a notional Realisation Price of RM0.60 (the actual Realisation Price of the Units will fluctuate according to the Value of the Deposited Property of the Fund and the Applicable Exchange Rate and may be affected by Swing Pricing as described in Section 8.16).

1000	x	RM0.60	=	RM600
Units to be Realised		Realisation Price (i.e. NAV per Unit of the Class at Applicable Exchange Rate)		Realisation Proceeds

The minimum realisation amount for the RM Class and RM (Acc) Class of the Fund is 1,000 Units.

The following is an illustration on the realisation proceeds that an investor in the SGD Class and SGD (Acc) Class of the Fund will receive based on the realisation of 1,000 Units and a notional Realisation Price of S\$1.05 (the actual Realisation Price of the Units will fluctuate according to the Value of the Deposited Property of the Fund and may be affected by Swing Pricing as described in Section 8.16).

1000	x	S\$1.05	=	S\$1,050
Units to be Realised		Realisation Price (i.e. NAV per Unit of the Class)		Realisation Proceeds

There is no minimum realisation amount for the SGD Class and SGD (Acc) Class of the Fund.

The following is an illustration on the realisation proceeds that an investor in the USD Class and USD (Acc) Class of the Fund will receive based on the realisation of 1,000 Units and a notional Realisation Price of US\$1.05 (the actual Realisation Price of the Units will fluctuate according to the Value of the Deposited Property of the Fund and the Applicable Exchange Rate and may be affected by Swing Pricing as described in Section 8.16).

1000	x	US\$1.05	=	US\$1,050
Units to be Realised		Realisation Price (i.e. NAV per Unit of the Class)		Realisation Proceeds

There is no minimum realisation amount for the USD Class and USD (Acc) Class of the Fund.

8.5 PAYMENT OF REALISATION PROCEEDS

Payment will be made within 7 Singapore Business Days after the relevant Dealing Day on which the realisation request is received subject to the provisions of the Deed.

8.6 COOLING-OFF

A New Investor will have the right to cancel his subscription of Units within 7 calendar days of the date on which he signed the subscription agreement or such other longer period as may be agreed between the Managers and the Trustee or as the MAS may prescribe (the "**Cancellation Period**") by sending a cancellation request to the Managers through the registered distributor(s) from whom he purchased his Units by post or by hand. A cancellation request form is included with the application form for the subscription of Units, or may be obtained from the registered distributors. Where the last day of the Cancellation Period falls on a Sunday or a Singapore public holiday, the Cancellation Period is deemed to be extended to the next calendar day, not being a Sunday or Singapore public holiday.

Other than for RM (Acc) Class Units, SGD (Acc) Class Units and USD (Acc) Class Units during the initial offer period as mentioned above, a cancellation request (to cancel subscriptions for Units) received by the Managers through their registered distributors on or before 5.00 p.m Singapore time on a Dealing Day will be deemed to have been received on that Dealing Day. A cancellation request received by the Managers through their registered distributors after 5.00 p.m. Singapore time on a Dealing Day, or on a day which is not a Dealing Day, will be deemed to have been received on the next Dealing Day.

The Managers will pay the proceeds arising from the cancellation of a subscription of Units under this paragraph 8.6 within 7 Singapore Business Days unless the determination of the amount of such proceeds has been suspended in accordance with the provisions of the Deed. In such event, the payment of cancellation proceeds will be deferred until after the end of the suspension.

The cancellation proceeds payable for the cancellation of a subscription for Units will be determined as the lower of:

- (a) the Market Value; or
- (b) the Original Subscription Amount,

or calculated according to such other method of calculation as the MAS may prescribe pursuant to the Notice on Cancellation Period.

Any excess in the Market Value over the Original Subscription Amount, or in the Original Subscription Amount over the Market Value (as the case may be), will be retained by the Fund. The Managers are also entitled to deduct from the cancellation proceeds any expenses incurred in cancelling the subscription so long as such expenses are reasonably related to the original purchase and subsequent cancellation of the New Investor's Units or such other reductions as the MAS may prescribe or permit pursuant to the Notice on Cancellation Period. A New Investor is only entitled to receive his cancellation proceeds arising from the cancellation of his subscription of Units in the same currency as that in which such Units are denominated. Any Initial Sales Charge paid by the investor will be refunded to him. However, he will have to take the risk for any price changes in the net asset value of the Fund or the relevant Class since he purchased the Units.

In the case where a New Investor has more than one subscription and chooses to cancel one or more (but not all) of his subscriptions which he has a right to cancel, the cancellation of the New Investor's subscription or subscriptions must not result in the New Investor holding fewer Units than the Minimum Holding.

Any distributions declared during the Cancellation Period but not paid to the New Investor who has cancelled his subscription for Units will be paid to the New Investor in accordance with the provisions of the Deed.

During the Cancellation Period, a New Investor may choose to realise his Units instead of exercising his right to cancel his subscription of Units, in which case the procedures for realisation of Units stated in this Prospectus will apply. Investors should further note that:

- (a) a New Investor will not be able to enjoy the benefits of a cancellation under this paragraph 8.6 in the event that he chooses to realise his Units (i.e. no refund of the Initial Sales Charge will be given for the realisation and levy of Realisation Charge is allowed) and the realisation proceeds may be lower than the cancellation proceeds if the appreciation in the value of the Units is less than the Initial Sales Charge; and
- (b) the published price of the Units are indicative in nature and can change during the period between the submission and processing of the realisation request.

8.7 TRANSFER OF UNITS

Under the Deed, transfer of Units offered in Malaysia are permitted with the prior written consent of the Managers provided that no transfer of part of a holding of Units shall be registered without the approval of the Managers and the Trustee if in consequence of the transfer, either the transferor or the transferee would be the Holder of less than the Minimum Holding. A fee may be charged by the Managers for the registration of a transfer.

8.8 CONVERSION OF UNITS

Conversion of Units offered in Malaysia to units in other Sub-Funds, is not permitted.

8.9 SUSPENSION OF DEALINGS

Subject to the provisions of the Code and the Standards of Qualifying CIS, the Managers may suspend the cancellation of subscription for, issue and/or realisation of Units of the Fund or any Class of the Fund when:

- (a) dealings in a material portion of the assets of the Fund are restricted or suspended, provided that the Trustee is consulted;
- (b) it is not in the best interests of the Holders of the Fund to liquidate a material portion of the assets of the Fund, provided that the Trustee's approval is obtained;
- (c) the market value or fair value of a material portion of the assets of the Fund cannot be determined, provided that the Trustee's approval is obtained;
- (d) instructed by the MAS in the interest of protecting the rights of Holders of the Fund; or
- (e) such circumstances as may be required under the provisions of the Code and the Standards of Qualifying CIS.

The Managers may, with the approval of the Trustee, limit the total number of Units of the Fund or Class which Holders may realise and which the Managers are entitled to have cancelled pursuant to Clause 11 of the Deed on any Dealing Day to ten per cent. (10%) of the total number of Units of the Fund or Class then in issue (disregarding any Units in such Fund or Class which have been agreed to be issued), such limitation to be applied pro rata to all Holders of the Fund or Class who have validly requested realisations on such Dealing Day including the Managers where applicable, so that the proportion so requested to be realised or cancelled pursuant to Clause 11 of the Deed is the same for all Holders and the Managers. Any Units which, by virtue of the powers conferred on the Managers by Clause 12(l) of the Deed, are not realised or cancelled (as the case may be) shall be realised or cancelled (subject to any further application of Clause 12(l)) on the next succeeding Dealing Day Provided That if on such next succeeding Dealing Day, the total number of Units of the Fund or Class to be cancelled or realised (as the case may be), including those carried forward from any earlier Dealing Day, exceeds such limit, the Managers may further carry forward the requests for realisation or cancellation (as the case may be) until such time as the total number of Units of the Fund or Class to be realised or cancelled (as the case may be) on a Dealing Day falls within such limit. If realisation requests are carried forward as aforesaid, the Managers shall, within seven (7) days, give notice to the Holders affected thereby that such Units in the Fund or Class have not been realised or cancelled and that (subject as aforesaid) they shall be realised or cancelled on the next succeeding Dealing Day.

If, immediately after any Singapore Business Day, the number of Units of the Fund or Class in issue including those agreed to be issued by the Managers, having regard to realisations and issues of the Fund or Class falling to be made by reference to that Singapore Business Day, would be less than such proportion (not exceeding ninety per cent. (90%)), as may be determined by the Managers from time to time, of the number of Units of the Fund or Class in issue including those agreed to be issued by the Managers on that Business Day, the Managers may, with a view to protecting the interests of all Holders of the Fund or Class and with the approval of the Trustee, elect that the Realisation Price in relation to all (but not some only) of the Units of the Fund or Class falling to be realised by reference to that Singapore Business Day shall, instead of being the price calculated as hereinbefore mentioned, be the price per Unit of the Fund or Class which, in the opinion of the Managers, reflects a fairer value for the Deposited Property attributable to the Fund or Class having taken into account the necessity of selling a material proportion of the Investments at that time constituting part of the Deposited Property attributable to the Fund or Class; and the Managers may by giving notice to the Holders of Units of the Fund or Class affected thereby within two (2) Singapore Business Days after the relevant day, suspend the realisation of those Units for such reasonable period as may be necessary to effect an orderly realisation of the Authorised Investments (provided that such suspension is subject to the provisions of the Code and the Standards of Qualifying CIS). For the purposes of this paragraph, the "fairer value" for the Deposited Property shall be determined by the Managers in consultation with a Stockbroker (as defined in the Deed) or an approved valuer and with the approval by the Trustee. The "material proportion" of the Authorised Investments means such proportion of the Authorised Investments which when sold will cause the reduction of the net asset value of the Deposited Property attributable to the Fund or Class.

8.10 MINIMUM FUND SIZE

Under the provisions of the Deed, the Managers may terminate Nikko AM Shenton Horizon Investment Funds in their absolute discretion by notice in writing if the aggregate Value of the Deposited Property of the Nikko AM Shenton Horizon Investment Funds is less than S\$30,000,000.

8.11 REGULAR SAVINGS PLAN

Holders who maintain a current or savings account with any branch of the bank which provides MEPS facility may place a standing instruction to invest on a monthly, quarterly, half yearly or yearly basis in the Fund. Holders wishing to participate in this plan can do so by investing from as little as RM100 (one hundred) regularly. Investors or existing

Holders who are interested to subscribe to the regular saving plan can consult the Managers' registered distributor(s) for more information and to obtain the regular saving plan application form from any of the registered distributors branches listed under Section 20 of this Prospectus.

8.12 WHERE TO PURCHASE AND REDEEM UNITS

Holders may make a purchase or realisation request to the Managers through the registered distributor(s) on any Singapore Business Day (also being a Malaysia Business Day) from Mondays to Fridays between 9.00 a.m. to 3.30 p.m. at any of the locations set out in Section 20 of this Prospectus.

8.13 UNCLAIMED MONEYS

Any moneys payable to you which remains unclaimed after twelve (12) months from the date of payment shall be paid to a special account of the Fund ("**Unclaimed Moneys Account**") and, subject to provisions of the Deed, the Trustee shall cause such sums which represent moneys remaining in the Unclaimed Moneys Account for five years after the date for payment of such moneys into the Unclaimed Moneys Account and interest, if any, earned thereon to be paid into Court after deducting all fees, costs and expenses incurred in relation to such payment into Court from such sum thereof provided that if the said moneys is insufficient to meet all such fees, costs and expenses, the Trustee shall be entitled to have recourse to the Fund Property.

8.14 ANTI-MONEY LAUNDERING POLICIES AND PROCEDURES

Pursuant to the Anti-Money Laundering and Anti-Terrorism Financing Act 2001, it is the responsibility of the Managers to prevent the use of the Fund for money laundering and terrorism financing activities. To this end, the Managers have put in place anti-money laundering policies and procedures to combat such activities. Among others, prior to the Managers establishing or conducting business relations, particularly when opening new accounts for clients and entering into a fiduciary transaction with a client, the Managers will conduct "Know Your Customer" procedures to identify and verify the client through documents such as identity card, passport, birth certificate, driver's licence, constituent documents or any other official documents, whether in the possession of a third party or otherwise. Such documents shall be filed and retained by the Managers in accordance with relevant laws.

The Managers will thereafter perform a Customer Due Diligence (CDD) to identify the risk profile of each customer and will continuously monitor each customer risk profile should there be any changes. Enhanced Customer Due Diligence (EDD) is performed on customers deemed as high risk and senior management's approval is required before a business relationship or account is opened with such customers.

Where the Managers suspect that a particular transaction may not be genuine, a suspicious transactions form shall be completed and the matter will be discussed with senior management. If senior management ascertains there is a reasonable ground to suspect the transaction to be a money laundering or terrorism financing activity, a Suspicious Transaction Report will then be submitted to the Financial Intelligence and Enforcement Department of Bank Negara Malaysia.

8.15 COMPULSORY REALISATION OF UNITS

The Managers have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in the Fund held by:

- (a) any Holder:
 - (i) whose subscription for or holding of Units in the Fund, in the opinion of the Managers, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (ii) where such realisation is, in the opinion of the Managers, necessary or desirable for the compliance by the Managers or the Fund with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings of Units in the Fund, in the opinion of the Managers:
 - (i) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or

- (d) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where any information and/or documentary evidence requested by the Managers and/or the Trustee for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (e) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Managers and/or the Trustee pursuant to any laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA (as defined in the Important Information section of this Prospectus))

and/or any Singapore laws, regulations, guidelines and directives implemented as part of any inter-governmental agreement entered into between the United States and Singapore in connection with the FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or

- (f) any Holder who does not consent, or withdraws his consent, for the Managers or the Trustee to collect, use and/or disclose information or data relating to the Holder, where such information or data is necessary for, or reasonably required by, the Managers, the Trustee, their respective related corporations and/or other service providers to perform their respective services and/or duties to or in respect of (i) the Fund and/or (ii) the Holder in relation to his holdings of Units in the Fund.

If the Managers and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units in the Fund held by a Holder, the Managers (in consultation with the Trustee) shall be entitled to compulsorily realise such number of Units in the Fund held by that Holder as may be necessary to discharge the liability arising. The Managers and/or the Trustee (as the case may be) shall be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

Any compulsory realisation under this Section 8.15 may be carried out by the Managers on any Dealing Day after giving prior written notice to the relevant Holder, and shall be carried out in accordance with, and at the Realisation Price determined under, the relevant provisions of the Deed.

The Managers, the Trustee and their respective delegates, agents or Associates (as defined in the Deed) shall not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by the Managers, the Trustee and/or any of their respective delegates, agents or Associates under this Section 8.15.

8.16 SWING PRICING

The Fund is single priced and the NAV of the Fund may fall as a result of, amongst others, the transaction costs (such as broker commissions, custody transaction costs, stamp duties or sales taxes) incurred in the purchase and/or sale of its Authorised Investments (as defined in the Deed) caused by subscriptions, realisations, switches and/or exchanges of Units in the Fund and the spread between the buying and selling prices of such Authorised Investments. This effect is known as “dilution”.

With effect from 1 December 2021, to protect the interest of Holders, the Managers shall, in consultation with the Trustee, have the discretion to apply a technique known as “dilution adjustment” or “swing pricing” (“**Swing Pricing**”) in certain circumstances which the Managers deem appropriate. Swing Pricing involves making upwards or downwards adjustments in the calculation of the NAV per Unit of the Fund or Class on a particular Dealing Day so that such transaction costs and dealing spreads in respect of the Authorised Investments are, as far as practicable, passed on to the investors who are subscribing, realising, switching and/or exchanging Units on that Dealing Day.

Typically, the NAV is adjusted if the net subscription or realisation (including switches and/or exchanges) on a particular Dealing Day reaches or exceeds a certain percentage (the “**Swing Threshold**”) of the size of the Fund as of such relevant Dealing Day. The NAV will swing upwards for a net subscription and downwards for a net realisation. In relation to the application of Swing Pricing to Classes of Units in the Fund, the NAV of each Class will be calculated separately but any adjustment will, in percentage terms, affect the NAV of each Class in an equal manner.

The need to apply Swing Pricing will depend upon various factors, including but not limited to (i) the amount of subscriptions and/or realisations (including switches and/or exchanges) of Units on that Dealing Day, (ii) the impact of any transaction costs incurred in the purchase and/or sale of Authorised Investments of the Fund, (iii) the spread between the buying and selling prices of Authorised Investments of the Fund and (iv) market conditions such as situations of financial turmoil provided that, any adjustments made by the Managers shall be (i) on a fair and equitable basis and with a view to protecting the interests of Holders and (ii) beneficial to the interests of Holders.

Please note that applying Swing Pricing when the Swing Threshold is reached or exceeded, only reduces the effect of dilution and does not eliminate it entirely. Where the net subscription or realisation is below the Swing Threshold, no Swing Pricing will be applied and dilution will not be reduced.

The swing pricing policy for the Fund will be subject to regular review and may change from time to time. Accordingly, investors should note that the decision to apply Swing Pricing and the level of adjustment made to the NAV per Unit of the Fund in particular circumstances may not result in the same decision in similar circumstances arising in the future.

Holders and potential investors into the Fund should also take note of the following:

- (a) the Fund’s performance will be calculated based on the NAV of the Fund after the Swing Pricing adjustment has been applied and therefore the returns of the Fund may be influenced by the level of subscription and/or realisation activity;
- (b) Swing Pricing could increase the variability of the returns of the Fund since the returns are calculated based on the adjusted NAV per Unit; and
- (c) the fees and charges applicable to the Fund (including fees based on the NAV of the Fund) will be based on the NAV before the Swing Pricing adjustment is applied.

In the usual course of business, to minimise the impact to the variability of the return of the Fund, the application of Swing Pricing will be triggered mechanically and on a consistent basis and applied only when the net transaction reaches or exceeds the Swing Threshold.

The Swing Threshold will be set with the objective of protecting the Holders' interest while minimising impact to the variability of the Fund's return by ensuring that the NAV per Unit is not adjusted where the dilution impact on the Fund is, in the opinion of the Managers, not significant, and may be varied by the Managers in their discretion.

The amount of adjustment at any future point in time may vary depending on inter alia market conditions, but will under normal circumstances not exceed 2% of the NAV per Unit of the Fund on the relevant Dealing Day (the "**Maximum Adjustment**"). The Managers reserve the right to apply an adjustment of an amount not exceeding the Maximum Adjustment on the relevant Dealing Day where they deem appropriate and have the discretion to vary the amount of adjustment up to the Maximum Adjustment, in consultation with the Trustee, from time to time without giving notice to the relevant Holders.

Subject to the Deed and the applicable laws and regulations, the Managers may, in exceptional circumstances (including but not limited to volatile market conditions, market turmoil and illiquidity in the market, extraordinary market circumstances or significant unexpected changes in general market conditions) and in consultation with the Trustee temporarily apply an adjustment beyond the Maximum Adjustment on the relevant Dealing Day if, in their opinion, it is in the best interest of investors to do so. In such cases, if so required by the MAS and/or the Trustee, the Managers shall give notice to the relevant investors as soon as practicable in such manner as the Managers and Trustee may agree.

Investors should read and understand the contents of this Prospectus, and if necessary, should consult their adviser(s) before making any investment decisions.

Investors are advised not to make payment in cash to any individual agent when purchasing units of the Fund.

Unit prices and distributions payable, if any, may go down as well as up.

The Managers are part of a financial group, and the Managers and their affiliates (together the “Parties”) provide the full suite of financial services to clients, and act simultaneously for a number and range of clients with various interests, requirements and positions.

The Managers may from time to time have to deal with competing or conflicting interests arising from other funds managed by the Managers. For example, the Managers may make a purchase or sale decision on behalf of some or all of the other funds managed by them without making the same decision on behalf of the Fund, as a decision whether or not to make the same investment or sale for the Fund depends on factors such as the cash availability and portfolio balance of the Fund. However, the Managers will use their reasonable endeavours at all times to act fairly and in the interests of the Fund. In particular, after taking into account the availability of cash and the relevant investment guidelines of the other funds managed by the Managers and the Fund, the Managers will endeavour to ensure that securities bought and sold will be allocated proportionally as far as possible among the other funds managed by the Managers and the Fund. The Managers may also transact on the Fund’s behalf with its affiliates. It is the Managers’ intention to deal with any conflicts of interests in a manner consistent with any applicable guidelines which may be issued from time to time by the IMAS.

The Managers are of the view that they are not in a position of conflict in managing their other funds as these funds and the Fund have different investment universes and investment restrictions. To the extent that there are overlapping investment objectives, the Managers will, as far as practicable, endeavour to have the same securities holdings for such overlapping areas with such securities allocated on a pro-rata basis among the funds. The Deed provides that the Trustee and the Managers shall conduct all transactions with or for the Fund on an arm’s length basis. Subject to the relevant investment guidelines of the Fund, the Fund may also invest in other funds managed by the Managers and/or its affiliates. In respect of voting rights where the Managers may face a conflict between their own interest and that of the Holders, the Managers shall cause such voting rights to be exercised in consultation with the Trustee.

The Parties are or may be involved in other financial, investment and professional activities (including but not limited to providing discretionary investment management or investment advisory services to other clients) which may on occasion cause conflicts of interest with the management of the Fund. Notwithstanding the Fund being managed by the Managers and the Parties managing other funds, the Parties will be free, in their absolute discretion, to make recommendations to others, or effect transactions on behalf of themselves or for others which may be the same as or different from those effected for the Fund, and to do so prior to, at the same time as, or after effecting such transactions. The Parties shall not be obliged to purchase, retain or sell for the Fund any security which the Parties may purchase, retain or sell on behalf of themselves or for others, or which the Parties may recommend to others to purchase, retain or sell. Furthermore, the Parties shall be free to purchase, sell, deal in or compete for the same financial instruments as the Fund or to take positions opposite to the positions of the Fund, on behalf of themselves or for others, or to recommend others to take positions opposite to the position of the Fund. Each of the Parties will ensure that the performance of their respective duties will not be impaired by any such involvement. In the event a conflict of interest does arise, the Parties will endeavour to ensure that it is resolved fairly and in the interest of the Holders.

The Managers may own, hold, dispose or otherwise deal with Units as though they were not a party to the Deed. In the event of any conflict of interest arising as a result of such dealing, the Managers, following consultation with the Trustee, will resolve such conflict in a just and equitable manner as they shall deem fit. Such dealings, where entered into, will be on an arm’s length basis.

Any measures taken by the Managers to minimise or deal with conflicts of interest in respect of the Fund will also be subject to the provisions of the Standards of Qualifying CIS.

11.10 POLICY ON DEALING WITH CONFLICTS OF INTEREST

The Managers have in place policies and procedures to deal with any conflict of interest situations. In making an investment transaction for the Fund, the Managers will not make improper use of its position in managing the Fund to gain, directly or indirectly, any advantage or cause detriment to the interests of Holders. Where directors’ interests may conflict with that of the Fund, they are to refrain from participating in the decision-making process relating to the matter. Staff of the Managers are required to seek prior approval before dealing in certain forms of securities. All transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arms-length transaction between independent parties.

11.11 MATERIAL LITIGATION

As at LPD, the Managers are not engaged in any material litigation and arbitration, including those pending or threatened, and are not aware of any facts likely to give rise to any proceedings which might materially affect the business/financial position of the Managers and any of its delegates.

SINGAPORE DIVIDEND EQUITY FUND (A SUB-FUND OF NIKKO AM SHENTON HORIZON INVESTMENTS FUNDS)

TAXATION OF THE FUND AND UNIT-HOLDERS

Dear Sirs,

This letter has been prepared for inclusion in the Malaysia Prospectus (the “Prospectus”) of Singapore Dividend Equity Fund (the “Fund”). The purpose of this letter is to provide prospective unit holders (the “Holders”) with an overview of the impact of taxation on the Fund and the Holders.

Whilst PricewaterhouseCoopers Singapore Pte. Ltd. (“PwC”) understands that this summary will be made available to prospective investors and other parties, no duty of care or contractual relationship is established between PwC and any third party. Accordingly, PwC does not accept any liability to any person who relies on this summary. Prospective investors (particularly those subject to special tax rules such as banks, insurance companies and tax-exempt entities) should consult their own tax advisers regarding the tax consequences of the purchase, ownership and disposal / redemption of units of the Fund (“Units”) in light of their own particular circumstances.

It is emphasised that neither the Trustee nor the Managers or any persons involved in the issuance of the Units accept responsibility for any tax effects or liabilities resulting from the acquisition, holding or disposal / redemption of the Units.

I. Singapore

This summary of certain Singapore tax consequences of the purchase, ownership and disposal / redemption of the Units in the Fund is of a general nature only and is based on the current Singapore Income Tax Act 1947 (“ITA”) and the accompanying regulations¹ thereunder, the circulars issued by the Monetary Authority of Singapore (“MAS”) and practices in effect as at the date hereof and is subject to change at any time. It does not purport to be comprehensive and does not constitute legal or tax advice. PwC has no obligation to update the contents as laws and practices change unless specifically requested to do so. Holders and prospective investors should consult their own tax advisers concerning the tax consequences of their particular situations, including the tax consequences arising under the laws of any other tax jurisdiction, which may be applicable to their particular situations.

This summary is based on the circumstance that the Fund is relying on the Enhanced-Tier Fund Tax Incentive Scheme (“ETF Scheme”) on a standalone basis under section 13U of the ITA. PwC has not assessed if the ETF Scheme is the most appropriate tax concession available for the Fund nor have we assessed if the Fund is able to meet all the conditions under the ETF Scheme. It remains the responsibility of the Managers to (i) conduct the affairs of the Fund such that the Fund will qualify for the ETF Scheme or (ii) inform the Holders accordingly if the Fund cannot qualify for the ETF Scheme for any year of assessment (“YA”).

Taxation of the Fund and Holders in Singapore

The Fund has been awarded the ETF Scheme status by the MAS under section 13U of the ITA with effect from 28 May 2015. The tax exemption status will be for the life of the Fund, provided the Fund continues to meet all conditions and terms set out below. The Fund will have to ensure it:

- (i) is an investment vehicle (can be in any legal form) and will not be carrying out any active business operations other than the investment business (other than a trust that is an approved pension or approved provident fund);
- (ii) has a minimum fund size of S\$50 million at the point of application;
- (iii) is managed or advised directly throughout each basis period relating to any year of assessment by a fund manager in Singapore, where the fund manager:
 - (a) must hold a capital markets services licence for the regulated activity of fund management under the Securities and Futures Act 2001 or is exempt from the requirement to hold such a licence; and

¹ As at the date of this letter, the accompanying regulations refer to the Income Tax (Exemption of Income Arising from Funds Managed in Singapore by Fund Manager) Regulations 2010. References to section 13X in the abovementioned Regulations refer to section 13U of the ITA as the section has been renumbered in the Income Tax Act 1947.

- (b) must employ at least 3 investment professionals²;
- (iv) will incur at least S\$200,000 business spending³ in Singapore in each basis period relating to any year of assessment;
- (v) uses a Singapore-based fund administrator if the Fund is a company incorporated in Singapore, with its tax residency in Singapore where the control and management is exercised in Singapore⁴;
- (vi) will not change its investment objective/strategy after being approved for ETF Scheme⁵;
- (vii) does not concurrently enjoy other tax incentive schemes; and
- (viii) meets such other conditions as specified in the letter of approval issued by the MAS.

All the above conditions, with the exception of paragraph (ii), have to be satisfied throughout the life of the Fund. In the event that the Fund fails to satisfy the specified conditions for any basis period, the Fund will not enjoy the tax exemption on “specified income” derived from “designated investments” for the basis period concerned. The Fund can however enjoy the tax exemption in any subsequent period during the life of the Fund, if the specified conditions are satisfied in that subsequent period.

The Singapore Government will review the ETF Scheme prior to its expiry on 31 December 2024 to assess its relevance and determine whether it will be discontinued, extended and/or refined. Notwithstanding this, the Fund can continue to enjoy the tax exemption after 31 December 2024, subject to it meeting the ETF Scheme’s conditions.

The key aspects relating to the taxation of an ETF Scheme Fund are summarised below.

A. Trust level

Singapore income tax is imposed on income accruing in or derived from Singapore and on foreign-sourced income received or construed to have been received in Singapore, subject to certain exceptions. Currently, the corporate income tax rate in Singapore is 17%.

Under the ETF Scheme, the Fund will be granted tax exemption on the “specified income” derived from any “designated investment”.

“Specified income”⁶ refers to all income and gains derived on or after 19 February 2022 from “designated investments” except for the following:

- a) distributions made by a trustee of a real estate investment trust⁷ that is listed on the Singapore Exchange;
- b) distributions made by a trustee of a trust who is resident of Singapore or a permanent establishment in Singapore, other than a trust that enjoys tax exemption under sections 13D, 13F, 13L or 13U of the ITA;

² “Investment professionals” refer to persons who are earning a basic salary of more than S\$3,500 per month and must be engaging substantially in the qualifying activity. Examples include portfolio managers, research analysts and traders. The individual must also be a Singapore tax resident to be considered a professional.

³ According to accounting principles and includes, but not limited to, the following expenses paid to local entities: remuneration, management fees and other operating costs (excluding financing expenses). Where the first and last basis period of the Fund is not a full financial year, pro-rata of the local business spending will be allowed.

⁴ Meetings of board of directors of the fund company must be held in Singapore.

⁵ The Fund may request a change in investment objective/strategy provided it is for bona fide commercial purposes and the change is approved by the MAS before the effective date for the change in strategy.

⁶ The “specified income” from “designated investments” list has been updated based on the circular entitled “Tax Incentive Schemes for Funds (FAQs and Update to Designated investment)” (Circular Number: FDD Cir 05/2022) issued by the MAS on 19 September 2022. Please note that these changes have not been legislated at this juncture.

⁷ As defined in section 43(10) of the ITA, real estate investment trust means a trust constituted as a collective investment scheme authorised under section 286 of the Securities and Futures Act 2001 and listed on the Singapore Exchange, and that invests or proposes to invest in immovable property and immovable property-related assets.

- c) income or gain derived or deemed to be derived from Singapore from a publicly- traded partnership or non-publicly traded partnership, where tax is paid or payable in Singapore on such income of the partnership by deduction or otherwise; and
- d) income or gain derived or deemed to be derived from Singapore from a limited liability company, where tax is paid or payable in Singapore on such income of the limited liability company by deduction or otherwise.

“Designated investments”⁶ in relation to income derived on or after 19 February 2022 includes the following, amongst others:

- (a) stocks and shares of any company, other than a company that is –
 - (i) in the business of trading or holding of Singapore immovable properties (other than the business of property development); and
 - (ii) not listed on a stock exchange in Singapore or elsewhere;
- (b) units in real estate investment trusts and exchange traded funds constituted in the form of trusts and other securities (not already covered in other sub-paragraphs of the designated investments list) but excludes any securities issued by any unlisted company that is in the business of trading or holding of Singapore immovable properties (other than one that is in the business of property development); and
- (c) deposits placed with any financial institution.

Unless otherwise exempt from tax, any income or gains derived by the Fund that do not fall within the above list of “specified income” from “designated investments” will generally be subject to tax at the prevailing corporate tax rate (currently, 17%).

B. Holders’ level – Distributions

Distributions made by the Fund to all Holders out of income derived under the ETF Scheme should not be subject to Singapore withholding tax or further Singapore income tax.

C. Holders’ level – Disposal of Units or dissolution of Fund

There is no capital gains tax in Singapore. Accordingly, any gains derived from a sale of the Units which are in the nature of capital will not be taxable in Singapore. However, any gains derived by any person from the sale of Units from any trade, business, profession or vocation carried on by that person, may be taxable if they are sourced in Singapore, or received in Singapore, as such gains are generally considered to be revenue in nature.

As the tax treatment depends on the particular situation of the Holders, the Holders should consult their own tax advisers with regard to the tax consequences arising from distribution made by the Fund and gains arising from disposal of the Units.

Section 10L and Proposed Global Anti-base Erosion (GloBE) rules

The Income Tax (Amendment) Act 2023 was passed by the Singapore Parliament on 3 October 2023 and published on 30 October 2023. The Act introduces a provision where gains from the sale or disposal of any movable or immovable property situated outside Singapore (collectively ‘foreign assets’) that are received in Singapore by an entity of a relevant group that does not have adequate economic substance in Singapore will be treated as income chargeable to Singapore income tax, subject to certain exceptions. The change will apply only to gains from the sale or disposal of foreign assets that occurs on or after 1 January 2024.

A relevant entity is a member of a multinational group whose assets, liabilities, income, expenses and cash flows are included in consolidated financial statements of the parent entity of the group prepared in accordance with generally accepted accounting standards (GAAP). Entities excluded from the consolidated financial

statements of the parent entity solely on size, or materiality grounds or on the grounds that the entity(s) is held for sale would still be considered as relevant entity for this purpose. A group is a relevant group if (i) the entities of the group are not all incorporated, registered or established in a single jurisdiction; or (ii) any entity of the group has a place of business in more than one jurisdiction.

As the IRAS is expected to issue further guidance on the implementation of the above proposed changes, there will be a need to monitor the developments and implications on the Fund.

Further, it has been announced in the Singapore Budget 2023 presented in parliament on 14 February 2023 that Singapore plans to implement the Global Anti-base Erosion (GloBE) rules and a domestic top-up tax (DTT) for in-scope businesses from their financial year starting on or after 1 January 2025. Very broadly, the GloBE rules operate to ensure that multinational enterprises with consolidated annual revenues of EUR 750 million or more pay tax at an effective rate of at least 15% on profits (as defined in the GloBE rules) earned in the jurisdictions in which they operate. Details of the DTT are not yet available.

D. Trust level – Goods and Services Tax

The Fund may incur Singapore Goods and Services Tax (“GST”) on its expenses. The standard rate is currently at 8% from 1 January 2023 and will be increased to 9% from 1 January 2024.

Should there be GST incurred, the Fund may be allowed to claim the amount of GST if it meets the qualifying conditions through a GST remission which has been extended to 31 December 2024. The amount of GST to be claimed is based on a fixed percentage which is revised annually. The fixed recovery rate for 2023 is 91% and is 90% for 2024.

The Managers expect to be able to fulfil all of the ETF Scheme conditions for the Fund to qualify for the GST remission.

Should the Fund not meet the qualifying conditions, the GST incurred (if any) will become an additional cost to the Fund.

From 1 January 2020, GST will be levied on business-to-business imported services by way of reverse charge. A prescribed fund is liable for GST registration if it imports or expects to import services exceeding SGD 1 million in a 12-month period and is not entitled to full input tax credit. Where it is registered for GST, the prescribed fund can continue to claim the GST incurred based on the fixed recovery rate.

II. Malaysia

Our comments below cover the general taxation of income for Holders subject to the provisions of the Malaysian Income Tax Act 1967 (the “MITA”).

We hereby confirm that the statements made in this report correctly reflect our understanding of the tax position under current Malaysian tax legislation. Our comments below are general in nature and cover taxation in the context of Malaysian tax legislation only and do not cover foreign tax legislation. The comments do not represent specific tax advice to any investors and we recommend that investors obtain independent advice on the tax issues associated with their investments in the Fund.

General

Distributions derived from the Fund (which is constituted outside Malaysia, discretionarily managed outside Malaysia and has a trustee tax resident outside Malaysia) and received in Malaysia are generally foreign-sourced income from overseas investments.

With effect from 1 January 2022, the exemption of foreign-sourced income received in Malaysia is only applicable to a person who is a non-resident.

The taxation of foreign sourced income will depend on the tax profile of the specific resident Holder.

Gross foreign sourced income remitted to Malaysia by Malaysian corporates will be taxed at 3% during the transitional period from 1 January 2022 to 30 June 2022. From 1 July 2022 onwards, any foreign-sourced income remitted to Malaysia will be subject to Malaysian income tax at the prevailing rate for resident Holders.

Currently, the corporate income tax rate is at 24% for resident companies. Companies with paid-up capital in respect of ordinary shares or Limited Liability Partnerships with capital contributions below MYR 2.5 million* at the beginning of the basis period are taxed at the following scaled rates:

Chargeable income**	Income tax rate
The first MYR600,000	17%
In excess of MYR600,000	24%

* The above shall not apply if more than –

- (a) 50 per cent of the paid up capital in respect of ordinary shares of the company is directly or indirectly owned by a related company;
- (b) 50 per cent of the paid up capital in respect of ordinary shares of the related company is directly or indirectly owned by the first mentioned company;
- (c) 50 per cent of the paid up capital in respect of ordinary shares of the first mentioned company and the related company is directly or indirectly owned by another company.

“Related company” means a company which has a paid up capital in respect of ordinary shares of more than RM2.5 million at the beginning of the basis period for a YA. Individual and other non-corporate unit holders who are tax resident in Malaysia will be subject to income tax at graduated rates ranging from 0% to 30%.

However, as a concession, certain specific types of foreign-sourced income received in Malaysia will be exempted from 1 January 2022 to 31 December 2026 (i.e. 5 years period):

- **Income Tax (Exemption) (No. 5) Order 2022 [P.U.(A) 234/2022]**

All classes of income received by resident individuals, except for resident individuals which carry on business through a partnership.

- **Income Tax (Exemption) (No. 6) Order 2022 [P.U.(A) 235/2022]**

Dividend income received by resident companies, limited liability partnerships and individuals (in respect of dividend income received through a partnership business in Malaysia).

The Exemption Orders are subject to compliance with the following conditions imposed by the Minister of Finance (“MoF”) as specified in the guidelines issued by the Malaysian Inland Revenue Board (“MIRB”):

- The foreign sourced income received in Malaysia shall have been subject to foreign tax, i.e. tax of a similar character to income tax under the law of the territory where the income arises (“subject to foreign tax condition”); and
- In relation to dividend income (in addition to the subject to foreign tax condition above), the highest rate of tax of a similar character to income tax charged under the law of the territory where the income arises at that time is not less than 15% (“minimum 15% foreign tax rate condition”).

The Guidelines on Tax Treatment of Income Received from Abroad dated 29 December 2022 (the “updated FSIE Guidelines”) provides guidance on the tax exemption for foreign-sourced income granted under the above-mentioned exemption orders.

In addition to the 2 conditions specified above by the MoF, foreign sourced dividend income should be exempted if the taxpayer has complied with the third condition on the economic substance requirements as specified in the updated FSIE Guideline issued by the MIRB. Based on the updated FSIE Guidelines, a resident company, limited liability partnerships and individual (in relation to a partnership business in Malaysia) shall be regarded as having economic substance if it:

- employs adequate number of employees with necessary qualifications to carry out the specified economic activities in Malaysia; and
- incurs adequate amount of operating expenditure for carrying out the specified economic activities in Malaysia.

It is stated that the minimum thresholds for the above economic substance requirements will be dependent on the facts of each case. This third condition should only be applicable if the “subject to foreign tax condition” and “minimum 15% foreign tax rate condition” could not be fulfilled.

It has recently been proposed during Budget announcements that the scope of taxable foreign source income received in Malaysia will include capital gains from disposal of assets outside Malaysia from 1 March 2024 onwards. The above rules will similarly apply to such foreign capital gains brought into Malaysia.

Distribution from the Fund is unlikely to be considered as dividend income. As such, any distribution from the Fund received by resident companies and limited liability partnerships in Malaysia should be taxable.

Certain Holders who are financial institutions or investment dealers will continue to be subject to Malaysian income tax on income received from foreign investments since such income will not be considered to be foreign source.

Such income from foreign investments may be subject to taxes or withholding taxes in the specific foreign country. Subject to meeting the relevant prescribed requirements, the Holders in Malaysia are entitled for double taxation relief on any foreign tax suffered on the income in respect of overseas investment.

Income distributions in the form of new units from the Fund

The Holders receiving their income distribution by way of investment in the form of new units from the Fund will be regarded as having purchased the new units out of their income distribution after tax. As such, the Holders will similarly be seen as receiving either foreign sourced income which may be exempted from Malaysian income tax, or could either be taxable income at the prevailing rate in the hands of Malaysia tax resident or exempted, subject to the updated FSIE Guidelines.

Gains on sale of foreign investments

Currently there is no capital gains tax regime in Malaysia. Accordingly, gains realised by Holders on the sale or redemption of units which are treated as capital gains (other than those in the business of dealing in securities, insurance companies, financial institutions) should not be subject to Malaysian income tax. This tax treatment will include cash or residual distribution in the event of the winding up of the Fund.

As such, Malaysian funds which hold investments on a long-term basis would normally treat the gains to be capital in nature and not subject to income tax. In addition, Malaysian unit trust funds are specifically not taxed on gains on sale of investments.

Introduction of Capital Gains Tax (“CGT”)

Following the announcement by the Malaysian government in Budget 2024, it is proposed for CGT to be introduced on capital gains from disposal of unlisted Malaysian shares effective from 1 March 2024. The proposed CGT rate will be imposed as follows:

Acquisition Date	CGT rate
Before 1 March 2024	The Holders may choose: i. 10% on net gain; or ii. 2% on gross sales value
From 1 March 2024	10% on net gain

It is also announced that the CGT will be exempted for gains from disposal of shares related to initial public offering exercised and approved by Bursa Malaysia and restructuring of shares within the same group. At this stage, no further details or rules have been provided.

Holders who are financial institutions (e.g. banks and insurance companies) and investment dealers would be taxed in Malaysia on such gains at the normal corporate income tax. An entity can be treated as an investment dealer due to their frequency of investment transactions and the manner investments are managed. The corporate tax rate is as noted above.

Other taxes

With effect from 1 January 2019, where any person in Malaysia (whether or not registered for service tax) acquires taxable services from any person outside of Malaysia, such acquisition will be subject to service tax (imported taxable services). As such, where there are any services charged to Holders, it should be noted that the service recipient is liable to determine and account for the service tax on the value of the imported taxable service.

Please note that effective 1 January 2020, foreign service providers who provide digital services to customers in Malaysia are required to register for service tax in Malaysia and charge digital service tax on such service.

Yours faithfully,

For and on behalf of PricewaterhouseCoopers Singapore Pte. Ltd.

18. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust fund with borrowed money is more risky than investing in your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

1. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the loss or gain on your investment.
2. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
3. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your loan.
4. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore carefully study the terms and conditions before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

ACKNOWLEDGEMENT OF RECEIPT OF RISK DISCLOSURE STATEMENT

I acknowledge that I have received a copy of this Unit Trust Loan Financing Risk Disclosure Statement and understand its contents.
